Commons To Discuss Issue Of Compulsory Service

LONDON, Apr. 18.—"The immediate acceptance in principle of the compulsory mobilisation of man, munition and money power of the nation" is urged in a motion which Mr. L. S. Amery is putting down on the order paper to-night. He has nearly 50 Government supporters, including Mr. A. Duff-Cooper, Sir Edward Grigg, Sir John Wardlaw-Milne, and Sir Stanley Reed in favour of the motion.—*Reuter*.

EX-GOVERNOR OF HONGKONG DIES

THE DEATH is announced in London of Lieut.-Colonel the Rt. Hon. Sir Matthew Nathan, P.C., G.C.M.G., K.C.M.G., C.M.G., LL.D., one of Hongkong's foremost Governors, and also one-time Governor of Queensland.

Sir Matthew Nathan, who was 77 years of age, completed a brilliant career in the service of the British Government in 1926. For four years, from 1903 to 1907, he made himself an outstanding administrator of Hongkong, and the beneficial effect of his successful governorship is felt in the Colony even to-day.

SIR MATTHEW NATHAN

MILITARY SERVICE

He was Colonel of the Durban Light Infantry in 1914. In 1908 he served in the Nile Expedition, and he also saw service in the Lushai Expedition in 1889, when he was awarded a medal with clasp.

From 1895 to 1900 he was Secretary to the Colonial Defence Committee, and in 1890 he administered the Government of Sierra Leone. From 1900 to 1903 he was Governor of the Gold Coast.

He came to Hongkong to become chief administrator here until 1907. From Hongkong he was appointed Governor of Natal, an office which he held for two years.

Sir Matthew was then called home to assume the duties of Secretary to the Post Office from 1909 to 1911, and from 1911 to 1914 he was Chairman of the Board of Inland Revenue, a member of the Pacific Cable Board.

His next important office was Under-Secretary to the Lord Lieutenant of Ireland, which he occupied from 1914 to 1916, and in 1916 he was employed on the London Defence.

GOVERNOR OF QUEENSLAND

From 1916 to 1919 he was Secretary to the Ministry of Pensions, and then in 1920 he once again assumed gubernatorial duties, when he became Governor of Queensland.

He held this office until 1926, when he retired from active Government service. From 1922 to 1926 he was Chancellor of the Queensland University.

In 1927 he became Chairman of the sub-committee on Geographical Surveying. From 1927 to 1928 he was a member of the special commission on the Constitution of Ceylon, and from 1928 to 1929 he was Chairman of the Colonial Secretary's advisory committee on rubber.

In 1929 and again in 1930 he was Chairman of the civil research sub-committee on Irrigation Research. From 1930 to 1931 he was President of the Somerset Archaeological and Natural History Society.

After his retirement he was made an Alderman of the Somerset County Council, which office he held from 1927 to 1935. He was also Sheriff of Somerset from 1934 to 1935. He was made a J.P., and Deputy Lieutenant of Somerset, and was also an F.S.A., F.R.G.S., and F.R.H.S.

Nathan Road, the principal thoroughfare of Kowloon, was named after Governor Nathan.

GIBRALTAR PRECAUTIONS AS FLEETS MASS

GERMAN WARSHIPS SAIL FOR SPAIN

BERLIN, Apr. 18.

A COMPACT and powerful German battle fleet, consisting of forty units, including 28 fighting craft, left Kiel, Wilhelmshaven and Emden early this morning for a cruise off the Spanish, Portuguese, Spanish Moroccan coasts.

It has been officially denied that there is any strategic significance attached to the cruise.

Meanwhile the Rumanian Foreign Minister has arrived here and has been in conference with the German Foreign Minister.

It is reported that Herr Ribbentrop will ask M. Gafencu to say plainly whether Rumania intends to join the Anglo-French anti-aggression bloc.

It is also reported that Mussolini plans to win Hungary's close support for the Axis.—*United Press*.

BOUND FOR ITALY?

BERLIN, Apr. 18.

TWENTY-FIVE warships, together with auxiliary vessels, participating in a cruise in the Atlantic which will last a month off the West Spanish peninsula, began assembling to-day off Heligoland.

Battleships and submarines left Kiel naval base during the night, and the remainder of the squadron left Wilhelmshaven this morning.

It is stated that the ultimate destination of the fleet will be Italian harbours.—*Reuter*.

GIBRALTAR PREPARES

GIBRALTAR, Apr. 18.

OVER A DOZEN French warships here kept up steam all day.

The crews returned to their ships at sunset after being allowed ashore for two hours.

The harbour entrance was closed at dusk and two destroyers have been patrolling the Bay.

Steel helmeted British troops are keeping sentry at the frontier gates which have been closed, while the road to Gibraltar from Spain has been barricaded.

Reports from Spain say that after leaving Seville contingents of Spanish troops have returned to the Spanish frontier districts.

These included cavalry regiments which are now billeted at San Roque and Algeciras.—*United Press*.

CARDIFF TO LEAVE FAR EAST

LONDON, Apr. 18.

The Admiralty announces that H.M.S. Cardiff, the new City class cruiser at present serving on the China Station, and which is now in Hongkong, is to return to the United Kingdom.

The vessel is leaving about the end of April, and will be replaced in due course by a larger cruiser.—*Reuter*.

Spanish Preparations

Tangiers, Apr. 18.

It is reported here that 20 four-pounder guns have recently been placed along the Spanish coast facing Gibraltar.

Travellers from Lallina claim they have seen field guns being placed in garages and stables.

They express the opinion that there is no more room to store these guns in the military barracks.—*United Press*.

France On War Footing

Paris, Apr. 18.

The Council of Ministers, presided by President Lebrun, to-day enacted a series of decrees enforcing the Prime Minister's complete programme to put France on an emergency war footing.

The decrees operate both industrially and economically by creating government control of all raw materials.—*United Press*.

Chamberlain Tells Of Consultations

LONDON, Apr. 18.

IN THE House of Commons to-day, Mr. Chamberlain indicated that the maintenance of the independence of the Netherlands, Switzerland and Denmark was of the greatest importance to the European anti-aggression front.

Britain, he said, was continuing in very close consultation on military and other matters with other Powers, including the Soviet, with a view to formal adherence to the anti-aggression bloc.

He failed to mention Turkey, with whom it is understood negotiations might be completed this week.

The Prime Minister was warmly cheered when he referred to the Government's "great satisfaction" regarding President Roosevelt's message.—*United Press*.

Britain's Ability

London, Apr. 18.

Asked in the House of Commons to-day whether he was in a position to announce any new measures designed to increase British ability to discharge her recently extended commitments, Mr. Neville Chamberlain replied that steps were being taken, both to accelerate and widen the basis of production with a view to providing increased war material, bearing in mind the increased demand which it was provided to anticipate in view of the recent developments.

Replying to a question in a Ministry for Supply, Mr. Chamberlain indicated that he would make a statement before the Committee, that

BIG CANTON BATTLE RAGES

Chinese Regain 500 Villages

CHINESE FORCES converging on Canton from the south-west, west and north-west have succeeded in forming a common frontier over ninety miles in length, stretching from the north bank of the East River at Sheklung semi-circularly around the old Kwangtung capital through Tsengshing and the Canton-Hankow Railway town of Tailong.

As a result of the operations of the past week, the Chinese forces claim to have recaptured over 5,000 square miles of territory around Canton. In this territory are over 500 villages, with a normal population of several millions.

It is claimed that the Chinese are now in undisputed possession of the entire Kowloon peninsula south of the East River, with the exception of the area on the south bank of the East River around Tungking. Japanese forces defending Tungking are being covered by Japanese warships.

Ten Miles Away

The Chinese front is now an average of less than twenty miles from Canton, and is reported to be relentlessly closing in on the city. At the nearest point, on the Canton-Hankow Railway, they are less than ten miles from the city.

Heavy gunfire is audible in the Anglo-French Concession at Shamen. It was reported this morning that the Chinese had completed possession of Sheklung, and were pushing on to Sheklung, the Kowloon-Canton railway city, on the east bank of the Tsangkong River. Sheklung is thirty miles west of Canton, and the Tsangkong is the last of the many rivers and streams which the Chinese troops, operating in the region, would

BRITAIN RESTORING ORDER IN PALESTINE

LONDON, Apr. 18.

FURTHER PROGRESS was made in the past month towards the restoration of order in Palestine, stated Mr. Malcolm MacDonald in reply to questions in the House of Commons to-day.

As a result of the firm and energetic action of troops and police, large armed bands had been broken up. One of the chief gang-leaders had been killed, and another had taken refuge across the Syrian border and had surrendered to the French authorities.

Considerable quantities of arms, munitions and explosives had been seized or surrendered, but isolated acts of terrorism and sabotage continue.

The Government was not yet in a position to make a statement with regard to future policy.

Deferring Decision

Mr. Tom Williams, Opposition Labour, suggested that in view of the international situation, the final decision concerning Palestine should at any rate be deferred for six or twelve months.

Mr. MacDonald replied that that was one of the matters the Government was bearing in mind.

Mr. G. Le Mander asked a question with regard to "negotiations going on recently in Cairo with regard to Palestine" and Mr. MacDonald replied that no negotiations were going on, but that it was a different question which he would answer to-morrow.—*Reuter*.

SONG WRITER LEFT £997 AND A NEW HIT

Asked For Red Roses, Forbade "Moping"

"NO mourning or moping for me. Most likely I will be popping in at odd moments to keep an eye on my dear ones"—these are the last words of the will left by Archibald Emmett Adams, the famous composer.

He died last October at the age of forty-eight at Leinster-gardens, W. London.

He also asked that there should be red roses at his funeral, and wrote both words and music of a song to be played at it.

This music, "Life's Great Sunset," was not to be made public until after his death, as he had instructed. His wishes were observed, and the song, now published, is a great success.

WAR FAVOURITE

It was said that he made a fortune from his songs, which had been heard all over the world.

They included the war-time favourite "God Send You Back To

Me" and the "Bells of Saint Mary's." But he died leaving £997 18s. The amount is comparatively small, because, says a close friend, he was so wonderfully generous to people in all walks of life.

Several other songs which he left will be published, for he is still a best-seller.

There is also a complete novel which was found after his death, ready for publication. This will be published soon and will have the unusual interest of being a first novel published post-humously.

A friend who has read the manuscript said, "It is a most amusing book and shows that the author was a fine psychologist and had a keen wit without being malicious."

MAY TAKE CROWN TO CANADA

FOR the first time in history the Imperial State Crown will leave England in May, when the King and Queen will take it with them if their visit to Canada is not interrupted by the international situation.

The crown is that worn by the King at the opening of Parliament. Until the passing of the Statute of Westminster in 1931, it could not leave the shores of the United Kingdom.

It is being taken to Canada, so that it may be worn by his Majesty at the proroguing of Parliament there, when the King will give his assent to Canadian Acts of Parliament. At the opening of Parliament the Queen does not wear a crown.

The Imperial State Crown is the most famous, spectacular, and valuable piece of jewellery in the world. Its value has been assessed at £500,000, but its historical associations place it beyond price.

It weighs nearly 40 ounces, contains 2,783 diamonds, 227 pearls, 18 sapphires, 11 emeralds, and five rubies.

Among the rubies is the famous one given by King Pedro the Cruel to the Black Prince, and worn by King Henry V. at the Battle of Agincourt, and by King Richard III. at the Battle of Bosworth.

Then there is the Second Star of Africa, given from the Cullinan Diamond, and four brilliant, egg-shaped pearls which were Queen Elizabeth's ear-rings.

50 Million-Year-Old Fish Wanted

EXPERTS have hopes of capturing another specimen of the prehistoric fish—believed to have been extinct for 50 million years—which was caught off East London, South Africa, on December 22, 1938.

D. J. L. Smith, of Rhodes University College, Grahamstown, well-known natural history expert, writes in "Nature," telling the story of the catch.

The discovery of the fish was described as "one of the most amazing events in the realm of natural history in the twentieth century."

Dr. Smith hopes that another specimen may be captured. "This is not so remote as might appear," he writes.

"After examination of the mounted specimen, a responsible citizen-angler of East London stated that about five years ago he had found such a fish, partly decomposed, cast up by the waves on the shore east of East London. When he returned with assistance the monster had vanished with the tide."

Accompanied by the Princess Royal and the Duke of Kent, she visited sixty-four stalls—one more than her previous record in 1935—and rested for only fifteen minutes during a tour lasting three and a half hours.

Salesmen were astonished at the size of her purchases. They included:

- 12 flower vases,
- 12 reproduction tea sets,
- 72 workboxes at one stall,
- 12 sets of table tennis,
- 7 pairs of book ends,
- 84 manicure sets at one stall,
- 144 travelling toilet sets of brush and comb, sponge, etc.,
- 72 powder boxes,
- 150 pieces of china, including four musical mugs which played "Underneath the Spreading Chestnut Tree," "Bulmoral," "Stirling Castle," and "Come to the Fair."
- 38 combs made in the shape of Mr. Chamberlain's umbrella, and called "Mein Kampf."

MOST ENCOURAGING

The fair's most encouraging news yet comes from Mr. Erling Steen, leader of Norway's party of twenty buyers.

After walking through both sections of the fair, he prophesied that Britain might supersede France as the centre of women's fashions.

He said: "I am impressed by the advances made by British manufacturers of fancy goods, cosmetics and perfumery."

"There is now no reason why Paris should be regarded as the centre for goods of female appeal."

Salesmen at many stands reported that business was much improved over last year. One of them in the textile section said it was twice as good. Another sold the whole of his stand display to a London store.

DIFFICULT YEARS FOR CHILDREN

It's when children start to shoot up suddenly that they need your special attention. Children who are growing fast often tire easily, get pale, listless and do poorly at school.

The trouble is that children have a double job of work to do. They use up energy in work and play and at the same time they are growing!

Doctors and nurses have recommended Horlicks for years for children who need this extra energy. Horlicks moreover builds sturdy bone and muscle. You'll find that paleness disappears, and school-work improves. And the children seem to gain endless energy and "go." Get Horlicks to-day.

AUCKLAND TO STORE MILLING WHEAT

AUCKLAND. To guard against emergencies the Auckland Harbour Board has arranged to store 11,000 tons of Australian milling wheat this year. This amount of wheat is equal to six months' supply for the metropolitan area.

Auckland is the only port in New Zealand which is dependent on Australia for its wheat supplies. Grain and produce merchants in the city have been advised by the Wheat Committee that it would be advisable to keep good stocks of wheat for poultry food in store.

POLAR SHIP FOR METEOROLOGISTS

SYDNEY. Mr. Lincoln Ellsworth, the American explorer, who has just sold his Polar ship Wyatt Earp to the Commonwealth Government, says that it should be used for meteorological observations in the Antarctic because conditions there undoubtedly decided the weather in Australia.

It had already been proved, he said, that a hard winter in the Antarctic was followed by a drought season in the cereal growing areas of the Argentine.

It is understood that the Commonwealth Government is consulting with Sir Douglas Mawson, who has taken part in several Antarctic expeditions, as to the best way in which the Wyatt Earp could be employed.

SOUTHERN RHODESIA

MINES CLOSED BY HEAVY RAINS

SALISBURY. It is now possible to form some idea of the losses caused by the recent exceptionally wet season.

The most serious direct losses are in mining, many small gold mines having been flooded and compelled to stop working.

The early tobacco crop is curing out rather thin and papery, but the main crop will be up to standard if reasonable weather obtains during March.

The damage to roads has not been serious. About £2,500 will cover repairs. Shopkeepers, particularly sellers of luxury goods and women's clothes, have suffered rather severely.

I WON'T! I WON'T!

Fits of temper—tantrums—breaking up the party may not be serious to grown-ups but it's tragedy to childhood. There's something wrong with this "bridegroom". What he probably needs is CASTORIA, the children's laxative. Nervousness and fits of temper are not natural in children. At the first sign of irritation, temper, give them CASTORIA, the laxative made especially for children. It's pleasant, gentle, mild and thorough.

Don't let real tragedy grip your children. Insure their happiness with CASTORIA, the laxative which blends perfectly with their delicate, sensitive systems. Get a bottle today. Keep it in your home.

CASTORIA THE CHILDREN'S LAXATIVE

You can give CASTORIA with confidence to all the children—from babyhood to 11 years. It contains no castor oil, no harmful or habit-forming ingredients. Many doses in each bottle. Use as needed. It keeps.

BOY'S LETTER TO DUKE GOT HIM PLACE IN EXPEDITION

"Young Rascal" Thinks Explorer's Name Is Omen

A 15-YEAR-OLD Lancashire boy arrived at London recently on the first stage of the biggest adventure of his life.

He is Frank Wilde, secondary schoolboy, of Doe Hey Road, Bolton, who a month ago wrote to the Duke of Gloucester asking to be allowed to join the expedition of public schoolboys which goes to Newfoundland this summer.

Frank is going to Newfoundland. His expenses are to be paid by the Navy League, and recently in London he met Lord Lloyd, president of the League, and Surgeon Commander Murray Leveik, R.N., who is to lead the expedition.

"It was something my mother said that made me write to the Duke of Gloucester," Frank said.

"I had been reading Ballantyne's books about Canada and the North," he said.

MOTHER'S HINT

"I had read 'Fast in the Ice,' and was finishing 'Unkava' when I read about the expedition."

"I told my mother that I wanted to go to Newfoundland with the expedition. All she said was, 'You'll get nowhere unless you do something about it.'"

"The very next day I wrote the letter to the Duke."

"Then one day Mr. Roscoe, the headmaster at my school—the Junior Technical School, Bolton—called me into his room and said that he had letters about a boy called Wilde, and was it me."

"THE YOUNG RASCAL"

"I filled up a form, had a medical examination, and the headmaster gave me a very good certificate."

"When I met Commander Leveik to-day he said: So you are the

29 LBS UGLY FAT GOES IN 6 WEEKS

New, Safe Slimming Method praised by all

The following is one of the extreme cases of fatness which proves beyond a shadow of doubt that Bon Kora will reduce your weight and bulk to normal after all else fails, and improve your appearance and in health at the same time. If you are merely overweight, or your weight is even twice as fat and heavy as you should be, Mrs. Prateau's letters will make interesting reading.

"I had been under the doctor's care for bad heart and liver. He advised me to reduce. I tried all sorts of remedies without result. Then a friend told me of Bon Kora and I decided to try it. I lost 29 lbs. in 6 weeks. Reduced but 6 inches, weight 110 lbs. Now wear a dress 3 sizes smaller."

My liver troubles, headaches and tired feeling have gone too. I feel full of pep.—Mrs. M. A. Prateau.

Bon Kora Reduces Fat Quickly—Builds Up Health. You too can get rid of your fat as did Mrs. Prateau, without taking drastic measures, without doing exercises, which, if you are excessively fat, would be extremely dangerous to health. Bon Kora not only rid you of ugly fat, but tones up your whole body, making you fitter, stronger and to feel and look younger than for years. Bon Kora takes off unwanted fat in new, safe way. Triple action. Triple result, but absolutely safe. Bon Kora gives you firm, healthy flesh of good colour in place of the ugly, ugly fat which made you look old and unattractive.

17 YEARS FOR ONE MAN

Nine Accused Get 91 Years

Sentences totalling ninety-one and a half years were passed by Mr. Justice Humphreys at the Old Bailey recently on nine accused men in the bombs trial.

HERE are the names of the nine accused and the sentences given them:

- Michael Joseph Mason, aged 29, engineer, of Great Nelson-street, Liverpool—SEVENTEEN YEARS.
- Peter Stuart, aged 25, poster writer, no address, described in I.R.A. documents as "Operations Officer, Britain"—FIFTEEN YEARS.
- Charles James Casey, aged 23, porter, of Vinland-street, Bethnal Green—FOURTEEN YEARS.
- Michael Preston, aged 23, labourer, of Cambridge-street, Pimlico—TWELVE YEARS.
- John Healy, aged 40, club proprietor, of Fordington-road, Highgate—TEN YEARS.
- James Michael Lyons, aged 26, French polisher, of Petherton-road, Islington—TEN YEARS.
- George Brendan Kane, aged 23, butcher, of Harold-road, Sutton—SEVEN YEARS.
- Michael O'Shea, aged 24, labourer, of Clower-crescent, Harrow Weald—FIVE YEARS.
- Joseph Walker, aged 28, labourer, of Great Nelson-street, Liverpool—EIGHTEEN MONTHS' HARD LABOUR.

Kane had pleaded guilty to conspiring to cause explosions and to commit arson. The others were found guilty. All, with the exception of Walker, were found guilty of possessing explosive substances or firearms. Walker was found Not guilty of this.

Walker, Healy and O'Shea had pleaded not guilty to all charges. Casey, Mason, Stuart, Preston, and Lyons, in refusing to plead when the trial began, each declared himself to be a "soldier of the Irish Republican Army."

TWO NOTES TO JUDGE. After an absence of an hour and a quarter the jury—ten men and two women—sent the judge two notes and then returned to court.

The foreman asked two questions of Dr. Roche Lynch about aluminium powder found on Walker's coat, and then the jury retired again for another thirty-five minutes.

As soon as the verdicts of guilty had been returned the judge ordered all the prisoners, with the exception of Mason, Stuart, and Preston, to go below.

All the other accused, except those three, were hustled down the steps, leading to the cells. Mason, Stuart, and Preston stood in a row side by side in front of the dock, each with his arms folded, awaiting sentence.

"O.C. BRITAIN" Detective-Inspector Thompson said Mason came to this country early in December, 1938, and took over the post of "O.C. I.R.A. Great Britain" in succession to a man who was killed by the premature explosion of a bomb on the Irish border.

Stuart's correct name was Peter Joseph Walsh. He was born in Glasgow, and was the son of a pensioned police constable in that city.

When Mason was asked by the Judge whether he wished to put any questions, he folded his arms across his chest and, with a smile, said: "My name is not Mason, I would like to be sentenced in my real name. It is Cleary."

AN INCENDIARY. Then Preston broke his silence to say, "My correct name is not Preston, it is Fleming."

Dealing first with Mason, Mr. Justice Humphreys, in stern, slow tones, said:

"It is quite clear that you are an incendiary. You were personally engaged in an attempt to blow up one of the pylons, and I am now told that you are what is called 'O.C. Great Britain.'"

"I regard you as the worst of the men in the dock."

Peeress Phones 'Send Sweep To Wedding'

A FEW hours before her daughter, the Hon. Elizabeth Blades, was due to be married at St. Margaret's, Westminster, recently, Lady Ebbisham rang up a firm of Belgravia chimney sweeps and said: "I want Mr. Saintry to come to the wedding."

Mr. Fred Saintry, age seventy-three, who has been with the firm fifty-two years and still walks four miles to his work, went to see Lady Ebbisham.

"I'm a bit old for the job," he told her. He suggested that his assistant, Mr. Thomas (Boo) Edwards of Aylesford-street, Vauxhall Bridge-road, S.W., should deputise for him.

Lady Ebbisham made out an invitation to the wedding for Mr. Edwards with a card on which she had written "Admit sweep."

So Mr. Edwards, forty-seven-year-old "Old Contemplative," who has swept the Ebbisham chimneys with his foreman, greeted the Hon. Elizabeth and her bridegroom, the Hon. Guy Herbert Edward Russell, R.N., brother of Lord Amphil, as they left the church.

He said: "Lady Ebbisham had given instructions that I was to go up to her son-in-law as soon as he left the church, tap him on the shoulder, and wish him good luck."

"He didn't know anything about this, and when I went up and said to him, 'I wish you the best of luck and I hope you have lots of kids' he turned round and roared with laughter."

"The bride was a bit shy. She dropped her train, and he turned to her and said, 'Hallo, what's happened here?'"

"Then he turned back to me and said, 'Thanks very much, I wish you all the best of luck as well.'"

Petty Officer Loses Case

Engine-room Artificer Eric John A. Jenkins, of H.M.S. Curacoa, failed in his action for damages against his Admiral and Captain.

Judgment with costs was given in the King's Bench Division in favour of Admiral of the Fleet the Earl of Cork and Orrery, and Captain Richard Shelley.

Jenkins' case was that in January, 1938, instead of being court-martialled, he was sentenced summarily to 12 days' detention on a charge of wilfully disobeying his superior officer.

Mr. Justice Hallett said that the only point for decision was whether Jenkins was sentenced for highly insubordinate conduct.

"I think wilful disobedience to a lawful command would correctly be described as a kind of insubordination," the Judge stated.

"The adjective seems to me not to render highly insubordinate conduct a different offence from insubordinate conduct."

Counsel for Jenkins were Sir Stafford Cripps, M.P., Mr. Peter Poin, Central Portsmouth's 26-year-old Labour candidate, and Mr. Anthony Cripps.

Present Day Prodigal Son

More than eight years ago a Dundee man quarrelled with his father, left home, yet returned shortly afterwards and lived in the same street as his father, without being seen. This strange story was told in Dundee Sheriff Court in connection with a petition lodged by the father to presume his son dead—the petition was rendered necessary by the question of payment under an insurance policy. Assenting to the withdrawal of the petition the Sheriff commented on what seemed to be the almost impossible fact that the son had lived within a few yards of his father for so long without being seen.

have to cross in their attack on the capital.

Bitter fighting is reported in the areas between the East River, Tseng-shing and Tsunglo.

K.C.R. Recaptured

The entire Kowloon-Canton Railway for a distance of six-and-a-half miles is now in complete possession of the Chinese.

East of Canton, bitter fighting is reported in the Fatsan and Salmam Creek areas.

It is emphasized in Chinese circles that, whether Canton is recaptured or not, the immediate effect of the Chinese successes has been to completely relieve any possibility of a Japanese invasion of Kwangsi being undertaken, since the Japanese forces are now back to where they started after Canton fell last October.

Japanese Counter-Attack

A "Central News" message states that Japanese reinforcements are pouring into Shaktan, for a counter-offensive against Tsengshing and Shaktung.

The Chinese are reported to be maintaining advanced positions southwest of Tsengshing. Since April 16, three Japanese columns comprising about 8,000 men, have been driving on Pailum, on a tributary of the Tseng River, to threaten the rear of the Chinese at Tsengshing. They have encountered stiff Chinese resistance in the neighbourhood of Tsunglo, suffering at least 400 casualties.

Other Fronts

Fighting is still proceeding vigorously on other fronts in China. A "Reuter" message from Peiping states that fighting is intensifying in Shansi.

Fighting is intensifying in Shansi, and the battles are now moving northward towards the centre of the province.

Fighting in North Honan and Central Hopei continues, but no substantial advantage appears to have been gained by either side, "Reuter" claims.

Russian Assistance

Japanese official despatches from Peiping complain that Russians are assisting the Chinese in the offensive in South Shansi.

According to a Japanese spokesman, Russian tactics and methods of firing are being employed by the Chinese artillery on this front.

Asked if Russian-trained Chinese might be responsible, the spokesman said "Reuter" that he believed Russians were operating the artillery.

Heavy fighting continues on many fronts in the North. There have been five battles in South Shansi, two near Pailum, one south of Kalfeng, and another north-east of Peiping, "Reuter" adds.

Question in Commons

LONDON, Apr. 18. Replying to Mr. W. Faling in the House of Commons to-day, Mr. R. S. Hudson said that reports had been received of fighting in Kalfeng, but it was not yet possible to vouch for their accuracy.

Otherwise, there had been no important changes since the House rose for Easter.

In a written reply to Mr. H. J. Parker, Mr. Butler said that according to latest official Chinese figures, the Chinese Government claimed to be exercising complete administrative control over 61½ per cent of the nine provinces in which the Japanese were at present, as compared with seven and a half per cent under Japanese control, and 31 per cent partly under Chinese and partly under Japanese control.—Reuter.

AFFRAY IN DOCKYARD

Cross Summonses Heard in Court

Involving Indian constables attached to the Royal Naval Dockyard, the hearing of a summons and counter-summonses of assault was continued before Mr. A. D. Forrest at the Central Magistrate's yesterday.

Zaffer Khan, 25, former Indian constable of the Dockyard is accused of having assaulted Abdul Gaffoor, once a fellow constable, with a pole at the Indian quarters of the Dockyard on March 10. Khan has counselled by Abdul Rahman, Karim Bux, Abdul Rahman, Mohammed Din and Gaffoor, all connected with the Dockyard Police, for assaulting him.

Gaffoor was represented by Mr. D. McCallum and Khan by Mr. M. A. Silva. With the exception of Gaffoor, the three other defendants in the counter-summonses were represented by Mr. W. M. Brown.

At yesterday's hearing Abdul Rahman said that he was talking to Gaffoor on the steps of the Dockyard when Khan walked past him with a pole. Khan followed Gaffoor and raised the pole in a striking attitude. Witness sprang forward and caught hold of Khan by the waist and then both of them fell.

Khan got up and witness saw him strike Gaffoor a blow on the head. Witness made an attempt to blow his police whistle but was prevented from doing this by being caught hold of by two other constables. Witness struggled free and ran after Khan who was chasing Gaffoor. Witness again saw Khan hitting Gaffoor, who fell to the ground. The pole was wrested from Khan's hand and he walked away.

Cross-examined by Mr. Silva, witness said he did not know of any particular grudge between Gaffoor and Khan.

Mr. Silva: Did you think that Khan had gone mad and run amok? I don't know whether he was mad or not.

Mr. Forrest: What idea had you at the time? My idea was that he was not mad.

Mr. Silva: I put it to you formally that you and four other persons attacked the defendant inside the new quarters?—We did not enter the quarters.

I put it to you further that the reason why two persons attempted to hold you back was to prevent you from further assaulting the defendant?—I was not fighting.

Mr. Forrest adjourned the case to April 24 and then accompanied the solicitors to the scene of the alleged assault.

POLITICAL ACTIVITY

statement on this subject in the near future.

Independence

Questioned regarding negotiations with other governments, the Premier said that the Government had entered into no specific engagements with Holland, Switzerland and Denmark, but he added:

"It is necessary for me to insist on the interests which His Majesty's Government has in the preservation of their independence."

The Premier, answering Mr. Clement Attlee, said the Government continued to have close consultations with other interested governments, including Russia, but he could not yet supplement his statement of April 13 on this matter.

Roosevelt's Message

Mr. Chamberlain added: "I should like to thank the opportunity of informing the House of the great satisfaction with which the Government welcomed the recent initiative of President Roosevelt."

Mr. Chamberlain's reference to the United States was received with prolonged cheering.

Mr. Leslie Hore-Belisha, Secretary of State for War, in reply to a question regarding Bren guns, stated that the output was being enlarged, and a "sufficient capacity" was being created in Canada. Australia and South Africa also contemplated establishing factories to manufacture Bren guns.

Mr. Hore-Belisha added that all regular infantry units at home and abroad, except India and Burma, which were separately equipped, had the Bren gun issued up to war scale.—Reuter.

Borlin Communiqué

Berlin, Apr. 18. The following official statement concerning the first conversation between Herr von Ribbentrop and M. Gafencu was issued to-night: "The Reich Minister for Foreign Affairs, Herr von Ribbentrop received the Rumanian Foreign Minister, M. Gafencu this afternoon for lengthy conversations about questions affecting Germany and Rumania. In the course of the deliberations, which proceeded in a most friendly spirit, it was ascertained that far-reaching agreement of views prevailed on questions affecting both countries."—Trans-Ocean.

Sofia Conversations

LONDON, Apr. 18. The Bulgarian Minister to London, M. Momchiloff, left here to-day for Sofia, where, it is stated, he will discuss the international situation with his Government.

It is not known whether he is the bearer of any special communication from the British Government, but it is stated that he will return to London within a few days.—Trans-Ocean.

Turkish Ambassador

LONDON, Apr. 18. The Turkish Ambassador visited the British Foreign office at 12.30 p.m. to-day. It is understood that he discussed with Lord Halifax the position of the Dardanelles in the anti-aggression pact, and also that he was given information regarding the present stage of the Anglo-Soviet negotiations.—United Press.

Turkey and Greece

ATHENS, Apr. 18. It is reported here that Turkey and Greece have arranged to pool their fighting forces in the event of war. The Turkish general will command the combined armies and a Greek admiral will direct the combined navies.—United Press.

Rumanian Minister To Visit London

LONDON, Apr. 18. The Rumanian Foreign Minister, M. Gafencu will arrive in London on April 22 on an official three-day visit. The programme of talks in which he will be engaged has not yet been fixed.

Mr. Gafencu arrived in Berlin to-day, and his official discussions there will last two days. He will then leave for Brussels, en route to London.—Reuter.

Mussolini Disgusted

Rome, Apr. 18. A high Fascist source reports that Mussolini intends to ignore Hitler's message and to let Hitler speak for both Italy and Germany. Mussolini is "disgusted" at the tone and contents of Roosevelt's message.

He understands that Hitler has told Mussolini that he will give an adequate reply in his speech to the Reichstag on April 28.

Meanwhile, the Hungarian Premier and Foreign Minister are arriving in Rome. Their visit is regarded as Mussolini's first move to offset the Anglo-French front. Mussolini seeking to bring Hungary into active support for the Axis.—United Press.

On May 4 it is hoped to conduct a Melody Bee.

Strikers Hold Up Navy Order

Admiralty Seeks To End Trouble

LONDON, Apr. 18. THE ADMIRALTY has taken action at Siemens electrical engineering factory at Woolwich, where a strike is holding up important Government work.

Admiralty employees are loading barges with submarine cable for Singapore, which is Admiralty property made by Siemens under contract.

While the Admiralty repudiate any action in the nature of strike-breaking, a representative of the strike committee stated to-night that if there was any pressure brought to bear on dockers and lightermen to assist in the removal of the products, there would be serious trouble.—Reuter.

British Ships Sold To Reich

Govt. Powerless To Stop Transactions

LONDON, Apr. 18. QUESTIONED regarding the recent sale of British merchant ships to Germany, Mr. Oliver Stanley, President of the Board of Trade stated in the House of Commons to-day, that the Board of Trade had no power to prevent the transfer of British merchant ships to foreign flags.

In future, it would be made a condition of any assistance for the shipping industry, that owners wishing to scrap or sell vessels, should first offer them to the Government in connection with the scheme for reserve tonnage.—Reuter.

Behind The Scenes In Hongkong

What do you know of the backstage life of Hongkong? Do you know what comprises the training of a fireman, how many trees the Forestry Department plant yearly, where are the Sandalwood Hills and the little bridge built for the convenience of a householder's mother?

It is amazing how little is known of Hongkong by the average resident. Therefore, ZBW intends to conduct a light series of talks entitled "Backstage in Hongkong" which will deal with many of the things that local residents know only vaguely.

These talks will be conducted by Adam Charles and the first of the series will commence on Thursday at 9 p.m. It promises to be interesting and entertaining.

GOOD MUSIC

Chamber Music Club's Sixth Concert

Participated in by such capable local musicians as Miss Prue Lewis, E. Pellegratti, E. O'Neill Shaw, and Miss Barbara Gilmar, singer, the sixth concert of the Hongkong Chamber Music Club was held with great success at Government House last night.

His Excellency the Governor, Sir Geoffrey Northcote, was one of a large and well-pleased audience. Already widely known for the success of past performances, Miss Lewis, Pellegratti, and O'Neill Shaw they displayed last night. Her rich and powerful voice reaching every part of the spacious hall, Miss Gilmar proved very popular with the audience.

Because of the sudden illness of Mr. N. Tonoff, Miss Prue Lewis, a very few days' notice, undertook the violin parts of the concert. E. Pellegratti and E. O'Neill Shaw played the cello and piano respectively. Mr. Arthur Lay accompanied Miss Gilmar in her songs.

Gland Discovery Restores Youth In 24 Hours

Sufferers from loss of vigour, nervousness, weak body, impure blood, falling memory, and who are old and weary before their time will be delighted to learn of a new gland discovery by an American Doctor.

This new discovery makes it possible to quickly and easily restore vigour to your glands and body, to build rich, pure blood, to strengthen your mind and memory, and feel like a new man in only 24 hours. In fact, this discovery which is a home medicine in pleasant, easy-to-take tablet form, does away with gland operations and begins to build new vigour and energy in the body, yet is absolutely harmless and natural in action.

The success of this amazing discovery, called Dr. Nixon's Vi-Tabs has been so great in America that it is now being distributed by all chemists here under a guarantee of complete satisfaction or money back. In other words, Dr. Nixon's Vi-Tabs make you feel like a new man and get your return back. A special, double-strength bottle of 48 Dr. Nixon's Vi-Tabs costs only 2/6. The guarantee protects you. If your chemist can't supply you, write to Muller & Phipps (China), Ltd., 20, Queen's Road, Hongkong.

At the St. Andrew's Women's Fellowship charity games afternoon on Thursday, the following were the prizewinners: Mesdames, and "For (magnificent), Sweden Knappman and Guard (whist) and Mesdames Parsons and Humphreys (bridge). The Fellowship will meet as usual this week. The games will be followed by an entertainment by the bridge players.

The Ministering Children's League will hold their annual meeting at the Helena May Institute on April 20, at 10.30 a.m.

The wedding took place at the Registry yesterday afternoon before Mr. T. J. Gould, Deputy Registrar of Marriages, between Mr. Li Po-hing, clerk of Messrs. Shawan Toms and Co., and Miss Wong Mee-chun, of 123, Hennessy Road. The witnesses were Messrs. S. H. Wong and Lee Chung-poi.

A Whist Drive and Tombola will be held at the China Light and Power Recreation Club at King's Park, to-morrow at 8.45 p.m.

A bridge and mah-jong drive will be held at the Kowloon Union Church at 3 p.m. this afternoon under the auspices of the Women's Guild. Tickets will be \$1 each.

At the Church of St. Paul, Singapore, recently, Miss Marie Rowena Oehlers, daughter of Mr. and Mrs. G. R. Oehlers, of Singapore, was married to Mr. Laurence Salmon, son of the late Mr. and Mrs. J. Salmon, of Southbank, Yorkshire.

At St. Andrew's Cathedral, Singapore, Mr. Michael John MacKenzie-Smith, of Batavia, was married by special licence to Miss Constance Mary Veronica Calland, of Great Crosby, England.

A German naval squadron, which is beginning its spring manoeuvres near Spanish waters, left Germany to-day.—Reuter Bulletin.

EGYPTIAN FRONTIER

Cairo, Apr. 18.
All reports concerning the presence of German troops in Libya and on the Egyptian frontier were denied here to-day by the Egyptian Premier, Mohammed Mahmoud Pasha.

This declaration is accorded unusual significance in political circles because it removes one of the most important grounds for the anti-German press propaganda which has been going on during the past few weeks.—Trans-Ocean.

PREPARATIONS CONTINUE

Cairo, Apr. 18.
A number of ships with war material have arrived at Port Said, according to Egyptian press reports to-day. Contrary to custom, the ships were not unloaded by Italian dockworkers but by Egyptians.—Trans-Ocean.

London, Apr. 18.

FOOD SUPPLIES

London, Apr. 18.
War time plans for rationing and controlling the nation's food supplies by the Ministry of Food, which would work through 19 regional offices and 1,400 local committees, are practically complete. Plans are based on the Government's proposal to become the sole purchaser of all imports and home supplies in the event of war.

Wholesalers would purchase supplies from Government and would operate strictly in accordance with the Food Minister's orders. Retail traders would be registered and licensed by local committees, purchasing from wholesalers at prescribed prices regular weekly supplies to meet their customers' demands.

Immediately on the outbreak of war, two staples would be rationed, namely, butchers' meat, butter and margarine, bacon and ham, lard, dripping, and other cooking fats, and sugar.

A register of carrier pigeons for use in wartime is being compiled by the Air Ministry. Pigeons would be carried in R.A.F. machines and used to convey messages if wireless apparatus were out of action. Since the war the R.A.F. has maintained a pigeon service and, as a result of offers of pigeons from private fanciers, it is expected that about 500,000 birds will be available to play a part in national defence.—British Wireless.

NATIONAL SERVICE

London, Apr. 18.
The exemption conditions in the compilation of the national register are to be revised, according to press reports this morning, because of a storm of protest from various quarters against the recruiting system announced in January.

According to the original plan about half of the able-bodied men in England—between 6,000,000 and 7,000,000—would be listed as "indispensable" to various branches of industry. This fact has proved to be a serious obstacle to recruiting volunteers for the civil defence organization, as well as for the territorial army.

It was also announced this morning that a decision regarding the establishment of a Munitions Ministry will be made during the present week, and that the regular Wednesday meeting of the Cabinet will deal with this question.—Trans-Ocean.

Britain

REACTION
TO PEACE
APPEAL

London, Apr. 18.
Well informed sources state that Mr. Neville Chamberlain in the statement he will make this afternoon in the House of Commons on the attitude of Britain regarding President Roosevelt's message, will cordially welcome the action of the United States President and announce the readiness of the British Government to assist the 25-year plan for international appeasement.—Trans-Ocean.

Interim Of Peace

London, Apr. 18.
So far no reason has been vouchsafed for Herr Hitler's delay in replying to Mr. Roosevelt until the Reichstag meeting, which could be constitutionally called in a shorter period, but newspaper observers in Britain and France regard the interim as guaranteeing a lull after a period of tension. There is only very vague speculation as to the nature of the Fuehrer's response.

The Times says it would be another delusion to imagine the axis Powers have less to lose from a war than the rest, or are less likely to be overtaken by defeat or collapse. The British Government, like the American, would be more than willing to welcome negotiations to re-establish genuine peace. If Hitler has constructive counter-proposals the British people will wait to test them in that spirit.

The peace front has plain recognition of the necessities behind it and a determination which is deep-founded, but because its purpose is neither self-regarding nor aggressive it can become an instrument of positive peace when all its members have concrete proof of a new security in which all can put their confidence. Until that day arrives it will not relax a jot of its resolution or vigilance.—Reuter.

Premier to Speak

London, Apr. 18.
The inclusion of Turkey and Russia in the gigantic peace front nearest conclusion as Parliament assembled in the House of Commons, Mr. Chamberlain and Lord Halifax report on the general situation.

It is understood that Mr. Chamberlain will announce formally Britain's full adherence to Mr. Roosevelt's peace plea, and also intimate that he hoped the Turkish-Russian negotiations would be completed this week.

There are reports of agreements having already been effected by both Turkey and Russia, but British, Russian and French sources here describe these as premature.

New Zealand

Advised To Be
Ready For
Emergency

Wellington, Apr. 18.
An appeal to every man up to the age of 50 to be prepared to defend the country in the event of emergency was made by Mr. M. J. Savage when he spoke at a State luncheon to the delegates of the Pacific defence conference.

The Premier said that day may come sooner than they thought, and then they might have to go to war. It would be New Zealand's job to implement as far as possible the best means of keeping its end up.

Mr. Savage endorsed the view that it is better to hold a conference before a war than after it. There are reasons for all disagreements, and until they are abolished they would never get the "superstructure" everyone wanted. In the meantime, however, they could not carry pious resolutions and await results, but had to prepare for other things that might happen.—Reuter Special.

AUSTRALIAN FLEET

Sydney, Apr. 18.
Manoeuvres of Australian naval units began on Monday at midnight, the New Zealand flagships Neander and Adelaide, together with a number of armed commercial steamers, while the "Red" fleet consists of the cruisers Canberra, Sydney and Hobart, as well as three destroyers and two convoys.

It is officially announced that in the first attack the defenders beat off the attackers, theoretically destroying one enemy cruiser and crippling another.—Trans-Ocean.

Germany

M. GAFENCU
ARRIVES
IN BERLIN

Berlin, Apr. 18.
The Rumanian Foreign Minister, Grigor Gafencu, has arrived in Berlin.

On Wednesday M. Gafencu will be received by Chancellor Hitler, who is returning to Berlin on Wednesday morning. After luncheon at Herr von Ribbentrop's residence the Rumanian Minister will visit the Deputy Party Leader, Minister Rudolf Hess, on Wednesday afternoon and a banquet will be given at the Rumanian Legation on Wednesday night.

Great importance is attached to the conversations between the Fuehrer, Herr von Ribbentrop and the Rumanian Foreign Minister, in view of the recent international developments and one-sided British Guarantee to Rumania. Political circles believe that in addition to questions resulting from the recent German-Rumanian commercial agreement, the general tendency of Rumanian foreign policy will be discussed. It is expected that the Rumanian visitors will be frankly informed of the German standpoint, which considers any participation in the British encirclement manoeuvre as a hostile act against the Reich.—Trans-Ocean.

Woman

Shanghai, Apr. 18.
The Japanese wife of Albert O. Davis, a British subject and former Court reporter, alleged she was slapped by a Japanese Consul policeman on Garden Bridge when she revealed that she was a British subject after the Japanese sentry had pulled her into the police hut and asked her why she failed to bow low enough.

Mrs. Davis said she told the sentry she was a British subject because she had married a Briton, whereupon she alleged the Japanese policeman slapped her face and pushed her, crying out "Do you think if you are British you are God? Do you think the British are superior to the Japanese? What right have you to become British?"

Albert Davis said that he had not asked the British Consulate to protest. It is understood that he is filing suit against the Japanese Consul police, claiming 55,000 yuan damages.—United Press.

SHANGHAI PAPERS RECEIVE
DISTURBING LETTERS

Shanghai, Apr. 18.
Threats of violence against two British-owned and two American-owned Chinese language newspapers arrived at their offices this morning, purporting to come from the "Chinese Youth National Salvation Association."

The letters threatened the use of bombs and bullets and the "patriots" said they have no objections dying together with the staff when carrying out the bombing.

These are only Chinese papers which are strongly pro-Chinese. The American-owned papers threatened include the Ta Mei Wan Pao, Chinese edition of the Evening Post and Mercury, and the Hua Mei which prints two editions. The British-owned papers include the Standard, Ta Yeh Ya Pao, Leader and Yeh Pao. Both the Standard and Hua Mei received two letters because they published two editions daily.

The police immediately placed guards and detectives at all offices concerned. They gave similar protection last year which was removed in recent months.—United Press.

NEWSBOY KILLED

Shanghai, Apr. 18.
Assassins last night killed Chow Kuo-lung, husky six footer chief of the newsboys of the Ta Mei Wan Pao, edited by the Shanghai Evening Post and Mercury, on Taku Road.

The gangsters killed Chow and also the ricksha coolie who was pulling him, wounding two pedestrians including one woman.

Police believed that the murder was the result of revenge, due to the fact that Chow held an important position, and carrying out all delivery and controlling scores of newsboys.—United Press.

BARBARA GILMAR

To Sing at Concert By
Massed Naval Bands

Barbara Gilmar, Hongkong opera soprano, has returned from Shanghai where she appeared as guest artist with the Shanghai Municipal Orchestra under Maestro Mario Paci.

In her first concert she gave a classical programme and in the second she sang in two 18th Century works, the sacred cantata "Salvator" and the oratorio "Resurrection of Christ" which is by Lorenzo Perosi. These two works were given on Good Friday and repeated on Easter Saturday by a company of five soloists, a chorus of 150 voices and the Municipal Orchestra. In the oratorio Miss Gilmar sang the part of Mary Magdalene.

According to present plans, Miss Gilmar is to sing at an Orchestral Concert by the Massed Bands of the Fleet, which is contemplated for presentation at the China Fleet Club in May, and is to broadcast an operatic programme over ZYU.

It is likely that she will return to Shanghai for another series of concerts in July.

King Zog May
Go To U.S.

Budapest, Apr. 18.
The brother-in-law of Queen Geraldine, the Hungarian landowner Andrus Baghy, succeeded in speaking over the telephone early on Tuesday with the Queen's lady-in-waiting, Baroness Roehling, in Larissa, Greece, where the Queen and her party are now staying.

The Baroness stated that Queen Geraldine and her son Alexander are doing well, and would leave with King Zog for Turkey in four or five days time. The Baroness added that a visit to London was not envisaged, and that King Zog's future plans are still uncertain. It was, however, possible that he might travel to the United States where he has been invited to make a lecture tour.—Trans-Ocean.

China

Kuomintang
Denial Of
Split

Chungking, Apr. 18.
In a statement to Reuter the Central Committee of the Chinese Communist Party states that neither itself nor any local organization of the Party has any connection with the distribution of leaflet in Shanghai attacking the British and French attitude in China and threatening a Communist break with the Kuomintang unless an anti-British and anti-French front is formed.

The leaflet is described as "ridiculous and absurd." Its contents are said to be entirely contradictory to the policy of the Chinese Communist Party "which aims at a united front in the anti-Japanese resistance."

The basic policy of the Chinese Communist Party, the statement declares, "aims firstly at co-operation between the Kuomintang and Chinese Communist Party as a foundation for the establishment of a united front to drive Japanese out of China and also to establish an independent and prosperous new China."

"Secondly it seeks to secure co-operation of all nations sympathetic to the Chinese nation, particularly Britain, the United States of America, France and Soviet Russia."

The statement continues: "It is clear that the contents of the leaflet do not represent the views of the Chinese Communist Party but those of Japan and Chinese traitors."

"The Central Committee of the Chinese Communist Party wishes to point out that the recent anti-British movement was inspired by Japan in occupied areas and those leaflets distributed in Shanghai indicate a Japanese attempt to arouse Anglo-French enmity towards the Chinese resistance; but we are confident that the British and French Governments will see clearly through such methods."

"Meanwhile attempts to create internal dissension among Chinese and also to create ill-feeling between the Kuomintang and the Chinese Communist Party are bound to fail," the statement concludes.—Reuter.

Storm

Chicago, Apr. 18.
A freakish storm of snow, sleet and freezing rain which swept the Middle West, is now headed for the East towards the Ohio River, which has reached record flood levels from the heavy spring rains.

The storm originated in the Rocky Mountains and whipped the snow into deep drifts in Colorado and Wyoming, reaching blizzard proportions in western Nebraska and northern Iowa.

It is coating north and central Wisconsin with ice, resulting in hail and heavy rains in Illinois.

From Humboldt, Iowa, is reported the worst blizzard for the year. Meteorologists expected the storm to bring showers in the Wabash River Valley, Indiana, and the central Ohio Valley, where it is estimated that 2,000 persons have been forced to evacuate lowland homes.

The storm floods have cost at least five lives, which in addition to 40 deaths from the tornadoes in the southern states during the past three days, has brought the total for the nation to almost 50.—United Press.

S. A. RUMJAHN ENTERS SEMI-FINALS OF SINGLES

S. A. Rumjahn entered the semi-finals of the Colony tennis singles championship yesterday by defeating Lim Thiam-tet, the Perak champion in straight sets. Picture shows Rumjahn, who is taking part in his 20th consecutive championship, in action on the stand court yesterday.—Staff Photographer.

GAME PROVES DISAPPOINTING TO HUGE CROWD

LIM THIAM-TET FAILS TO TOUCH PEAK FORM

(By "Abe")

Far from being the even game most people had expected, the quarter-final tie in the Colony tennis singles championship between S. A. Rumjahn and Lim Thiam-tet on the stand court of the Hongkong C.C. yesterday proved to be a definite disappointment. Except for one short period in the first set, Rumjahn was never seriously extended and won comfortably by 6-4, 6-2.

How much Lim's recent indisposition affected his play it is difficult to assess; but the fact remains that his form yesterday was far below that of his previous matches. There was an uncertainty about his stroking which had not been apparent before, and he missed many opportunities to finish off a rally when he had got the Indian out of position.

On the other hand Rumjahn played with a determination which is highly commendable for a man who is taking part in the Colony championships for the twentieth consecutive year. He was not content to wait for mistakes on the part of his opponent, but speeded up his game and went all out for winners.

Taking the match as a whole, the standard of play seldom rose very high. Now and again one or the other would flash over a winning drive; more often, however, Lim would concede a point with a weak shot.

SERVICE WEAKNESS

Lim's service, which had been such a potent factor in his earlier ties, let him down badly yesterday. He was extremely unreliable in this department of the game and served up innumerable double faults. Compared to Lim's, Rumjahn's service, one of the weakest weapons in his armoury, was very good indeed. Need any more be said?

Until his resistance broke down completely in the latter stages of the match, Lim's recovery was one of the redeeming features of his game. On several occasions when a drive from Rumjahn looked a winner all the way, Lim would make a brilliant return to force the Indian into making a mistake.

After winning the first set in the tenth game, Rumjahn played with confidence and hit the ball much harder than he is wont to do. His services to the net were far more successful than they should have been; but his opponent failed to pass him—even when he chose what appeared to be the wrong moments in which to make his advances. Ordinarily Lim would have passed him with drives down the side-lines; yesterday he was either over-hitting or driving into the net.

As a result of this victory, Rumjahn has earned the right to meet Tsui Wal-pui in the semi-finals.

TO-DAY'S PROGRAMME

The first semi-final match in the current championships is scheduled to be decided this afternoon. It is in the doubles in which Lee Yue-wing and Ho Ka-lau will meet the Rumjahn couple. On paper form, the latter pair should get through, but it has to be remembered that the Chinese are well-known for their retrieving qualities and may make a fight of it.

The match will be best of five sets, and this is a factor in favour of the Indians, who generally take a little time to settle down.

The full programme is as follows:

OPEN DOUBLES (SEMI-FINALS)

Lee Yue-wing and v. S. A. Rumjahn and

Ho Ka-lau (stand court) H.D. Rumjahn

F.A. Cup Final To Be Broadcast

On April 29 the English soccer season once again comes to a spectacular climax with the Cup Final, and once again listeners to Daventry will be able to join by proxy the thousands of enthusiasts who will be at Wembley Stadium. Two broadcasters well known to overseas listeners—Thomas Woodroffe and Ivan Sharpe—will be the proxies: Woodroffe, who has been a BBC staff commentator since 1936, will be responsible for the account of the actual game, and Sharpe, a sports journalist whose many previous football broadcasts have proved that he has an eye, as well as a nose, for news, will interpolate comments on the play.

As an event of national—even international—appeal, the Cup Final is rivalled, perhaps, only by the Boat Race and the Derby. Every year it brings to London sixty or seventy thousand favour-decked enthusiasts from all parts of the country—their tickets have been bought months before, no money being taken at the Wembley turnstiles. It is an event often honoured by the presence of the King and Queen, her Majesty usually presenting the Cup to the winners.

The United States Golf Association recently warned all leading women golfers that it was a violation of the amateur code to accept special prizes at hotels and other privileges. Mrs. Hill said many of the women golfers had concluded the best plan would be to make the events open tournaments, so that those who cannot afford to play as amateurs could turn pro and continue in competition.

Hockey

ENGLAND TO PLAY INDIA

Probably the finest match in the international hockey tournament will be held on the Royal Navy ground at King's Park to-day, when England will meet India in the semi-final, the winner to meet Portugal in the final on Sunday at 4 p.m., on the Club ground.

Both teams are very strongly represented and while England were fully extended against Scotland in the first round, they gave an excellent impression and stand a good chance of causing an upset by eliminating India, who were far from satisfying in their first round clash against China.

Following are to-day's teams:

England—Pie, Osman (R.A.O.C.); V. C. Bond (Club) and L. B. Carter (R.A.); Bdr. Dilnot (R.A.); Lt. Hook (R.A.) and E. Fowler (C.B.A.); S. A. Fowler (Club); E. R. A. Gemmel (Navy); G. H. Fowler (C.B.A.); Bdr. Marshall (R.A.) and L. Cpl. Dunne (Middlesex).

India—N. S. Sen Gupta (University); Datta Ram (Kumaon); Gussain Singh (Kumaon); Duda Ram (Kumaon); M. H. Hassan (Radio) and M. R. Malik (R.I.T.C.); Shah Wah (Rajputana Rifles); Neral Singh (Kumaon); Lt. Pritham Nath (Rajputana Rifles); Pyara Singh (R.I.T.C.) and Partab Singh (Kumaon).

Cricket Transfers Allowed But Not For Money

London, March 29.

It will be possible for first-class cricketers to be transferred from one county to another this coming season without any residential qualification.

That is the most important part of the report of the M.C.C. committee which prepared a scheme for the registration of county cricketers.

The recommendations of the committee were accepted with only one reservation—namely, one by the County Cricket Advisory Committee yesterday and will become operative immediately the M.C.C. gives its formal approval, which can be expected within the next fortnight, writes Charles Bray.

The restrictions deal with players from overseas or the minor counties. The only recommendation not immediately accepted is one relating to the residential qualification affecting minor county cricketers.

FIVE-YEAR CLAUSE

A player who has secured a special transfer cannot have a second one for five years. The county releasing the cricketer is given the right to agree to the immediate transfer of the player, to defer such agreement, or to withhold consent to the transfer. The M.C.C. will be able to override the refusal to permit the transfer if it is proved that it is unreasonable.

RESTRICTION

There are a series of important restrictions, of course. First-class cricketers have no intention of following first-class Association football in the matter of money transfers, but, broadly speaking, a player not wanted by one county will be able, with the approval of the M.C.C., and the

Rackets

Father And Son Beaten In Final

Bid For Doubles Title Fails

London, Mar. 25.

Lord Aberdare and his son, the Hon. Mervyn Bruce, just failed to win the Amateur Rackets Doubles Championship at Queen's Club, C. S. Crawley and J. H. Pawley beating them in the final by 4 games to 3 (15-7, 12-15, 15-11, 5-15, 12-15, 15-7, 15-3) after a magnificent match.

Pawley, a variable player, was right at the top of his form and played superbly good. Crawley was not quite so good as usual at the start but found his form just when needed and it was largely his great hitting, in the sixth and seventh games, that turned the scales when things were looking bad for his side.

Lord Aberdare was, as always, a great general and, for a man of 54, his activity was astonishing. He was always ready to dash into the thick of the fray and seemed able to hit from any angle.

His son maintained the splendid form he had already shown in the competition and, in the earlier stages, his taking of the service in the backhand court and the manner in which he stood up to the insistent pressure brought on him by Crawley and Pawley, augured the highest possibilities for the future. He is very young and it was not surprising, therefore, that towards the end, he fired under his opponents' relentless attack.

RUN OF ELEVEN

After Lord Aberdare had scored two points by service in the first game, Pawley made 5 and then Crawley ran out for the game and went to 1-0 in the second, a run of 11. After some splendid rallies in the second game Crawley and Pawley led by 11-7, Pawley making a good 6, but Lord Aberdare and Bruce drew up to 12-11 and Lord Aberdare won the game with three crashing services.

The third game was a brief affair. Pawley got in at 2-1, ran out for game and went to 3-0 in the fourth, a splendid run of 16, 11 of which were scored direct from the service. Lord Aberdare and Bruce played great stuff in the rallies, won the game with a run of 10.

The fifth game was evenly fought to 6-6, but 5 by Bruce all by service gave his side a 12-10 lead. Pawley made 2, but, after some blank hands, Bruce clinched the game.

In the sixth game, Bruce weakened a little and Crawley and Pawley crowded on the pace. Small runs enabled them to lead 15-7. Lord

At the final reckoning, however, Cambridge had turned two of these deficits into winning margins. And in the leading contest John Langley, the Cambridge captain, sank his putt from 10ft. to win the last hole and so square the match.

A gale of wind caused many shots to be played from bunkers and sand-hills, but W. S. Whitelaw and W. H. Halstead, who beat their Oxford opponents by 11 and 10, played some brilliant golf. For the eight holes in the afternoon they were five under four, the figures being:

4 5 2 3 4 2 5 2.

THE RESULTS

Here are the results in detail: J. C. Lawrie and J. M. Foster (Oxford) halved with D. A. Langley and N. B. F. Mann.

W. S. J. Whitelaw and W. H. Halstead (Cambridge) beat S. Fether and R. C. Twining 11 and 10. E. S. Browne and R. B. Booth (Cambridge) beat T. C. Harvey and J. R. Briggs 2 and 1. R. B. How and G. L. Reynolds (Cambridge) beat C. B. Walker and A. S. Gibbey by one up.

A. J. B. Marshall and R. O. Wynn (Oxford) beat B. D. Carris and A. E. Buchanan 4 and 3. Harvey and Briggs had once been 5 up on Browne and Booth, and were 4 up at the end of the morning round. How and Reynolds struggled against a two-holes deficit for most of the afternoon, but Reynolds got down a long putt to square at the 17th and sank another one of 5ft. to win the 18th.

FAVOURITE LIKELY TO BE STARTER

London, Apr. 18. Signal Light, winner of the Craven Stakes at Newmarket last week and favourite for the Two Thousand Guineas, has improved and is now likely to be a starter. Earlier on Signal Light had been reported suffering from shoulder trouble and was undergoing veterinary treatment. Its stable companion, Foxbrough, however, has now become a very doubtful starter.—Reuter.

SUBURBAN STAKES

London, Apr. 18. The following alterations have been made in the list of probable starters for the City and Suburban Stakes: Lynch rides Equemell and Sibbritt will take out Owen.—Reuter.

Aberdare made one and Crawley went out. Crawley and Pawley obtained a 12-11 lead in the seventh game, Lord Aberdare and Bruce were always fighting back but the pace was just a little too much for them and Crawley and Pawley were strong winners at the finish.

United States Tennis Officials To Help Von Cramm In Come-Back

New York, Apr. 4.

American leaders of amateur and professional tennis will try to smooth the rocky come-back round for Baron Gottfried Von Cramm of Germany whose brilliant court career was temporarily blighted by prison bars.

I learned authoritatively that officials of the United States Lawn Tennis Association will put pressure on our immigration department to have the big, blond German ace admitted to our country this summer. Such pressure will be needed because foreigners who have suffered prison sentences or who come under the clause of "moral turpitude" are banned entrance to our shores.

The U. S. L. T. A. brass hats are quite set upon having Baron Von Cramm visit here this summer. They need him for the five important grass tournaments, and particularly as a drawing card for the Nationals at Forest Hills—now that red-headed Don Budge is carving out a quick hundred grand as a professional. They've got to have a big name for the gate.

And there is no greater name in amateur tennis to-day than that of Von Cramm, who stands out as the world's No. 1 Simon Pure performer since the commercial shift of Budge.

WANTED AS FOIL

Not only are the U. S. L. T. A. officials concentrating on the German Baron, but promoter Jack Harris of the professional tours also is casting big eyes at the Teutonic Blond. Harris admittedly recognizes in Von Cramm the only tennis player in the world who may be used as a foil for Budge in a big time American professional tour next winter.

Harris says, "Budge beat Ellsworth Vines in the first half of the current tour. And Budge will beat Fred Perry of England in the last half of the tour. Next winter we'll have to have Von Cramm as an opponent for Budge, or we won't have any tour. No, I haven't negotiated with Von Cramm yet about his turning professional, but Budge considers, with him regularly, I believe everything will work out all right."

You'll notice that none of the men who mention Von Cramm connect him with Davis Cup play. The reason is this: Never again will the Baron represent Germany on the court. He has been allowed his freedom from German jails, but his alleged offence and incarceration prevent him forever from representing the fatherland on the court—as long as Herr Hitler is Der Fuehrer.

It was a year ago that Von Cramm was arrested in Berlin and charged with violating paragraph 17 of the German code which deals with sexual irregularities. On May 14 he was sentenced to a year in prison in connection with blackmail of 80,000 marks that he had paid to Manfred Herberich, who was described as a "Galician Jew."

TOO OUTSPOKEN

In America, the tennis men who knew Von Cramm well laughed down the immorality charges. They recalled that Von Cramm, unfortunately, had been outspoken against the Nazi regime. And that certain statements he made about government in Germany while touring Australia in the winter of '37-'38 probably had far more to do with his arrest and

conviction than the Herberich blackmail case.

Von Cramm never served his year in prison. He was released on parole in October, because of "good behaviour." And recently the Baron announced that he was returning to International Tennis competition, but not for Germany. He recently entered the Egyptian championships at Cairo, starting in Mid-April.

Officials of the U. S. L. T. A. will watch Von Cramm's performances in Egypt almost as closely as they will watch the showings of Bobby Riggs, Wayne Sabin and Gene Mako during the early American tourneys. Von Cramm will be 30 years old in July. It is problematical if he can lift his game to its former heights.

If the Baron does fairly well in foreign tourneys, it looks like a 10-1 bet that he'll be over here this summer, and that he'll be facing Budge as a professional next winter.

ALLISON RENEWS CONTRACT

Arsenal To Keep Manager

London, April 1. Mr. George F. Allison has been invited to renew his contract with the Arsenal, and now that minor managerial differences have been adjusted he intends to do so.

A new contract to take the place of the one which expires a year next June is being prepared.

Mr. Allison's position is the most onerous in football, and during the five years he has held it as the successor to Herbert Chapman the club has been carried on with outstanding distinction.

The club's record in fact in winning the Cup plus the League championships three times in six seasons has never been equalled and is a wonderful tribute to Mr. Allison's leadership.

ECONOMY

This, too, has been accomplished by an economy in transfer fees, which was not previously practised. Indeed, until the payment of £14,000 for Bryn Jones, there was a balance between the fees paid and those received for players released in favour of the club.

This season there has been a slight decline in playing results, but there comes a time in the life of every team when difficult rebuilding work has to be undertaken, and the club are passing through this period with less trouble than might have been anticipated.

Janet Jay
& the artist
design a
bedroom in

PEACH and TURQUOISE

A PRETTY bedroom scheme carried out in peach glazed chintz sprigged with turquoise. Headboards of the divan beds are covered to match. Walls are in a pale peach shade with woodwork and ceiling in old ivory. Carpet, mushroom brown. Turquoise accessories on the polioleated dressing table.

WITH bedrooms particularly in mind, the artist and I got down to a decorating scheme. "Something pretty, feminine and restful," I reminded him, "and two basic colours which can be adapted to any aspect."

I specially stressed this point because I know that many women start planning their bedrooms long before the house itself has been decided upon.

Our final decision was a combination of two colours which are essentially feminine: the soft, warm shade of pink called peach, and turquoise blue, which is something between blue and green and a particularly good colour for curtains.

The third subsidiary colour in a room based on these two shades might be old ivory, parchment or gold.

Rooms with a sunnier aspect were our first thought, and for these we planned palest peach walls, with ceiling to match and woodwork in old ivory. This gives you a setting which glows with warmth and sunshine even on a dull day, and we found the scheme good for rooms which are inclined to be dark.

Use Sparingly

Turquoise is more effective if it is not too overpowering; so in this particular room it was used for curtains, dressing table mats and candles, and for a cushion on the bed.

The bedspread was old gold, and the carpet a warm fawn colour with turquoise wool rugs beside the bed. This produced a well-balanced scheme with cool and warm colours in the right proportions.

Colours could, of course, be reversed. With a plain turquoise or patterned carpet you could have old gold curtains bordered with turquoise and a turquoise pelmet, old gold bedspread as before, and turquoise candles with a peach glass trinket set.

Turquoise shades appear in many Indian carpets, by the way, combined with other tones of blue, green and pink, and the general effect of these colours on a cream or fawn ground is very good for a bedroom.

A scheme like this need not tie you

MODERN stripes are used tastefully in a satinwood bedroom. Printed satin curtains designed in mushroom, peach and turquoise contrast pleasantly with the wallpaper, which is horizontally striped in two tones of peach. An unusual touch is the peach coloured mirror glass pelmet. Rug striped to tone.

with regard to furniture. Peach walls are a little warm as a background for mahogany, but they are good for walnut, the lighter shades of natural oak, weathered oak and sycamore.

A sycamore suite with a banding of darker walnut is a suggestion for this room, and you could give it an unusual touch by a divan bed with a headboard covered with turquoise material to match curtains or pelmet.

Still another suggestion is a divan bed, patterned dressing table, and painted whitewood wardrobe and tallboy. These two could be painted old ivory to match the woodwork, with the handles and mouldings in turquoise.

Flower Posies

The pelmet for the dressing table would be chintz with an ivory ground and pattern of flower posies in turquoise and peach.

Curtains could be either the plain turquoise material or chintz to match the dressing table, carpet plain light fawn.

For a sunny aspect the artist suggested walls papered or distempered the palest possible shade of turquoise, with ceiling in old ivory and woodwork this time matt painted to match the walls.

We decided on walnut, mahogany or oak furniture for this room, with a carpet, mainly in fawn and peach, and peachy pink curtains and bedspread.

Patterned chintz curtains would be specially pretty against the blue walls, however, and you could also have a chintz bedspread, the carpet in this case being a plain fawn so as not to spoil the balance between the plain and patterned surfaces.

SHORT CUTS

Any waffle batter may be improved by the addition of crushed nuts.

Always chill white wines before serving. Never chill red wine.

All recipes for cake call for sifted flour, whether the recipe says so or not.

To remove tea stains, either borax and lemon or salt and lemon may be used.

A short hen turkey weighing eight to ten pounds is a good buy, because it has more white meat and less carcass, in proportion, than a larger bird. Black feet indicate a young bird.

Appetence is improved by the addition of a teaspoonful of lemon juice during the cooking process.

Cooking Hints

TO make pastry surprisingly light, mix it the night before it is required, and add a good half teaspoonful of lemon juice, stirring it well in.

Before cooking potatoes, prick them all over with a clean large darning needle, and they will then be flourey without breaking when served.

Left-overs of pastry can be made into an excellent lunch savoury if rolled out, sprinkled with grated cheese, folded, rolled again, cut into fingers, and baked until brown and crisp.

To prevent a Yorkshire pudding from sticking to the baking tin, first grease the tin and allow the fat to boil before pouring in the mixture while still at that temperature.

Peel onions before a hot fire so that the moisture will evaporate quickly and not make the eyes smart.

Add half a dozen cloves to the water when boiling bacon or ham and the flavour for the lampshades in this room; they shed a most becoming pink glow over the walls at night.

If a cake sticks to a tin, try placing the latter over a bowl of boiling water, for then it will soon separate.

Roll sausages in coarse oatmeal before grilling or frying them, for then it will prevent them breaking, and vastly improve both flavour and appearance.

Before baking potatoes, scrub them and allow to stand for twenty minutes in boiling water. They will then cook much more quickly as they are already heated through and turn out delightfully mealy.

Those Difficult "In-Laws"

ONCE relatives were a power in the land. In one of J. M. Barrie's plays, one of his Scots characters right, solemnly proposes that the slightly alter them, in nine cases out of ten, woman can be brought to her senses she is making a mistake which will if they "complain to her people," rebound back on herself.

Relatives are not always appreciated these days, and the remark which I overheard a young girl make the other day seems typical of the times. "When I marry," she said, "I'll choose an orphan with neither brothers nor sisters, and then I'll have a chance of happiness."

Admittedly, interfering relatives can be a nuisance. Even though they may not be of the interfering type, they may be helpless clinging vines who make continuous demands on the resources of the young people.

Or, worse still, the relatives in the case may be of the good-for-nothing type who appear to absorb all the help which is given without ever being one bit the better for it.

When the wife refuses point blank to let her husband help relatives of this type, she may appear to have right on her side, but the more shiftless the relatives are, the greater is their need of help.

Sometimes the refusal of such aid results in a position which strikes a fatal blow at the husband's family pride, and if the wife has a husband who is big-hearted enough to wish ever to help those who are weaker than himself, she should experience real thankfulness that she has married a man of this stamp.

Another point which is often overlooked is that the husband under happy relationship is strained at the stands his own people. Possibly the wife does not, so that in any decision

which is made regarding them, his views are likely to be instinctively right. Where the wife causes him to suffer, in nine cases out of ten, she is making a mistake which will rebound back on herself.

But the aspect which upsets the delicate relations of "in-laws" is the lower complex from which so many women, young and old, seem to suffer. Some women—mothers as well as wives—go the length of opposing every family plan which has not been originated by themselves, and this for the mere selfish gratification of flaunting their influence.

Another problem is presented by the wife who offers frequent and extended hospitality to her own relatives—and then shows the utmost reluctance to entertain any of her husband's people for a week-end.

No matter how well-disposed her husband's relatives may be, they can hardly fail to notice—and resent—this trait.

"In-laws" are often pathetically eager to be friendly with one newcomer to the family, and this is the time to forge a bond which will be of untirable comfort to the young people in the difficult days which may lie ahead.

So many ultra-modern women fail to see this, however, and they approach their husband's relatives in an attitude which is either defensive or aggressive, and, since the mother-in-law or sister-in-law is quick to sense the atmosphere of hostility, what could be a very looked is that the husband under happy relationship is strained at the stands his own people. Possibly the wife does not, so that in any decision

The numbers of refugees and destitute accommodated in Government Camps in urban and rural areas are given officially as follows:
In urban areas, civilians—King's Park 1,004 for the week ending April 15, as compared with 1,571 on April 8; Matauchung 890 as compared with 931; North Point 1,075 as compared with 1,007.
In urban areas, soldiers—In Lai chikok Hospital (Upper Ward) 14 on April 15 as compared with 16 on April 8 and Matauchung 771, the same number on April 8.
In rural areas—At Kam Tin 4,037 on April 15 as compared with 3,552 on April 8; Fanling, North 700 as compared with 747; Fanling, South 900 as compared with 923; Gilli's Cutting 078 as compared with 076 and Man Kam To 959 as compared with 921.
The total for April 15 was 12,207, compared with 11,805 on April 8, an increase of 402.

SHUMCHUN WELFARE

Five hundred lbs of bean seeds for sowing have been received by the Shumchun Rural Welfare Centre from donors in Honolulu through Professor Richard Lynn of Lingnan University.
According to reports from the field staff more than 70% of the rice lands have been ploughed and rice seeds have been sown. Sufficient seeds were obtained by the intensive mobilisation of the resources of the peasants. At the last meeting of the Executive Committee held on Wednesday, \$1,000 was allotted to the Farmers Credit Co-operative recently formed at Teoi Yuk Wai for the purchase of fertiliser.

The Educational Department of the Centre reports that four additional schools have been opened. Upon the petition of the elders \$50 worth of school books have been sent to the schools.

There are now 20 field staff members at work of whom four are agricultural experts under the leadership of Mr. Chen Kwok-on. Mr. James Orr has applied for leave and has been granted a month leave of absence. The Secretary General of the Field Staff, of which Mr. Percy Chen is the Director, is now Mr. Chu Ka-chie, graduate of Chungshan University.

All interested in the work of the Centre may obtain a free copy of the first Bulletin of activities from the Hon. Secretary, Mr. K. S. Lo from the offices of the Hongkong Daily Press, Marine House, the kiosk of the Hongkong Travel Association, Star Ferry.

WAR RELIEF FUNDS

Big Sum Collected Through
Sale of Flowers

Last Saturday's squally weather in no way dampened the enthusiasm of the hundreds of school girls who had undertaken to participate in the drive for funds for war relief, under the auspices of the Chinese Women's Club for their raised well over \$6,000.

The sellers, who were students from 22 schools in Hongkong, started out early with their trays of flowers, which were sold to thousands willing contributors, under the supervision of a committee of ladies. Three prizes, awarded for the largest individual collections, were won by Miss Constance Ho, who took \$200.80, Miss Kwok Wei-chun and Miss Choy Po-woon (\$168.03), and Miss Pamela Ho (\$78.20).

The three schools whose students secured the largest totals were the To Shuk Girl's School (\$341.10), Sung Sau Girl's School (\$341.92) and the Yat Tse Girl's School (\$321.23). These prizes were contributed by Mrs. M. K. Lo, Mrs. Li Shu-fan, Mrs. Y. K. Chow, Mrs. Li Shu-pui, Mrs. Lambert Kwok and Mrs. Violet Chan.

The Committee of the Chinese Women's Club desires to thank the staff of the Tung Wah Hospital, all Chinese Theatres, the Chinese Staffs of the Hongkong and Shanghai Banking Corporation and the Mercantile Bank of India (Commerce Department), Wing On Bank, Hongkong Sanitarium and Hospital, Li Clinic, China and South Sea Bank, Chinese Staff of the Hongkong Hotel, Wing On Department Store, Sincere Department Store, the Sun Company, China Emporium, Elite, Lucille, and other concerns for their courteous co-operation in making the drive a success.

Traffic Lighting Criticised

Appalling In Kowloon,
Says Magistrate

Criticism of the traffic lighting system in Kowloon, which was described by the Magistrate and Police as appalling and inadequate, was made at the Kowloon Magistracy yesterday, when an inquiry was held into the death of Wong Ha, 40, fisherman, who was knocked down and killed by a taxi in Chatham Road on March 7.
The inquiry was conducted by Mr. E. Himsworth, who was assisted by a Jury comprising Messrs. Wong Moon-cheung (Foreman), Ho Ping-nam and Liu Chuen. Sub-Inspector A. R. Brittain was present for the Police.

Dr. H. H. Tai, of the Kowloon Mortuary, who conducted a post mortem on Wong, said that death was due to a fractured skull and intra-cranial haemorrhage.
Chung Hol-pang, driver of the taxi, said he was driving along Chatham Road about 140 a.m. on March 7 at about 20 m.p.h. when he saw Wong rush across the road in front of his taxi. He noticed him when he was about four feet away, and as an accident appeared unavoidable, he swerved to the left and applied his footbrake, but the man was struck by the right side of the radiator guard. The taxi stopped obliquely across the road, with the man lying about seven feet to the rear of the taxi.

Locality Poorly Lighted
The locality where the accident occurred was very poorly lit at that time, but was now better lighted. This evidence was corroborated by his passenger, Chu Ka-fun.
Traffic Sub-Inspector J. Scrim said the brakes of the taxi were in a good condition.
Mr. Himsworth: Would you agree with me in describing the lighting as appalling?—Yes.

Five Systems

Sub-Inspector Brittain said that there were five different systems of street lighting in use in Kowloon. They were: blue lighting, commonly used in Nathan Road, centre lighting in Waterloo Road, red lighting in Chatham Road, and the old pattern as used in Shanghai Street.
Of these five systems only the first mentioned was at all adequate for traffic under present conditions. He added that the lighting at the scene of the accident was the reflected system but had now been changed to blue lighting.

Mr. Himsworth, in addressing the Jury, stated that he was himself both a resident of Kowloon and a car driver, and had driven over Chatham Road often. It was not by good fortune that he had avoided a similar accident, he declared.

A verdict of accidental death was returned by the Jury, while no blame was attached to the driver. The following rider was added:—The wish to state that we are of the opinion that the system of traffic lighting in general should be improved.

CAR OWNERS FINED

H. de Luz, of the Hongkong, Canton and Macao Steamboat Company, was fined \$15 by Mr. R. A. D. Forrest at the Central Magistracy yesterday for failing to notify the change of ownership of his car.
Sergeant Sargent said the summons was taken out after the car had been involved in an accident.

Summoned for a similar offence, Kam Chung-yun, former owner of the car, was fined \$15.
John James Fiddy, 9th Battery, 5th A.A. Regiment, Lyceum Barracks, was fined \$20 for driving a military car on March 30 with inefficient footbrakes.

MARKET TENDERS

Hundreds Compete For
Only Six Stalls

Tenders for poultry stalls in the New Central Market were received by the authorities yesterday. There was such keen competition among the bidders that between 500 and 600 people were present at the Central Market with the hope of securing stalls, of which only six were available.

The bidders state that altogether there were 45 stalls for poultry, and of these 30 stalls were reserved for the stall-holders who occupied stalls in the old Central Market and who removed to the Western Market to do business there temporarily while the construction of the New Market was in progress.

Tenders for these 30 preference stalls were received on Monday, and the best stall secured about \$208 and the lowest \$60, they stated.
For yesterday's six remaining stalls the highest price offered was about \$340 and the lowest about \$170.

Successful tenderers are required to pay two months' rent (for May and June) in advance, at the time of the tendering.

According to one of the tenderers the large attendance yesterday was due to many tradesmen coming from Canton and other cities in South China now occupied by Japanese; being eager to establish business in Hongkong. These people were amongst the keenest competitors. The same informant said that the price of \$340 is much too high to make the tenderer's trade profitable.

Commons To Discuss Issue Of Compulsory Service

LONDON, Apr. 18.—"The immediate acceptance in principle of the compulsory mobilisation of man, munition and money power of the nation" is urged in a motion which Mr. L. S. Amory is putting down on the order paper to-night. He has nearly 50 Government supporters, including Mr. A. Duff-Cooper, Sir Edward Grigg, Sir John Wardlaw-Milne, and Sir Stanley Reed in favour of the motion.—*Reuter*.

Singapore And Hongkong SAFEGUARDED BY AMERICAN FLEET

LONDON, Apr. 18. THE "EVENING STANDARD," referring to the transfer of the United States fleet to the Pacific says: "That precaution will relieve us of the responsibility of safeguarding our nationals in Singapore and Hongkong, and cannot fail to augment our naval power in waters nearer home."

President Roosevelt's message, says the paper, has placed Mussolini in a dilemma.

"Mussolini must doubt the readiness of his people to fight. He must know that the flouting of American opinion would have direct economic consequences in his country," the paper asserts.—*United Press*.

Discourage Japan
Washington, Apr. 18. Major Elliot, of the War Department, addressing the National Defence symposium of the American Revolution to-day, disclosed that the United States fleet was concentrating in the Pacific in order to discourage Japan from taking advantage of the European crisis to seize more land in Asia.

"The United States has become the leading naval power, because of Britain's realization that the military airplane makes entire dependence on her fleet impossible," he said.—*United Press*.

Tokyo Reaction
TOKYO, Apr. 18. A press message from Washington says that the concentration of American naval forces in the Pacific Ocean is doubly significant in view of the threatening political situation in Europe.

The message points out that American Fleet movements are regarded as a "preventive" measure against Japan's possible participation in a war launched by Germany and Italy. Without Japan's co-operation Italy and Germany probably would not go to war.

Secondly, the American Fleet concentration is calculated as a precautionary measure, to protect supply routes with Netherlands East India and British India, in the event of the formation of the Italo-German-Japanese front in war.—*Domei*.

Strike Ties Up Tankers Deadlock On N.Y. Waterfront

New York, Apr. 18. TWENTY-FIVE oil tankers are reported to be tied up in the docks as a result of a strike by the National Maritime Union.

The strike followed the collapse of negotiations between the union and four large oil companies.

The tankers are being stopped as they dock here and at other ports. Nearly 5,000 members of the crews of some 130 tankers have been called out.—*Reuter*.

PARIS, Apr. 18.—M. de Monzie, Minister for Public Works, will shortly leave for Warsaw to perform the opening ceremony of a new stretch of Polish railway line, linking the Baltic with Poland's Upper Silesia.

The opening ceremony will take place on Sunday next.—*Trans-Ocean*.

U.S. TO WIDEN CANAL

WASHINGTON, Apr. 18.—A bill authorising the expenditure of \$277,000,000 for improving and enlarging the Panama Canal has been approved by the Merchant Marine Committee of the House of Representatives.—*Reuter*.

SUMMONED FOR DUTY

WASHINGTON, Apr. 18. COLONEL CHAS. A. LINDBERGH has been summoned for active service from tomorrow.

He will be assigned to the office of the Chief of the Air Corps, for special duties.—*Reuter*.

U.S. Air Expansion
Washington, Apr. 18. Mr. Harry Woodring, Secretary for War, to-day announced that Colonel Charles Lindbergh has been ordered to active duty effective as from tomorrow in connection with the vast Air Corps expansion programme.

Assigned to the Chief of the Air Corps office, Colonel Lindbergh will survey all aviation research facilities which are available to the army, on the completion of which he will make a confidential report.

This report would probably incorporate all the pertinent information regarding European air fighting strength which Colonel Lindbergh has gathered during his travels abroad.

The Colonel is thoroughly familiar with the Fascist air forces, and has also inspected Russia's air force.

It is speculated here whether Lindbergh's recent survey flights in Europe might have been pre-arranged in anticipation of his return to active duty.—*United Press*.

Japanese Secret Organ Raided

Chungking, Apr. 18. A Japanese secret organ in the British Concession in Tientsin was raided by the British authorities, according to a report from the northern port city. Five pistols, it is stated, were discovered.—*Central News*.

GIBRALTAR PRECAUTIONS AS FLEETS MASS GERMAN WARSHIPS SAIL FOR SPAIN

BERLIN, Apr. 18. A COMPACT and powerful German battle fleet, consisting of forty units, including 28 fighting craft, left Kiel, Wilhelmshaven and Emden early this morning for a cruise off the Spanish, Portuguese, Spanish Moroccan coasts.

It has been officially denied that there is any strategic significance attached to the cruise. Meanwhile the Rumanian Foreign Minister has arrived here and has been in conference with the German Foreign Minister.

It is reported that Herr Ribbentrop will ask M. Gafencu to say plainly whether Rumania intends to join the Anglo-French anti-aggression bloc.

It is also reported that Mussolini plans to win Hungary's close support for the Axis.

ANGLO-FRENCH PRECAUTIONS

Reports from Gibraltar state that more than a hundred and fifty British and French warships are now patrolling the approaches to the Mediterranean.

Quarters close to the French authorities here, have reported that prompt action has thwarted a possible coup d'etat in Tangiers.—*United Press*.

BOUND FOR ITALY?

BERLIN, Apr. 18. TWENTY-FIVE warships, together with auxiliary vessels, participating in a cruise in the Atlantic which will last a month off the West Spanish peninsula, began assembling to-day off Heligoland.

Battleships and submarines left Kiel naval base during the night, and the remainder of the squadron left Wilhelmshaven this morning.

It is stated that the ultimate destination of the fleet will be Italian harbours.—*Reuter*.

GIBRALTAR PREPARES

GIBRALTAR, Apr. 18. OVER A DOZEN French warships here kept up steam all day.

The crews returned to their ships at sunset after being allowed ashore for two hours.

The harbour entrance was closed at dusk and two destroyers have been patrolling the Bay.

AMERICA PREPARES FOR WAR To Protect Interests In Event Of Clash

WASHINGTON, Apr. 18. PRESIDENT ROOSEVELT has called a conference regarding the protection of the American financial and economic structure against a threat of war in Europe.

Amongst those called to confer were Secretary of the Treasury, Mr. Henry Morgenthau, Secretary of Agriculture, Mr. Henry Wallace and Chairman of the Federal Reserve Board, Mr. Marriner Eccles.

At the Senate Foreign Relations Committee hearings to-day, Senator Borah told Dr. Charles Fawcett, the neutrality law expert who was testifying before the Committee, that sanctions against aggressors were acts of war.—*United Press*.

Plans Drawn Up

WASHINGTON, Apr. 18.—President Roosevelt has summoned his chief financial and economic advisers for a discussion of the whole subject of world trade as it would be affected by the outbreak of hostilities.

Plans for the conduct of American security and commodity markets in the event of a European war, which were among the subjects for discussion, have already been tentatively drawn up during departmental conversations.—*Reuter*.

A LEAF FROM "MEIN KAMPF"

Spain Raises Minority Cry In Gibraltar

PROPAGANDA FOR the re-incorporation of Gibraltar is being carried on in Spain by the Falangists, says a "Trans-Ocean" message.

The "Paris Soir" to-day declares that many shop-windows in Spain are displaying maps with the caption: "What must be changed in the Mediterranean."

On these maps, Gibraltar is shown as a part of Spain. The paper also reports that Tangiers is being demanded by the Falangists, since it is claimed, it formed in reality part of Spanish Morocco.

SPANISH MOVEMENTS OPPOSITE GIBRALTAR

TANGIERS, Apr. 18. IT IS REPORTED here that twenty-six four-pounder guns have been placed along the Spanish coast facing Gibraltar. Travellers from Lainez claim they have seen field guns being placed in garages and stables.

They state that there is no more room available in military barracks for storage purposes.—*United Press*.

Franco Masses Troops

RABAT, Apr. 18.—Information from Tangier says that picked troops of General Franco's armies are being transported to Spanish Morocco.—*Domei*.

No Designs On Tangier

LONDON, Apr. 18.—The Spanish authorities at Tetuan have given the British Consul-General in Tangier an assurance that there is no truth at all in the reports of an impending Spanish occupation of Tangier.—*Reuter Special*.

London Inquiries

Enquiries on the subject of rumours of an intended Spanish occupation of Tangier in official quarters in London elicit the statement that the British Consul-General in Tangier has been given an assurance by the Spanish authorities at Tetuan that there is no truth in these suggestions, which are described by the Spanish authorities as sensational and absolutely false.

These reports are not the only ones of an alarmist nature in circulation at the present time and such rumours are indicative of the highly nervous state of mind all over Europe, which has resulted from the repeated shocks to its confidence in the last twelve months or more, and particularly from the effects of the recent events in Central and South-Eastern Europe.

They well illustrate the difficulty which has been emphasised by both the Prime Minister and the Foreign Secretary in recent statements of the rebuilding of confidence, once it has been shattered.

Portuguese Envoy Sees Halifax

LONDON, Apr. 18. The Portuguese Ambassador, Senhor Monteiro, called on Viscount Halifax at the latter's request this afternoon.

It is understood that Viscount Halifax requested the interview for the purpose of keeping the Ambassador informed as to the latest British moves in the international situation.

Franco-Spanish Discussions

RABAT, Apr. 18.—A mission of high Spanish officials arrived from Spanish Morocco to-day to discuss with the French authorities relations between Spanish and French Morocco.—*Reuter*.

BIG CANTON BATTLE RAGES

Chinese Regain 500 Villages

CHINESE FORCES converging on Canton from the south-west, west and north-west have succeeded in forming a common frontier over ninety miles in length, stretching from the north bank of the East River at Sheklung semi-circularly around the old Kwangtung capital through Tsengshing and the Canton-Hankow Railway town of Taillong.

As a result of the operations of the past week, the Chinese forces claim to have recaptured over 5,000 square miles of territory around Canton. In this territory are over 500 villages, with a normal population of several millions.

It is claimed that the Chinese are now in undisputed possession of the entire Kowloon peninsula south of the East River, with the exception of the area on the south bank of the East River around Tungking. Japanese forces defending Tungking are being covered by Japanese warships.

The Chinese front is now an average of less than twenty miles PLEASE Turn To Page 4.

DEATH SENTENCES COMMUTED

Death sentence passed on four men in connection with the False Teeth Murder Case has been commuted to penal servitude for ten years.

Clemency was exercised by the Governor-in-Council at this morning's meeting of the Executive.

The four men are Lam Kam-chuen, Fung Chak, Li Shek-man and Leung Tai.

They were found guilty at the March Criminal sessions of the murder of Leung Hung, who was killed when an orange, which was used by a member of the armed gang of which the four accused were parties, dislodged his false teeth.

Notification that clemency had been exercised was conveyed to the four men at Stanley prison shortly before noon.

BIG SHIP ABLAZE

LE HAVRE.—A serious fire has broken out aboard the 34,000-ton French liner Paris.

The fire is blazing in the interior of the vessel despite efforts of firemen.—*Reuter*.

The Agence Radio at Le Havre reports that the fire, the origin of which is as yet unknown, broke out on the S.S. Paris as she was due to sail for New York.

The first reports stated that the fire was spreading fast.

Worker Arrested

The fire started in the bakery at 10 p.m.

The flames rapidly spread to the main saloon and the main deck. All fire fighting apparatus in Le Havre has been called out, but the entire promenade deck was a flame by midnight.

A strong wind is whipping the flames and it is feared that the entire ship will be burned out. The cause of the fire is still a mystery, but a dock worker has been arrested.—*United Press*.

SONG WRITER LEFT £997 AND A NEW HIT

Asked For Red Roses, Forbade "Moping"

"NO mourning or moping for me. Most likely I will be popping in at odd moments to keep an eye on my dear ones"—these are the last words of the will left by Archibald Emmett Adams, the famous composer.

He died last October at the age of forty-eight at Leinster-gardens, W. London.

He also asked that there should be red roses at his funeral, and wrote both words and music of a song to be played at it.

This music, "Life's Great Sunset," was not to be made public until after his death, as he had instructed. His wishes were observed, and the song, now published, is a great success.

WAR FAVOURITE

It was said that he made a fortune from his songs, which had been heard all over the world. They included the war-time favourite "God Send You Back To Me" and the "Bells of Saint Mary's".

But he died leaving £997 18s. The amount is comparatively small, because, says a close friend, he was so wonderfully generous to people in all walks of life.

Several other songs which he left will be published, for he is still a best-seller.

There is also a complete novel which was found after his death, ready for publication. This will be published soon and will have the unusual interest of being a first novel published post-humously.

A friend who has read the manuscript said, "It is a most amusing book and shows that the author was a fine psychologist and had a keen wit without being malicious."

MAY TAKE CROWN TO CANADA

FOR the first time in history the Imperial State Crown will leave England in May, when the King and Queen will take it with them if their visit to Canada is not interrupted by the international situation.

The crown is that worn by the King at the opening of Parliament. Until the passing of the Statute of Westminster in 1931, it could not leave the shores of the United Kingdom.

It is being taken to Canada so that it may be worn by his Majesty at the proroguing of Parliament there, when the King will give his assent to Canadian Acts of Parliament. At the opening of Parliament the Queen does not wear a crown.

The Imperial State Crown is the most famous, spectacular, and valuable piece of jewellery in the world. Its value has been assessed at £500,000, but its historical associations place it beyond price.

It weighs nearly 40 ounces, contains 2,733 diamonds, 227 pearls, 18 sapphires, 11 emeralds, and five rubies.

Among the rubies is the famous one given by King Pedro the Cruel to the Black Prince, and worn by King Henry V. at the Battle of Agincourt, and by King Richard III. at the Battle of Bosworth.

Then there is the Second Star of Africa, given from the Cullinan Diamond, and four gigantic, egg-shaped pearls which were Queen Elizabeth's ear-rings.

Helmets, Steel, Civilians NOT For The Use Of

—as the Army would say Unless you are something to do with A.R.P. or fire-fighting or in the A.T.S.

50 Million-Year-Old Fish Wanted

EXPERTS have hopes of capturing another specimen of the prehistoric fish—believed to have been extinct for 50 million years—which was caught off East London, South Africa, on December 22, 1938.

D. J. L. Smith, of Rhodes University College, Grahamstown, well-known natural history expert, writes in "Nature," telling the story of the catch.

The discovery of the fish was described as "one of the most amazing events in the realm of natural history in the twentieth century."

Dr. Smith hopes that another specimen may be captured. "This is not so remote as might appear," he writes.

"After examination of the mounted specimen, a responsible citizen-angle of East London stated that about five years ago he had found such a fish, partly decomposed, cast up by the waves on the shore east of East London. When he returned with assistance the monster had vanished with the tide."

Accompanied by the Princess Royal and the Duke of Kent, she visited sixty-four stalls—one more than her previous record in 1935—and rested for only fifteen minutes during a tour lasting three and a half hours.

Salesmen were astonished at the size of her purchases. They included—

12 flower vases,
12 reproduction tea sets,
72 workboxes at one stall,
72 sets of table tennis,
7 pairs of book ends,
44 manicure sets at one stall,
144 "traveling toilet sets of brush and comb, sponge, etc.,
72 powder boxes,
150 pieces of china, including four musical mugs which played "Underneath the Spreading Chestnut Tree," "Bamburgh," "Stirling Castle," and "Come to the Fair."
36 combs made in the shape of Mr. Chamberlain's umbrella, and called "Mein Kampf."

MOST ENCOURAGING
The fair's most encouraging news yet comes from Mr. Erling Steen, leader of Norway's party of twenty buyers.

After walking through both sections of the fair, he prophesied that Britain might supersede France as the centre of women's fashions. He said: "I am impressed by the advances made by British manufacturers of fancy goods, cosmetics and perfumery."

"There is now no reason why Paris should be regarded as the centre for goods of feminine appeal." Salesmen at many stands reported that business was much improved over last year. One of them in the textile section said it was twice as good. Another sold the whole of his stand display to a London store.

DIFFICULT YEARS FOR CHILDREN

It's when children start to shoot up suddenly that they need your special attention. Children who are growing fast often tire easily, get pale, listless and do poorly at school.

The trouble is that children have a double job of work to do. They use up energy in work and play and at the same time they are growing!

Doctors and nurses have recommended Horlicks for years for children who need this extra energy. Horlicks moreover builds sturdy bone and muscle. You'll find that paleness disappears, and school-work improves. And the children seem to gain endless energy and "go." Get Horlicks today.

AUCKLAND TO STORE MILLING WHEAT

AUCKLAND. To guard against emergencies the Auckland Harbour Board has arranged to store 11,000 tons of Australian milling wheat this year. This amount of wheat is equal to six months' supply for the metropolitan area.

Auckland is the only port in New Zealand which is dependent on Australia for its wheat supplies. Grain and produce merchants in the city have been advised by the Wheat Committee that it would be advisable to keep good stocks of wheat for poultry food in store.

Contracts for Hangars.—Contracts for the construction of two large reinforced concrete hangars at the new military aerodrome at Whenuapai, near Auckland, have been let by the Public Works Department. It is estimated that the total cost of the two hangars will be about £180,000.

Sir Julien Cahn's Gift.—Sir Julien Cahn, who is now touring New Zealand with his cricket team, recently presented the Queen Mary Maternity Hospital at Dunedin with a special anaesthetic machine for use in maternity cases.

POLAR SHIP FOR METEOROLOGISTS

SYDNEY. Mr. Lincoln Ellsworth, the American explorer, who has just sold his Polar ship Wyatt Earp to the Commonwealth Government, says that it should be used for meteorological observations in the Antarctic because conditions there undoubtedly decided the weather in Australia.

It had already been proved, he said, that a hard winter in the Antarctic was followed by a drought season in the cereal growing areas of the Argentine.

It is understood that the Commonwealth Government is consulting with Sir Douglas Mawson, who has taken part in several Antarctic expeditions, as to the best way in which the Wyatt Earp could be employed.

SOUTHERN RHODESIA

MINES CLOSED BY HEAVY RAINS

SALISBURY. It is now possible to form some idea of the losses caused by the recent exceptionally wet season.

The most serious direct losses are in mining, many small gold mines having been flooded and compelled to stop working.

The early tobacco crop is curing out rather thin and papery, but the main crop will be up to standard if reasonable weather obtains during March.

The damage to roads has not been serious. About £2,500 will cover repairs. Shopkeepers, particularly sellers of luxury goods and women's clothes, have suffered rather severely.

I WON'T! I WON'T!

Fits of temper—tantrums—breaking up the party may not be serious to grown-ups but it's tragedy to childhood. There's something wrong with this "bridegroom". What he probably needs is CASTORIA, the children's laxative. Nervousness and fits of temper are not natural in children. At the first sign of irritation, temper, give them CASTORIA, the laxative made especially for children. It's pleasant, gentle, mild and thorough.

Don't let real tragedy grip your children. Insure their happiness with CASTORIA, the laxative which blends perfectly with their delicate, sensitive systems. Get a bottle today. Keep it in your home.

CASTORIA THE CHILDREN'S LAXATIVE

You can give CASTORIA with confidence to all the children—from babyhood to 11 years. It contains no castor oil, no harmful or habit-forming ingredients. Many doses in each bottle. Use as needed. It keeps.

BOY'S LETTER TO DUKE GOT HIM PLACE IN EXPEDITION

"Young Rascal" Thinks Explorer's Name Is Omen

A 15-YEAR-OLD Lancashire boy arrived at London recently on the first stage of the biggest adventure of his life.

He is Frank Wilde, secondary schoolboy, of Doe Hey Road, Bolton, who a month ago wrote to the Duke of Gloucester asking to be allowed to join the expedition of public schoolboys which goes to Newfoundland this summer.

Frank is going to Newfoundland. His expenses are to be paid by the Navy League, and recently in London he met Lord Lloyd, president of the League, and Surgeon Commander Murray Levick, R.N., who is to lead the expedition.

"It was something my mother said that made me write to the Duke of Gloucester," Frank said.

"I had been reading Ballantyne's books about Canada and the North," he said.

MOTHER'S HINT

"I had read 'Fast in the Ice,' and was finishing 'Ungava' when I read about the expedition.

"I told my mother that I wanted to go to Newfoundland with the expedition. All she said was: 'You'll get nowhere unless you do something about it.'"

"The very next day I wrote the letter to the Duke.

"Then one day Mr. Roscoe, the headmaster at my school—the Junior Technical School, Bolton—called me into his room and said that he had letters about a boy called Wilde, and was it me.

"THE YOUNG RASCAL"

"I filled up a form, had a medical examination, and the headmaster gave me a very good certificate. "When I met Commander Levick to-day he said: 'So you are the

Estelle Dorr wearing what she calls her "lucky court hat," as she appeared in a New York court to defend James Pryor, accused of murder. She is 23 and this is her first murder case.

Renouncing her allegiance to Germany, Marlene Dietrich, film star, astonished Labour Department examiners in Los Angeles with her knowledge of the Constitution and the Bill of Rights. She was quickly presented her second citizenship papers and will receive her final papers soon.

Peeress Phones 'Send Sweep To Wedding'

A FEW hours before her daughter, the Hon. Elizabeth Blades, was due to be married at St. Margaret's, Westminster, recently, Lady Ebbisham rang up a firm of Belgravia chimney sweeps and said: "I want Mr. Saintry to come to the wedding."

Mr. Fred Saintry, age seventy-three, who has been with the firm fifty-two years and still walks four miles to his work, went to see Lady Ebbisham.

"I'm a bit old for the job," he told her. He suggested that his assistant, Mr. Thomas (Boo) Edwards of Aylesford-street, Vauxhall Bridge-road, S.W., should deputise for him. Lady Ebbisham made out an invitation to the wedding for Mr. Edwards with a card on which she had written "Admit sweep."

So Mr. Edwards, forty-seven-year-old "Old Contemptible," who has swept the Ebbisham chimneys with his foreman, greeted the Hon. Elizabeth and her bridegroom, the Hon. Guy Herbert Edward Russell, R.N., brother of Lord Amthill, as they left the church.

He said: "Lady Ebbisham had given instructions that I was to go up to her son-in-law as soon as he left the church, tap him on the shoulder, and wish him good luck. "He didn't know anything about this, and when I went up and said to him, 'I wish you the best of luck and I hope you have lots of kids' he turned round and roared with laughter."

"The bride was a bit shy. She dropped her train, and he turned to her and said, 'Hallo, what's happened here?'"

"Then he turned back to me and said, 'Thanks very much, I wish you all the best of luck as well.'"

17 YEARS FOR ONE MAN

Nine Accused Get 91 Years

Sentences totalling ninety-one and a half years were passed by Mr. Justice Humphreys at the Old Bailey recently on nine accused men in the bombs trial.

HERE are the names of the nine accused and the sentences given them:

Michael Joseph Mason, aged 20, engineer, of Great Nelson-street, Liverpool. SEVENTEEN YEARS.

Peter Stuart, aged 25, poster writer, no address, described in I.R.A. documents as "Operations Officer, Dublin." FIFTEEN YEARS.

Charles James Casey, aged 23, porter, of Vinoduct-street, Bethnal Green. FOURTEEN YEARS.

Michael Preston, aged 23, labourer, of Cambridge-street, Pimlico. TWELVE YEARS.

John Healy, aged 40, club proprietor, of Fordington-road, Highgate. TEN YEARS.

James Michael Lyons, aged 20, French polisher, of Petherton-road, Islington. TEN YEARS.

George Brendan Kane, aged 23, butcher, of Harold-road, Sutton. SEVEN YEARS.

Michael O'Shea, aged 24, labourer, of Clewer-crescent, Harrow Weald. FIVE YEARS.

Joseph Walker, aged 26, labourer, of Great Nelson-street, Liverpool. EIGHTEEN MONTHS' HARD LABOUR.

Kane had pleaded guilty to conspiring to cause explosions and to commit arson. The others were found guilty. All, with the exception of Walker, were found guilty of possessing explosive substances or firearms. Walker was found not guilty of this.

Walker, Healy and O'Shea had pleaded not guilty to all charges. Casey, Mason, Stuart, Preston, and Lyons, in refusing to plead when the trial began, each declared himself to be a "soldier of the Irish Republican Army."

TWO NOTES TO JUDGE

After an absence of an hour and a quarter the jury—ten men and two women—sent the judge two notes and then returned to court.

The foreman asked two questions of Dr. Roche Lynch about aluminium powder found on Walker's coat, and then the jury retired again for another thirty-five minutes.

As soon as the verdicts of guilty had been returned the judge ordered all the prisoners, with the exception of Mason, Stuart, and Preston, to go below.

All the other accused, except those three, were hustled down the steps leading to the cells. Mason, Stuart, and Preston stood in a row side by side in front of the dock, each with his arms folded, awaiting sentence.

"O.C. BRITAIN"

Detective-Inspector Thompson said Mason came to this country early in December, 1938, and took over the post of "O.C. I.R.A. Great Britain" in succession to a man who was killed by the premature explosion of a bomb on the Irish border.

Stuart's correct name was Peter Joseph Walsh. He was born in Glasgow, and was the son of a pensioned police constable in that city.

When Mason was asked by the Judge whether he wished to put any questions, he folded his arms across his chest and, with a smile, said: "My name is not Mason, I would like to be sentenced in my real name. It is Cleary."

AN INCENDIARY

Then Preston broke his silence to say, "My correct name is not Preston, it is Fleming."

Dealing first with Mason, Mr. Justice Humphreys, in stern, slow tones, said:

"It is quite clear that you are an incendiary. You were personally engaged in an attempt to blow up one of the pylons, and I am now told that you are what is called 'O.C. Great Britain.'"

"I regard you as the worst of the men in the dock."

Petty Officer Loses Case

Engine-room Artificer Eric John A. Jenkins, of H.M.S. Curacao, failed in his action for damages against his Admiral and Captain.

Judgment with costs was given in the King's Bench Division in favour of Admiral of the Fleet the Earl of Cork and Orrery, and Captain Richard Shelley.

Jenkins' case was that in January, 1938, instead of being court-martialled, he was sentenced summarily to 42 days' detention on a charge of wilfully disobeying his superior officer.

Mr. Justice Hallett said that the only point for decision was whether Jenkins was sentenced for highly insubordinate conduct.

"I think wilful disobedience to a lawful command would correctly be described as a kind of insubordination," the Judge stated.

"The adjective seems to me not to render highly insubordinate conduct a different offence from insubordinate conduct."

Counsel for Jenkins were Sir Stafford Cripps, M.P., Mr. Peter P. In, Central Portsmouth's 28-year-old Labour candidate, and Mr. Anthony Cripps.

29 LBS UGLY FAT GOES IN 6 WEEKS

New, Safe Slimming Method praised by all

The following is one of the extreme cases of fatness which have been treated by the method that Bonkora will reduce your weight and bulk to normal after all the fat, and improve you in appearance and in health at the same time. If you are merely "putting on weight," or are even twice as fat and heavy as you should be, Mrs. Praxa's letters will make interesting reading.

"I have been under the doctor's care for bad heart and liver. He advised me to reduce. I tried all sorts of remedies without result. Then a friend told me she had taken Bonkora and lost 20 lbs. in 6 weeks. I decided to try it. I lost 29 lbs. in 6 weeks. Reduced but 6 inches, waist 7 inches. Now wear a dress 3 sizes smaller."

My liver troubles, headaches and tired feeling have gone too. I feel full of pep.—Mrs. M. A. Praxa.

Bonkora Safely-Builds up Health

You too can get rid of your fat as did Mrs. Praxa, without taking dangerous drugs, without doing any exercises, without any restriction in food. Bonkora is extremely dangerous to health. Bonkora not only gets rid of your fat, but tones up your whole body, making you fitter, stronger and to feel and look younger than for years. Bonkora takes off unwanted fat and builds up new tissue. Triple action. Triple speed. But absolutely safe. Bonkora gives you firm, healthy flesh of good colouring, place of the skin, ugly fat which made you look old and unattractive.

Bonkora is sold by all Chemists, Stores, Bazaars, etc.

Present Day Prodigal Son

London.

More than eight years ago a Dundee man quarrelled with his father, left home, yet returned shortly afterwards and lived in the same street as his father, without being seen. This strange story was told in Dundee Sheriff Court in connection with a petition lodged by the father to presume his son dead—the petition was rendered necessary by the question of payment under an insurance policy. Ascending to the withdrawal of the Petition the Sheriff commented on what seemed to be the almost impossible fact that the son had lived within a few yards of his father for so long without being seen.

BRITAIN RESTORING ORDER IN PALESTINE

FURTHER PROGRESS was made in the past month towards the restoration of order in Palestine, stated Mr. Malcolm MacDonald in reply to questions in the House of Commons today.

As a result of the firm and energetic action of troops and police, large armed bands had been broken up. One of the chief gang-leaders had been killed, and another had taken refuge across the Syrian border and had surrendered to the French authorities.

Considerable quantities of arms, munitions and explosives had been seized or surrendered, but isolated acts of terrorism and sabotage continue. The Government was not yet in a position to make a statement with regard to future policy.

Deferring Decision

Mr. Tom Williams, Opposition Labour, suggested that in view of the international situation, the final decision concerning Palestine should not be deferred for six or twelve months.

Mr. MacDonald replied that that was one of the matters the Government was bearing in mind.

Mr. G. Le Mander asked a question with regard to "negotiations going on recently in Cairo with regard to Palestine," and Mr. MacDonald re-

EMPIRE TALKS ON PACIFIC OPEN

The conference of representatives of the United Kingdom, Australia, and New Zealand to discuss questions of the Pacific has opened in Wellington.

During the discussions now under way, there will be "special reference to defence questions." In addition to representatives of the Defence Services, the United Kingdom delegates are: Sir Harry Butterfield, High Commissioner in New Zealand. Aged 59, he was formerly Assistant Secretary to the Dominions Office and was Political Secretary to the King (then Duke of York) on his tour of Australia and New Zealand in 1927.

Sir Harry Luke, High Commissioner of the Western Pacific. He is 54 years of age, and until last June was Lieut-Governor of Malia.

Australia's Delegates

The Australian representatives are as follows: Vice-Admiral Sir Ragnar Colvin, First Naval Member of the Commonwealth Naval Board, for which post he was named by the Admiralty 18 months ago. He formerly commanded the Royal Naval College, Greenwich.

Colonel V. A. H. Sturdee, Australian Director of Military Operations. Is 48 years old and a brother of Rear-Admiral Sir Doveton Sturdee.

Wing-Commander G. Jones, aged 42, won the D.F.C. in the war and became Director of Training, Royal Australian Air Force.

Death Of Famous Scottish Dowager

London, Apr. 18. The Dowager Marchioness of Aberdeen, widow of the former Governor-General of Canada and the Irish Viceroy, well-known for her work in connection with nursing and health services, and other social questions, died this afternoon, aged 82.

The greatest monument to her memory is the International Council of Women, of which she was one of the founders, and President for 40 years.

Her husband, the first Marquess, died in 1934, and thus ended a married partnership which their book "We Two" made world famous.

HOLLYWOOD, Cal. Monte Blue expects to dodge the fate that comes to movie actors when they are no longer persona grata with the public. He is studying law and will specialize in the handling of theatrical contracts which he declares is almost a virgin field for attorneys.

The Other Fronts

Fighting is still proceeding vigorously on other fronts in China. A "Reuter" messages from Peiping states that fighting is intensifying in Shansi.

Fighting is intensifying in Shansi, and the battles are now moving northward towards the centre of the province.

Fighting in North Honan and Central Honan continues, but no substantial advantage appears to have been gained by either side, "Reuter" claims.

Russian Assistance

Japanese official despatches from Peiping complain that Russians are assisting the Chinese in the offensive in South Shansi.

According to a Japanese spokesman, Russian tactics and methods of firing are being employed by the Chinese artillery on this front.

Asked if Russian-trained Chinese might be responsible, the spokesman told "Reuter" that he believed Russians were operating the artillery.

Heavy fighting continues on many fronts in the North. There have been five battles in South Shansi, two near Paotingku, one south of Kaifeng, and another north-east of Peiping, "Reuter" adds.

Question In Commons

London, Apr. 18. Replying to Mr. W. Pelling in the House of Commons today with regard to the situation in China, Mr. H. S. Hudson said that reports had been received of fighting in Kaifeng, but it was not yet possible to vouch for their accuracy.

Otherwise, there had been no important changes since the House rose for Easter.

In a written reply to Mr. H. J. Parker, Mr. Butler said that according to latest official Chinese figures, the Chinese Government claimed to be exercising complete administrative control over 61 1/2 per cent of the nine provinces in which the Japanese were at present, as compared with seven per cent a year ago.

Chinese and partly under Japanese control, and 31 per cent partly under Chinese and partly under Japanese control.—Reuter.

Transports In River Delta

The "Telegraph" understands that Japanese transports have been witnessed proceeding in the direction of the Pearl River.

It is not known whether they are carrying troops, but it is presumed that reinforcements are being sent to Canton in connection with the present Chinese counter-offensive.

BERLIN, Apr. 18.—Herr Franz von Papen, former vice-Chancellor of the Reich, and later Ambassador-Extraordinary at Vienna, has been appointed Ambassador to Turkey, a position which has for some time been vacant.—Trans-Ocean.

from Canton, and is reported to be relentlessly closing in on the city. At the nearest point, on the Canton-Hankow Railway, they are less than ten miles from the city.

Heavy gunfire is audible in the Anglo-French Concession at Shamen. It was reported this morning that the Chinese had completed possession of Sheklung, and were pushing on to Sheklung, the Kowloon-Canton railway city on the east bank of the Tsangkong River. Sheklung is thirty miles west of Canton, and the Tsangkong is the last of the many rivers and streams which the Chinese troops, operating in the region, would have to cross in their attack on the capital.

Bitter fighting is reported in the areas between the East River, Tsang-shing and Tsungfa.

K.C.R. Recaptured

The entire Kowloon-Canton Railway for a distance of sixty-five miles is now in complete possession of the Chinese.

East of Canton, bitter fighting is reported in the Falshan and Salnam Creek areas.

It is emphasised in Chinese circles that, whether Canton is recaptured or not, the immediate effect of the Chinese successes has been to completely relieve any possibility of a Japanese invasion of Kwansi being undertaken, since the Japanese forces are now back to where they started after Canton fell last October.

Japanese Counter-Attack

A "Central News" message states that Japanese reinforcements are pouring into Sheklung, for a counter-offensive against Tsangshing and Sheklung.

The Chinese are reported to be maintaining strong positions south-west of Tsangshing.

Since April 16, three Japanese columns comprising about 8,000 men, have been driving on Paitan, on a tributary of the Tseng River, to threaten the rear of the Chinese at Tsangshing. They have encountered stiff Chinese resistance in the neighbourhood of Tsungfa, suffering at least 400 casualties.

The measure was introduced with a view to maintaining sufficient trained troops on a permanent footing near the frontiers.—Reuter Special.

Jugo-Slavia Mobilisation

It has been learned that Jugo-Slavia will soon at least double the number of troops under arms.

It is estimated that this will bring the Army's strength to around 300,000 men.—United Press.

Behind The Scenes In Hongkong

What do you know of the backstage life of Hongkong? Do you know what comprises the training of a fireman, how many trees the Forestry Department plant yearly, where are the Sandalwood Hills and the little bridge built for the convenience of a householder's mother?

It is amazing how little is known of Hongkong by the average resident. Therefore, ZBW intends to conduct a light series of talks entitled "Backstage in Hongkong" which will deal with many of the things that local residents know only vaguely.

These talks will be conducted by Adam Charles and the first of the series will commence on Thursday at 9 p.m. It promises to be interesting and entertaining.

UNIVERSITY TALK

Lecture on Indiscriminate Bombings in China

A most interesting lecture was given in mandarin on "Indiscriminate Bombings" by Dr. Hsu Shu-hsi, M.A., Professor of International Law of Yenching University, Peiping, at the Fung Ping Shan Library last night.

Dr. Hsu dealt with the subject from a legal point of view. Part of his lecture was a summary of his recent book "Three Weeks of Canton Bombings."

Mr. Chan Kwan-po was chairman of the meeting, which was held under the auspices of the University Chinese Society. The speaker was warmly thanked by Professor Ma Kian, lecturer of Chinese Literature at the Hongkong University, at the conclusion of his talk.

Gland Discovery Restores Youth In 24 Hours

Sufferers from loss of vigour, nervousness, weak body, impure blood, fading memory, and who are old and weary before their time will be delighted to learn of a new gland discovery by an American Doctor.

This new discovery makes it possible to quickly and easily restore vigour to your glands and body, to build rich, pure blood, to strengthen your mind and memory and feel like a new man in only 24 hours. In fact, this discovery which is a home medicine in pleasant, easy-to-take tablet form, does away with gland operations and begins to build new vigour and energy in 24 hours, yet is absolutely harmless and natural in action.

The success of this amazing discovery, called Dr. Nixon's Vi-Tabs has been so great in America that it is now being distributed by all chemists here under a guarantee of complete satisfaction or money back. In other words, if you feel full of vigour and energy and from 10 to 20 years younger, or you merely want to feel like a new man, you can get your money back. A special, double-strength 48-hour Vi-Tabs course costs little, and the guarantee protects you. If your chemist can't supply you, write to Muller & Phipps (China), Ltd., 20, Queen's Road, Hongkong.

Benes To Lead Two Million

Chicago, Apr. 18. The Former Czech president, Dr. Edvard Benes, has announced that he has accepted the leadership of 2,000,000 Czechs abroad who are seeking to establish a new Czechoslovak Republic.

He said after agreement with collaborators in London, Paris and Moscow, he had prepared a manifesto to the Czechs in order to start a "new political action."

"This means I will enter the ranks of those forming a European front against aggression," he declared.

He also revealed that an attempt is under way to organise a "Czechoslovak National Council."—United Press.

Dutch Conscription

The Hague, Apr. 18. The Government has introduced a Bill extending compulsory military service from 11 months to two years six months, to be served with the frontier battalions.

The measure was introduced with a view to maintaining sufficient trained troops on a permanent footing near the frontiers.—Reuter Special.

EX-GOVERNOR OF HONGKONG DIES

THE DEATH is announced in London of Lieut.-Colonel the Rt. Hon. Sir Matthew Nathan, P.C., G.C.M.G., K.C.M.G., C.M.G., LL.D., one of Hongkong's foremost Governors, and also one-time Governor of Queensland.

Sir Matthew Nathan, who was 77 years of age, completed a brilliant career in the service of the British Government in 1926. For four years, from 1903 to 1907, he made himself an outstanding administrator of Hongkong, and the beneficial effect of his successful governorship is felt in the Colony even to-day.

Son of the late Mr. Joseph Nathan, Sir Matthew entered the Army in 1880, when he joined the Royal Engineers. He was promoted to the rank of Captain in 1889, was made Major in 1898, and Brevet Lieut.-Colonel in 1907.

MILITARY SERVICE
He was Colonel of the Durban Light Infantry in 1914.

In 1885 he served in the Nile Expedition, and he also saw service in the Lusitania Expedition in 1880, when he was awarded a medal with clasps.

From 1895 to 1900 he was Secretary to the Colonial Defence Committee, and in 1899 he administered the Government of Sierra Leone. From 1900 to 1903 he was Governor of the Gold Coast.

He came to Hongkong to become chief administrator here until 1907. From Hongkong he was appointed Governor of Natal, an office which he held for two years.

Sir Matthew was then called home to assume the duties of Secretary to the Post Office from 1907 to 1911, and from 1911 to 1914 he was Chairman of the Board of Inland Revenue, and a member of the Pacific Cable Board. His next important office was Under-Secretary to the Lord Lieutenant of Ireland, which he occupied from 1914 to 1916, and in 1916 he was employed on the London Defences.

GOVERNOR OF QUEENSLAND
From 1916 to 1919 he was Secretary to the Ministry of Pensions, and then in 1920 he once again assumed gubernatorial duties, when he became Governor of Queensland.

He held this office until 1926, when he retired from active Government service.

From 1922 to 1926 he was Chancellor of the Queensland University. In 1927 he became Chairman of the sub-committee on Geographical Surveying.

From 1927 to 1928 he was a member of the special commission on the Constitution of Ceylon, and from 1928 to 1929 he was Chairman of the Colonial Secretary's advisory committee on rubber.

In 1929 and again in 1930 he was Chairman of the civil research sub-committee on Irrigation Research. From 1930 to 1931 he was President of the Somerset Archaeological and Natural History Society.

After his retirement he was made an Alderman of the Somerset County Council, which office he held from 1927 to 1935. He was also Sheriff of Somerset from 1934 to 1935.

He was made a J.P., and Deputy Lieutenant of Somerset, and was also an F.S.A., F.R.G.S., and F.R.H.S. Nathan Road, the principal thoroughfare of Kowloon, was named after Governor Nathan.

Traffic On New Burma Highway

LONDON, Apr. 18. Col. H. H. Mulholland, Under-Secretary of State for India, replying in the House of Commons to-day to questions regarding the Burma Highway, said that the Burma section was now open to vehicles exceeding five tons gross, and it was anticipated that improvements now being made would keep the road open for this traffic during the rains. An adequate supply of petrol was available at Lashio and three other points between there and the frontier.

He added that no special protection against aircraft existed on the Burma section.—*Reuter*.

Strikers Hold Up Navy Order
Admiralty Seeks To End Trouble

LONDON, Apr. 18. THE ADMIRALTY has taken action at Siemens electrical engineering factory at Woolwich, where a strike is holding up important Government work. Admiralty employees are loading barges with submarine cable for Singapore, which is Admiralty property made by Siemens under contract. While the Admiralty repudiate any action in the nature of a strike, a representative of the striking committee stated to-night that there was any pressure brought to bear on dockers and lightermen to assist in the removal of the products, there would be serious trouble.—*Reuter*.

Anglo-U.S. Trade Pact Benefits

LONDON, Apr. 18. The President of the Board of Trade told the House of Commons to-day that while it was still too early to draw definite conclusions regarding the effects of the Anglo-American trade agreement, there were already signs of considerable expansion of United Kingdom exports to the United States. The increase in the first two months of this year, as compared with same period of 1938, exceeded £1,000,000.—*British Wireless*.

IN THE COMMONS

POLITICAL ACTIVITY
Chamberlain Tells Of Consultations

LONDON, Apr. 18. IN THE House of Commons to-day, Mr. Chamberlain indicated that the maintenance of the independence of the Netherlands, Switzerland and Denmark was of the greatest importance to the European anti-aggression front.

Britain, he said, was continuing in very close consultation on military and other matters with other Powers, including the Soviet, with a view to formal adherence to the anti-aggression bloc.

He failed to mention Turkey, with whom it is understood negotiations might be completed this week. The Prime Minister was warmly cheered when he referred to the Government's "great satisfaction" regarding President Roosevelt's message.—*United Press*.

Britain's Ability

LONDON, Apr. 18. Asked in the House of Commons to-day whether he was in a position to announce any new measures designed to increase British ability to discharge her recently extended commitments, Mr. Neville Chamberlain replied that steps were being taken, both to accelerate and widen the basis of production with a view to providing increased war material, bearing in mind the increased demand which it was providing to participate in view of the recent developments.

Replying to a question in a Ministry for Supply, Mr. Chamberlain intimated that he would make a statement on this subject in the near future.

Independence

Questioned regarding negotiations with other governments, the Premier said that the Government had entered into no specific engagements with Holland, Switzerland and Denmark, but he added:

"It is necessary for me to insist on the interests which His Majesty's Government has in the preservation of their independence."

The Premier, answering Mr. Clement Attlee, said the Government continued to have close consultations with other interested governments, including Russia, but he could not yet supplement his statement of April 13 on this matter.

Roosevelt's Message

Mr. Chamberlain added: "I should like to take this opportunity of informing the House of the great satisfaction with which the Government welcomed the recent initiative of President Roosevelt."

Mr. Chamberlain's reference to the United States was received with prolonged cheering.

Mr. Leslie Hore-Belisha, Secretary of State for War, in reply to a question regarding Bren guns, stated that the output was being enlarged, and a "sufficient capacity" was being created in Canada, Australia and South Africa also contemplated establishing factories to manufacture Bren guns.

Mr. Hore-Belisha added that all regular infantry units at home and abroad, except India and Burma, which were separately equipped, had the Bren gun issued up to war scale.—*Reuter*.

Berlin Communiqué

Berlin, Apr. 18. The following official statement between Herr von Ribbentrop and M. Gafencu was issued to-night:

"The Reichs Minister for Foreign Affairs, Herr von Ribbentrop received the Rumanian Foreign Minister, M. Gafencu, this afternoon for lengthy conversations about questions affecting Germany and Rumania. In the course of the deliberations it was ascertained that far-reaching agreement of views prevailed on questions affecting both countries."

Sofia Conversations

LONDON, Apr. 18. The Bulgarian Minister to London, M. Moxochloff left here to-day for Sofia, where, it is stated, he will discuss the international situation with his Government. It is not known whether he is the bearer of any special communication from the British Government, but it is stated that he will return to London within a few days.—*British Wireless*.

British Ships Sold To Reich
Govt. Powerless To Stop Transactions

LONDON, Apr. 18. QUESTIONED regarding the recent sale of British merchant ships to Germany, Mr. Oliver Stanley, President of the Board of Trade, stated in the House of Commons to-day, that the Board of Trade had no power to prevent the transfer of British merchant ships to foreign flags. In future, it would be made a condition of any assistance for the shipping industry, that owners wishing to scrap or sell vessels, should first offer them to the Government in connection with the scheme for reserve tonnage.—*Reuter*.

Rumanian Minister To Visit London

LONDON, Apr. 18. The Rumanian Foreign Minister, M. Gafencu, will arrive in London on April 22 on an official three-day visit. The programme of talks in which he will be engaged has not yet been fixed.

Mr. Gafencu arrived in Berlin to-day, and his official discussions there will last two days. He will then leave for Brussels, en route to London.—*Reuter*.

Mussolini Disgusted

Rome, Apr. 18. A high Fascist source reports that Mussolini intends to ignore President Roosevelt's message and to let Hitler speak for both Italy and Germany. Mussolini is "disgusted" at the tone and contents of Roosevelt's message.

He understands that Hitler has told Mussolini that he will give an adequate reply in his speech to the Reichstag on April 28.

Meanwhile, the Hungarian Premier and Foreign Minister are arriving in Rome. The first move to offset the Anglo-French front, Mussolini seeking to bring Hungary into active support for the Axis.—*United Press*.

A Look Through The "Telegraph"

50 YEARS AGO

April 19, 1889. Dispatches received here to-day announce that the British residents of Soudan have been warned by the Admiral of the German fleet to leave the place, as he proposes to begin a general bombardment of the port. Soudan is a port in Africa situated about 100 miles north of Zanzibar.

The annual report was submitted to the shareholders at the second general meeting of the Masonic Club.

25 YEARS AGO

April 19, 1914. The Admiralty has invited tenders for two battleships for the 1914-15 programme. This is the earliest invitation of tenders for many years. The ships will be ready by October 1916.

10 YEARS AGO

April 19, 1929. A story of a daring exploit by the British navy, H.M.S. Tern, is told in naval wireless messages received this morning, though the feat was unfortunately not accomplished without casualties. Three naval ratings being wounded. All shipping on the upper reaches of the Yangtze, above Ichang, has been held up owing to the intensity of the fighting between rival factions. The fighting was reported to be taking place about twelve miles above Ichang, and H.M.S. Tern was sent up to effect the release of the foreign steamers. In going up river she was subjected to severe rifle fire from both banks, having, more or less, to run the gauntlet, but the Tern not only got through, but brought the ships back to safety.

A new step in Imperial communications was consummated to-day when the first India-England air mail reached Croydon. The Canadian Pacific Steamships' recent ship-building programme—the biggest in the world—involves eleven huge vessels of 105,000 gross tons, and will be completed in 1931 when the Empress of Britain, of 40,000 gross tons, is placed in commission between Canada and Europe.

The C. P. line is also building the new Empress of Japan, of 21 knots. The Empress of Japan will be 25,000 tons gross register, and is planned to be the fastest and fastest vessel on the Pacific. The Empress of Canada will parallel the Empress of Japan as she is being recognized to give her a similar speed of 21 knots. They are making some structural alterations in the already de luxe character of the Empress of Canada to provide greater personal comforts for her patrons.

5 YEARS AGO

April 19, 1934. M. Leon Trotsky (or "Mr. Sadoff" as he persists in calling himself) to-day made a laughing-stock of the French Surete-Generale and the German Gestapo of Saline-at-Marne, just out of Paris, when he was found secretly residing in an expensive villa at Harbizon.

Although not establishing a record, the cold snap at present being experienced in the Colony is the most severe for the month of April for a period of nine years.

taken from the American Press. In the news bulletins talks political bias is very apparent. The B.B.C. is in the habit of objectivity, is sometimes accused of tendentiousness one way or the other. There can be no question that tendentiousness is far more obvious in the Zeeseen broadcasts.

The Spanish Government forces are consistently described as "Reds," "Maoists," or "Bolsheviks." Dr. Negrin and Senor del Vayo are called the "Soviet" leaders. Mr. Eden and Mr. Churchill are called "those anti-German politicians," and so on.

CONCERTS AND DRAMA

News bulletins form only a fraction of the Zeeseen output. Concerts, musical programmes of all kinds, and radio drama, including Shakespeare and detective plays, and German language lessons, are also broadcast. I heard a discussion the other day designed to advertise the facilities offered at Munich University for foreign students. Particular emphasis was laid on the statement that absolutely free expression of thought was allowed in debates at the International Students' Club. "Many of our listeners may not be aware that free and frank discussion really exists in Germany to-day," observed the compere.

Two American students were brought to the microphone to say how much they enjoyed the broadcasts. One of them remarked, rather ambiguously, I thought, that it was a fine city, and everything his hearers had heard about it in America was true.

CONTRAST IN METHODS

The German announcers speak extremely fluent English, but adopt an ingratiating, almost gushing style in German.

which falls a little uneasily on English ears. Some of them have an Australian accent. On the other hand, Zeeseen is much more intimate and personal in its methods than the B.B.C., and it may be that the British programme-makers could learn something from this score. Overseas listeners are encouraged to write to Zeeseen; their letters are quoted, their names mentioned, and their questions answered at the microphone. American towns have special programmes dedicated to them.

But nobody who has listened regularly to German short-wave broadcasts can fail to wonder whether it is producing results commensurate with the effort and expenditure. The instructions of the important listener must, I should think, inevitably lead him to the conclusion that, both in composition and presentation, shows the smallest traces of pretentiousness and suppression. Judged by these standards, I find the B.B.C. bulletins incomparably better, and my preference goes not only to the B.B.C. bulletins in English but also to those

Patriotism

WE MAKE no excuse for choosing the eulogistic references in London newspapers to the projected intention of the Malayan Government to contribute £1,000,000 to the Imperial Government for Defence as an opportunity to once more refer to the grossly unfair levy imposed upon this Colony for military contributions.

En passant, we do not intend to join in the paeans of praise with which the Malayan announcement has been greeted in London.

We would prefer, rather, to draw attention to the fact that, either on the per capita or percentage or revenue basis, Malaya can well afford its occasional sops of £1,000,000 when compared with Hongkong, which has more than once been referred to, not altogether apocryphally, as one of the highest taxed countries for military purposes, in the world.

It is pertinent to recall, as a contemporary did some time ago, that the proportion of defence expenditure to general revenue even in the United Kingdom was, until the colossal re-armament expenditure commenced, substantially lower than in Hongkong. It is also pertinent to point out that, as compared with the average of 17 per cent. of gross revenue contributed by Hongkong for defence purposes, the contribution of Australia was until last year only eight per cent. of Federal revenue, whilst in Canada, South Africa and New Zealand the percentage was even less.

We are somewhat envious of the fact that the Malayan Government has an annual defence tax of only \$2.40 per head of population, as compared with the Hongkong per capita contribution of \$6. It is interesting to realise that, in the United Kingdom, defence costs per capita were only \$32 in 1935—just 5½ times the per capita contributions of this Colony, more than two-thirds of whose population ekes out a miserable living on a pittance that barely keeps them alive; whose infant mortality rate, unreasonably increased to one in every three children born because of poverty and consequent malnutrition, is amongst the highest in the world.

We do not feel disposed to join in the London references to the patriotism of the Malayan Government when we remember that our enforced patriotism, which, incidentally, passes unnoticed, has cost us almost twenty per cent. of our total revenue for every year of this century, as compared with the Malayan average of just over ten per cent.

We would rather recall that, had Hongkong enjoyed as substantial a measure of relief from the defence burden as Singapore or, indeed, any of the British colonies, there would have been sufficient funds available to assure a primary education for every child born in this Colony, or to establish enough clinics to save the lives of thousands of mothers and infants who have died on the altar of poverty, disease and malnutrition.

"MEIN KAMPF" IN THE LIGHT OF EVENTS

What the new Unabridged English Version Reveals

by
J. C. Johnstone

"MEIN KAMPF" is now at long last made available to the British public in an authentic and unexpurgated English translation. The reason for the previous withholding of such a translation has generally been supposed to have been the veto of Herr Hitler himself.

If that was in fact the reason—and it is impossible to imagine any other—it was obviously actuated by the desire of preventing the people of Great Britain from comparing the extravagant belittles of his book with the pacific protestations of his speeches as Fuehrer and Reich Chancellor.

This explanation is confirmed by the character of the "abridged" English version which has been masquerading on our bookshelves for the past six years. The real "Mein Kampf" shows only of its unessential. Actually, it was not so much an "abridgment" as a paraphrase which dealt with all the most offensive passages either by omitting them altogether or by watering them down in translation as to leave a comparatively innocuous impression on the mind of the unsuspecting reader.

LAST WAR WELCOMED

As a single example out of a thousand that could be cited, it may suffice to instance total exclusion of a passage which declared that the ultimatum of the Vienna Government to Serbia in July, 1914, was "in the eyes of the great masses too moderate and certainly not excessive or brutal".

That "the War of 1914 was certainly not forced on the masses" is even declared by the whole people, and that "I am not ashamed to acknowledge to-day that I was carried away by the enthusiasm of the moment and that I sank down upon my knees and thanked Heaven out of the fulness of my heart for the favour of having been permitted to live in such a time."

What is to be said of a so-called "abridgment" which ignores so palpable a clue to the mind and temper of the author?

The full version now before us is a formidable tome of 560 closely-printed pages. A great deal of it consists of tedious and indigestible verbosity which may well try the patience of the long-suffering reader beyond endurance before he is half-way through with it. To make matters worse there are no page headings; the frequent italics which readily catch the eye in the original German are unaccountably omitted; and a ludicrously perfunctory index is compressed into four and a half pages.

It may therefore be helpful for the reader to know that the best "meat" is contained in chapters IV, V, VI, and X, in the first part, and chapters XIII, to XV, in the second.

SCORN OF THE MASSES

In an introduction the translator suggests several answers to the question why Herr Hitler does not revise "Mein Kampf". They are that "it is an historical document which bears the imprint of its own time" and cannot therefore be revised without being taken out of its "historical context"; that, by Herr Hitler's own account, "his acts and public statements constitute a partial revision"; and that "he has been too busy" (e.g., the abandonment of the Germans in South Tyrol and of Alsace-Lorraine); and that what he wrote before attaining official responsibility does not implicate him as Chancellor of the Reich.

All this is absurd. Admittedly the book was completed within three years of the Ruhr invasion, which might plausibly account for the statement contained in it that France is an implacable enemy who must be annihilated. But the book also refers many times to the "feebleness" of the understanding of the masses. How, then, can it be supposed that the masses, being of "feeble understanding," would be capable of discriminating between the "historical context" of 15 years ago and the immediate aims of policy to-day? Is not the retention of the passage about the annihilation of France a direct incitement to the masses to believe that this annihilation is an indispensable necessity of German existence?

What, again, becomes of the argument that, as Chancellor, Herr Hitler is not implicated by the programme of "Mein Kampf" when we see every single item of that programme being fulfilled before our eyes with the most astonishing pertinacity? There is only one solitary item which, as Chancellor, he has hitherto repudiated in act and not merely in worthless pledges. That item is the significant one of Colonial activity, which in "Mein Kampf" he denounced, but which he has now taken up with vigour and menace. Is it not the inescapable conclusion that whatever in "Mein Kampf" remains as yet unachieved is only awaiting its turn?

Until last month there had been a tendency to assume that Herr Hitler would stop at territorial expansion when he reached the limits of the territory inhabited by the German race. That illusion is now utterly exploded, but if the world was deceived it was not for want of warning in "Mein Kampf." For "the necessity of bringing our territorial area into just proportion with the number of our population" is one of the most persistently reiterated themes in the whole book, and is described as "the primary objective of every foreign policy." With the "Political Testament of the German nation" ends with the following exhortation:

Never consider the Reich secure unless, for centuries to come, it is in a position to give every descendant of our race a piece of ground and soil

that he can call his own. Never forget that the most sacred of all rights in the world is man's right to the earth he wishes to cultivate for himself and that the holiest of all sacrifices is that of the blood poured out for it.

250,000,000 GERMANS

The order of magnitude of his expansionist ambitions may be measured by his estimate that, a century hence, there will be 250,000,000 Germans in Europe, who must not be "packed like coolies," but have abundant soil they can call their own. To ensure the provision of this space—presumably thrice the existing area of Greater Germany—is the business of a properly conducted German foreign policy.

In general terms the East is marked out as the direction of this colonising activity: "When we speak of new territory in Europe to-day we must think of Russia and the border States subject to her. Destiny itself seems to wish to point out the way for us here." Bohemia and Moravia, though not mentioned in this connection in "Mein Kampf" are clearly designated as the first fragmentary instalment in the process of conquest there outlined.

The role assigned to England is that of friend and ally whose benevolent neutrality towards the Eastern programme is to be assured by German abstention from rivalry in the Colonial sphere. England is also to look on while the destruction of France removes the last possible source of challenge to the German domination of the Continent.

It rather looks as if the Anglo-German Naval Treaty was an attempt to steer England into voluntary conformity with this neat Hitlerist vision of the future Europe.

As a commentary on Herr Hitler's propagandist exploitation of anti-Bolshevism it may be remarked that he roundly castigates his Imperial predecessors for not having adopted a similar course before the war against Russia. Tsarism or Bolshevism makes no difference, except that in the circumstances of to-day Bolshevism happens to provide a convenient propaganda handle.

The Versailles Treaty, it can be seen, was almost generously itself by the side of the fate which befell "Mein Kampf" for those nations unfortunate enough to find themselves within the area scheduled as "German living space." But when a fraction of what he would inflict on others is inflicted on Germans it becomes what he calls "sadistic cruelty" and "indescribable oppression," such that "they should send up to heaven the glowing prayer: Almighty God, bless our arms when the hour comes. Be just, as Thou hast always been just. Judge now if we deserve our freedom. Lord, bless our struggle!"

"MIGHT IS RIGHT"

Herr Hitler's flaming moral indignation over the alleged "injustices" of Versailles would be more intelligible if his pages did not make it abundantly plain that, in his view, justice consists in the ruthless exercise of the power of the stronger, and that it only becomes injustice when this power is not being exercised by Germany. In a curiously revealing passage he remarks:

"I shall never believe that France will of herself alter her intentions towards us, because, in the last analysis, they are only the expression of the French instinct of self-preservation. Were I a Frenchman and wrote the testament of France, I should say to me as that of Germany actually is, in the final reckoning I could not and would not act otherwise than a Chemeneau."

Nature red in tooth and claw is a constantly recurring theme throughout the book. In "the world of everlasting struggle, where one creature feeds on the other, and where the death of the weaker implies the life of the stronger," international solidarity is just an idle dream. He declares:

Nobody can doubt that this world will one day be the scene of dreadful struggles for existence on the part of mankind. In the end the instinct of self-preservation alone will triumph. Before its consuming fire this so-called humanitarianism, which conceals only a mixture of fatuous timidity and conceit, will melt away like snow under the March sunshine. Man has become great in perpetual struggle. In perpetual peace he will go to destruction.

BELIEF IN BRUTALITY

As to Herr Hitler's conception of the character and role of National-Socialism, it may suffice to quote the following single passage:

The conviction of the right to employ even the most brutal weapons is always associated with fanatical faith in the necessity for a new and revolutionary transformation of the world. A movement which does not fight for such high aims and ideals will never have recourse to extreme means.

Such is the mental pabulum on which the "feeble-minded" German

GRIN AND BEAR IT By Lichty

"HELLO, DEAR FRIENDS AND LISTENERS." THIS IS—

Zeesen Calling

—by—
L. MARSLAND GANDER

"DEAR friends and listeners overseas," says an effusively friendly voice through the loud-speaker. There is hardly need for it to add, in that faintly guttural, English, "This is Germany calling."

By night and day, with scarcely a break throughout the 24 hours, the German short-wave station at Zeesen—said to have cost £1,000,000—is pumping out programmes to the world, with announcements and news in English, Dutch, Spanish, Portuguese, and of course German.

The scale of its ceaseless activity is matched only by Daventry, the B.B.C. Empire station, with the difference that the B.B.C. uses English, German, Spanish, Portuguese, Arabic, Italian and French.

To-day many countries speak to other nations through broadcasting. Italy, for instance, uses 20 different languages—but Britain and Germany have superior facilities and reach the widest audience. Daventry will shortly have five high-power transmitters in operation; Zeesen has six on regular schedules and two in reserve.

There is no more ironical comment on the world to-day than the growing babel on the short-wave band. It is true that broadcasts by one country in the language of another are not in themselves hostile acts. Language is, after all, the only path to understanding among men and nations. But it is also the path to misunderstanding, and in 1939 motives and material need careful scrutiny.

CLUES TO IDENTITY

Day after day on the bewildering short-wave band the listener finds an English station talking German, a German station talking English, an Italian station talking Arabic, or a Russian station talking French. As a half a breadth on the dial separates one transmitter from another, the task of identification becomes infinitely tantalising, calling for the stoical patience of the angler.

The short-wave listener is quite relieved to establish a recognizable contact—come what may—such as a phrase as "We are wishing you perfect reception," which stamps the programme as made in Germany, or to hear that equally distinctive mark of identification, the voice of a typical B.B.C. announcer.

Germany was early in the field with foreign language broadcasts, beginning in 1934, and the B.B.C. followed suit only in January last year. When the short-wave transmissions from Zeesen were launched, it was stated in official German quarters that they were intended for people of German origin throughout the world.

One need look no farther than the much-quoted "Mein Kampf" for motives. In that work Herr Hitler makes plain his deep-rooted belief in propaganda, and freely acknowledges the superiority of the Allied methods during the war. To-day, on all printed programmes distributed to the German world, the German short-wave stations appear

masses are being compulsorily fed, such the religion which it is the holy duty of every German to accept without question as his credo, and such the paramount conviction of the founder of that religion himself.

Too long have we imagined or tried to deceive ourselves that it was never meant to be taken quite literally. Can anyone doubt for a moment longer that the most virulent and pernicious of the world's religions is being employed against whoever opposes that "new and revolutionary transformation" which Herr Hitler fanatically believes to be his mission?

the declaration, attributed to the Fuehrer: "We wish to safeguard the eternal foundation of our existence, of our nationality, and the strength and virtues with which it is endowed."

HOW NEWS IS COMPILED

Any Hongkong listener may hear for himself the evidence of Germany's immense broadcasting effort. For example, at 10 p.m. daily, half a dozen transmitters at Zeesen begin broadcasts to Southern and Eastern Asia, Australia and New Zealand. At midnight the same chorus is turned on the Americas.

What, then, is Germany telling the world with such characteristic thoroughness, and what is its effect on the scattered audience? To find the answer to these questions I have been listening regularly to the Zeesen transmissions in English for some time.

The favourite method of the compilers of the Zeesen bulletins is to comb the newspapers of the world and to quote carefully selected extracts. For instance, one day quotations were read from an Arab newspaper to the effect that the object of the Palestine Conference in London was to strengthen Britain's grip on the Orient and the Arab States. "Britain," said the writer, "intends to show the world that she is master in the Orient and plans to throw the apple of discord among the representatives of the Arab States in London. Various questions, apart from the Palestine issue, are to be raised in order to set off one party against another."

QUOTING FROM AMERICA

The report in a London newspaper that the Jews in Palestine threatened an armed revolt if the conference failed was mentioned one day. As a departure from this method, another bulletin contained some isolated sentences to the effect that on the occasion of a religious festival "an unfortunate invalid Arab was hanged. He was condemned to death because an old rifle was found in his possession."

Reports from French newspapers of Anarchist atrocities in Catalonia have been freely quoted, and I have heard lengthy extracts read from criticisms of B.B.C. news bulletins published in a London newspaper.

A recent Zeesen bulletin began with a report of a broadcast given by "the well-known American publisher, Randolph Hearst." It was said the announcer, a sharp-tongued Roosevelt administration man, Mr. Hearst, it was said, took particular exception to the statement that it was the duty of the United States to defend democracy and treaty loyalty all over the world. Mr. Hearst asked whether Mr. Roosevelt intended to convert Soviet Russia to Christianity, how he reconciled his humanitarian arguments with the brutal oppression of 300,000,000 Indians and the slaughter of many innocent inhabitants of that country. Similar sentiments, continued the announcer, had been expressed by Senator Walsh and Col. Theodore Roosevelt.

DENUNCIATION OF JEWS

More direct methods are used to castigate the Jews and the Spanish "Reds," though lately there has been a lull in the attacks on the Jews. I heard a talk one morning on Spain devoted largely to an account of the ruthlessness of the "Fetich" (sic) "Torquemada," who, the speaker said, had caused the death of thousands of innocent Aryans. Denunciation of the Jews for anti-German "conspiracies" has occurred frequently.

Recently Zeesen had turned its verbal guns on to Washington, which the announcer chose to describe as the centre of a world-war agitation. "These attacks on the authorities in the States," he continued, "are intended to counterbalance the Bolshevik defeat in Spain." The announcer went on to denounce Senator Pittman's "absurd" assertions in his recent speech and supported his criticisms as usual with quotations.

Mediterranean

Warships Maintain Vigilance

Gibraltar, Apr. 18. Over a dozen French warships kept up steam and the crews returned to the ships at sunset after two hours of shore leave.

The harbour entrance was closed at dusk, two destroyers patrolling the day. Steel-helmeted British troops did sentry duty at the frontier gates which are closed, while the road to Gibraltar from Spain is barred.

The relative strength of the Mediterranean Anglo-French and German-Italian fleets respectively are: Battleships eight, two; pocket battleships 0, 2; submarines 44, 110; aircraft carriers one, one; destroyers 71, 59; heavy cruisers 10, seven; light cruisers nine, 14; torpedo boats six, 17; motor torpedo boats six, 43.—United Press.

GERMAN SQUADRON

Berlin, Apr. 18. A German naval squadron, which is beginning its spring manoeuvres near Spanish waters, left Germany to-day.—Reuter Bulletin.

EGYPTIAN FRONTIER

Cairo, Apr. 18. All reports concerning the presence of German troops in Libya and on the Egyptian frontier were denied here to-day by the Egyptian Premier, Mohammed Mahmoud Pasha.

This declaration is accorded unusual significance in political circles because it removes one of the most important grounds for the anti-German press propaganda which has been going on during the past few weeks.—Trans-Ocean.

PREPARATIONS CONTINUE

Cairo, Apr. 18. A number of ships with war material have arrived at Port Said, according to Egyptian press reports to-day. Contrary to custom, the ships were not unloaded by Italian dockworkers but by Egyptians.—Trans-Ocean.

London Prepares

Raid Sirens And Food Supplies

London, Apr. 18. Two hundred extraordinarily powerful air raid sirens are being installed throughout the entire London area. They will be audible over an area of 200 square miles.—United Press.

FOOD SUPPLIES

London, Apr. 18. War time plans for rationing and controlling the national food supplies by the Ministry of Food, which would work through 19 regional offices and 1,400 local committees, are practically complete. Plans are based on the Government's proposal to become the sole purchaser of all imports and home supplies in the event of war.

Wholesalers would purchase supplies from Government and would operate strictly in accordance with the Food Minister's orders. Retail traders would be registered and licensed by local committees, purchasing from wholesalers at prescribed prices regular weekly supplies to meet their customers' demands. Immediately on the outbreak of war, five staple commodities would be rationed, namely, butter, meat, and hain, lard, dripping, and other cooking fats, and sugar.

A register of carrier pigeons for use in wartime is being compiled by the Air Ministry. Pigeons would be carried in R.A.F. machines and used to convey messages if wireless apparatus were out of action. Since the war the R.A.F. has maintained a pigeon service and, as a result of offers of pigeons from private fanciers, it is expected that about 500,000 birds will be available to play a part in national defence.—British Wireless.

NATIONAL SERVICE

London, Apr. 18. The exemption conditions in the compilation of the national register are to be revised, according to press reports this morning, because of a storm of protest from various quarters against the recruiting system announced in January.

According to the original plan about half of the able-bodied men in England—between 6,000,000 and 7,000,000—would be listed as "indispensable" to various branches of industry. This fact has proved to be a serious obstacle to recruiting volunteers for the civil defence organisation, as well as for the territorial army.

It was also announced this morning that the decision regarding the establishment of a Munitions Ministry will be made during the present week, and that the regular Wednesday meeting of the Cabinet will deal with this question.—Trans-Ocean.

Britain

REACTION TO PEACE APPEAL

London, Apr. 18. Well informed sources state that Mr. Neville Chamberlain, in the statement he will make this afternoon in the House of Commons on the attitude of Britain regarding President Roosevelt's message, will cordially welcome the action of the United States President and announce the readiness of the British Government to assist the 25-year plan for international appeasement.—Trans-Ocean.

Interim Of Peace

London, Apr. 18. So far no reason has been vouchsafed for Herr Hitler's delay in replying to Mr. Roosevelt until the Reichstag meeting, which could be constitutionally called in a shorter period, but newspaper observers in Britain and France regard the interim as guaranteeing a lull after a period of tension. There is only very vague speculation as to the nature of the Fuehrer's response.

The Times says it would be another delusion to imagine the axis Powers have less to lose from a war than the rest, or are less likely to be overthrown by defeat or collapse. The British Government, like the American, would be more than willing to welcome negotiations to re-establish genuine peace. If Hitler has constructive counter-proposals the British people will wait to test them in that spirit.

The peace front has plain recognition of the necessities behind it and a determination which is deep-founded, but because its purpose is neither self-regarding nor aggressive it can well become an instrument of positive peace when all its members have concrete proof of a new security in which all can put their confidence. Until that day arrives it will not relax a jot of its resolution or vigilance.—Reuter.

Premier to Speak

London, Apr. 18. The inclusion of Turkey and Russia in the gigantic peace front neared conclusion as Parliament re-assembled to hear Mr. Neville Chamberlain and Lord Halifax report on the general situation.

It is understood that Mr. Chamberlain will announce formally Britain's full adherence to Mr. Roosevelt's peace plea, and also intimate that he hoped the Turkish-Russian negotiations would be completed this week.

There are reports of agreements having already been effected by both Turkey and Russia, but British, Russian and French sources here describe these as premature. Mr. Ivan Maisky, Soviet Ambassador, left for Moscow by the regular Dutch service air liner at 8.45 a.m.—United Press.

New Zealand

Advised To Be Ready For Emergency

Wellington, Apr. 18. An appeal to every man up to the age of 50 to be prepared to defend the country in the event of emergency was made by Mr. M. J. Savage when he spoke at a State luncheon to the delegates of the Pacific defence conference.

The Premier said that day may come sooner than they thought, and then they might have to go to war. It would be New Zealand's job to implement as far as possible the best means of keeping its end up. Mr. Savage endorsed the view that it is better to hold a conference before a war than after it. There are reasons for all disagreements, and until they are abolished they would never get the "superstructure" everyone wanted. In the meantime, however, they could not carry pious resolutions and await results, but must prepare for other things that might happen.—Reuter Special.

AUSTRALIAN FLEET

Sydney, Apr. 18. Manoeuvres of Australian naval units began on Monday at midnight, the New Zealand flagship Neander also participating. Eight squadrons of the Australian Air Force are taking part in the manoeuvres which are described as the most extensive since the great war.

The "Blue" fleet, which is the aggressor, is composed of the cruisers Neander and Adelaide, together with a number of armed commercial steamers, while the "Red" fleet consists of the cruisers Canberra, Sydney and Hobart, as well as three destroyers and two convoys.

It is officially announced that in the first attack the defenders beat off the attackers, theoretically destroying one enemy cruiser and crippling another.—Trans-Ocean.

CHINESE DOCTORS MEET

At the annual general meeting of the Hongkong Chinese Medical Association the following were elected office-bearers for the year:

President, Dr. Chiu Wai-cheung; Vice-President, Dr. Edward W. J. Sun; Hon. Secretary and Treasurer, Dr. T. P. Wu; Council Members, Drs. Chau Suk-nin, Li Shu-pui, Tsung Fat-im, Phoon Seck-wah, D. K. Samy, Lee Hui-long, N. P. Kuranjia, and C. W. Lam; Hon. Legal Adviser, Hon. Mr. M. K. Lo.

New Australian Party Leader

Canberra, Apr. 18. Mr. R. G. Menzies, former Attorney General, was elected leader of the United Australian Party and prospective Commonwealth Prime Minister in succession to the late Mr. J. A. Lyons. Mr. Menzies defeated the wartime Prime Minister Mr. Hughes by a narrow majority.—Reuter Bulletin.

Germany

M. GAFENCU ARRIVES IN BERLIN

Berlin, Apr. 18. The Rumanian Foreign Minister, Grigor Gafencu, has arrived in Berlin.

On Wednesday M. Gafencu will be received by Chancellor Hitler, who is returning to Berlin on Wednesday morning. After luncheon at Herr Ribbentrop's residence the Rumanian Minister will visit the Deputy Party Leader, Minister Rudolf Hess, on Wednesday afternoon and a banquet will be given at the Rumanian Legation on Wednesday night.

Great importance is attached to the conversations between the Fuehrer, Herr von Ribbentrop and the Rumanian Foreign Minister, in view of the recent international developments and one-sided British Guarantee to Rumania. Political circles believe that in addition to questions resulting from the recent German-Rumanian commercial agreement, the general tendency of Rumanian foreign policy will be discussed. It is expected that the Rumanian visitors will be frankly informed of our own standpoint, which considers any participation in the British encirclement manoeuvre as a hostile act against the Reich.—Trans-Ocean.

Defence Bloc

Agreement Reached With Soviet

Paris, Apr. 18. French authorities state that Britain and France have reached an agreement with Russia regarding the use of the latter's aerial power in the event of further aggression in Europe.—United Press.

Military Alliance

London, Apr. 18. The Soviet Union is understood to have informed France of its intention to guarantee the independence of Rumania, in return for which Great Britain will guarantee Poland, Turkey and other countries bordering on the Soviet Union.

Some circles predict that an agreement providing for general co-operation and mutual assistance between Great Britain and the Soviet Union, virtually tantamount to an Anglo-Soviet military alliance, will shortly be signed between the two Governments.—Domel.

Malsky Leaves

M. Malsky, The Soviet Ambassador to London, left to-day by air for Moscow, to where he has been recalled in connection with the conversations with the British Government.

The Prime Minister had a conversation with Lord Halifax this morning, while another caller on Mr. Chamberlain was the Secretary for War.

The Turkish Ambassador called at the Foreign Office.—Reuter Bulletin.

Amicable Progress

London, Apr. 18. Negotiations between Turkey and Britain arising out of the guarantee to the Balkan countries are proceeding amicably, it is stated authoritatively to-day. It is unlikely that the Premier will announce a guarantee to Turkey to-day.

The Bulgarian Minister to London left London to-day for Sofia for a consultation with the Bulgarian Prime Minister.—Reuter.

The Dardanelles

London, Apr. 18. The Turkish Ambassador, Dr. Rustu Aras, visited the Foreign Office at 12.30 p.m. to-day. It is understood that he discussed with Lord Halifax the position of the Dardanelles in the anti-aggression front, while he was informed as to the present stage of Anglo-Soviet negotiations.—United Press.

HEALTH BULLETIN

The Week's Toll Of Tuberculosis

Two cases of Diphtheria, two of Typhoid (one imported), 13 of Measles, one of Chicken-pox, three of Dysentery and 24 of Tuberculosis were reported on Monday.

During the week ended Saturday five cases of Small-pox with four deaths, nine of Diphtheria with four deaths, 10 of Typhoid with four deaths, 44 of Measles with 22 deaths, two of Chicken-pox, 17 of Meningitis with 12 deaths, 21 of Dysentery with three deaths, one of Puerperal Fever and 108 of Tuberculosis with 99 deaths were reported.

Shanghai

Japanese Hits British Woman

Shanghai, Apr. 18. The Japanese wife of Albert O. Davis, a British subject and former Court reporter, alleged she was slapped by a Japanese Consular policeman on Garden Bridge when she revealed that she was a British subject after the Japanese sentry had pulled her into the police hut, and asked her why she failed to bow low enough.

Mrs. Davis said she told the sentry she was a British subject because she had married a Briton, whereupon she alleged the Japanese policeman slapped her face and pushed her, crying out "Do you think if you are British you are God? Do you think the British are superior to the Japanese? What right have you to become British?"

Albert Davis said that he had not asked the British Consulate to protect it. It is understood that he is filing suit against the Japanese Consular police, claiming \$5,000 yuan damages.—United Press.

SHANGHAI PAPERS RECEIVED

Shanghai, Apr. 18. Threats of violence against two British-owned and two American-owned Chinese language newspapers arrived at their offices this morning, purporting to come from the "Chinese Youth's National Salvation Association."

The letters threatened the use of bombs and bullets and the "patriots" said they have no objections dying together with the staff when carrying out the bombing.

These are only Chinese papers which are strongly pro-Chinese. The American-owned papers, the Chinese edition of the Evening Post and Mercury, and the Hwa Mei which prints two editions. The British-owned papers include the Standard, Ta Yin Ya Pao, Leader and Yih Pao. Both the Standard and Hwa Mei received two letters because they publish two editions daily.

The police immediately placed guards and detectives at all offices concerned. They gave similar protection last year which was removed in recent months.—United Press.

NEWSBOY KILLED

Shanghai, Apr. 18. Assassins last night killed Chow Kuo-tung, husky six footer chief of the newsboys of the Ta Mei Wan Pao, edited by the Shanghai Evening Post and Mercury, on Garden Bridge. He was pulled down by a bullet which killed him, and also the ricksha coolie who was pulling him, wounding two pedestrians including one woman. Police believed that the murder was the result of revenge, due to the fact that Chow had been an important position, mapping out all delivery and controlling scores of newsboys.—United Press.

BARBARA GILMAR

To Sing at Concert By Massed Naval Bands

Barbara Gilmar, Hongkong opera singer, has returned from Shanghai where she appeared as guest artist with the Shanghai Municipal Orchestra under Maestro Mario Paci.

In her first concert she gave a classical programme and in the second she sang in two 10th Century works—the sacred cantata "Stabat Mater" and the oratorio "Resurrection of Christ" which is by Lorenzo Perosi. These two works were given on Good Friday and repeated on Easter Saturday by a company of five soloists, a chorus of 150 voices and the Municipal Orchestra. In the oratorio Miss Gilmar sang the part of Mary Magdalene.

According to present plans, Miss Gilmar is to sing at an Orchestral Concert by the Massed Bands of the Fleet, which is contemplated for presentation at the China Fleet Club in May, and is to broadcast an operatic programme over ZBW.

It is likely that she will return to Shanghai for another series of concerts in July.

King Zog May Go To U.S.

Budapest, Apr. 18. The brother-in-law of Queen Geraldine, the Hungarian landowner Anders Baghy, succeeded in speaking over the telephone early on Tuesday with the Queen's lady-in-waiting, Baroness Roehling, in Larissa, Greece, where the Queen and her party are now staying. The Baroness stated that Queen Geraldine and her son Alexander are doing well, and would leave with King Zog for Turkey in four or five days time. The Baroness added that a visit to London was not envisaged and that King Zog's future plans are still uncertain. It was, however, possible that he might travel to the United States where he has been invited to make a lecture tour.—Trans-Ocean.

China

Kuomintang Denial Of Split

Chungking, Apr. 18. In a statement to Reuter the Central Committee of the Chinese Communist Party states that neither itself nor any local organisation of the Party has any connection with the distribution of leaflet in Shanghai criticising the British and French attitude in China and threatening Communist break with the Kuomintang unless an anti-British and anti-French front is formed.

The leaflet is described as "ridiculous and absurd." Its contents are said to be entirely contradictory to the policy of the Chinese Communist party "which aims at an united front in the anti-Japanese resistance."

The basic policy of the Chinese Communist Party, the statement declares, "aims firstly at co-operation between the Kuomintang and Chinese Communist Party as a foundation for the establishment of a united front to drive Japanese out of China and also to establish an independent and prosperous new China."

"Secondly it seeks to secure co-operation of all nations sympathetic to the Chinese nation, particularly Britain, the United States of America, France and Soviet Russia."

The statement continues: "It is clear that the contents of the leaflet do not represent the views of the Chinese Communist Party but those of Japan and Chinese traitors."

"The Central Committee of the Chinese Communist Party wishes to point out that the recent anti-British movement was inspired by Japan in occupied areas and these leaflets distributed in Shanghai indicate a Japanese attempt towards the Chinese resistance; but we are confident that the British and French Governments will see clearly through such methods."

"Meanwhile attempts to create internal dissension among Chinese and also to create ill-feeling between the Kuomintang and the Chinese Communist Party are bound to fail," the statement concludes.—Reuter.

United States

U.S. Shivers In Freak Storm

Chicago, Apr. 18. A freakish storm of snow, sleet and freezing rain which swept the Middle West, is now headed for the East towards the Ohio River, which has reached flood levels from the heavy spring rains.

The storm originated in the Rocky Mountains and whipped the snow into deep drifts in Colorado and Wyoming, reaching blizzard proportions in western Nebraska and northern Iowa.

It is coming north and central Wisconsin with ice, resulting in hail and heavy rains in Illinois.

From Humboldt, Iowa, is reported the worst blizzard for the year. Meteorologists expected the storm to bring showers in the Wabash River Valley, Indiana, and the central Ohio Valley, where it is estimated that 2,000 persons have been forced to evacuate lowland homes.

The storm floods have cost at least five lives, which in addition to 40 dead from the tornadoes in the southern states during the past three days, has brought the total for the nation to almost 50.—United Press.

S. A. RUMJAHN ENTERS SEMI-FINALS OF SINGLES

S. A. Rumjahn entered the semi-finals of the Colony tennis singles championship yesterday by defeating Lim Thiam-tet, the Perak champion, in straight sets. Picture shows Rumjahn, who is taking part in his 20th consecutive championship, in action on the stand court yesterday.—Staff Photographer.

GAME PROVES DISAPPOINTING TO HUGE CROWD

LIM THIAM-TET FAILS TO TOUCH PEAK FORM

(By "Abe")

Far from being the even game most people had expected, the quarter-final tie in the Colony tennis singles championship between S. A. Rumjahn and Lim Thiam-tet on the stand court of the Hongkong C.C. yesterday proved to be a definite disappointment. Except for one short period in the first set, Rumjahn was never seriously extended and won comfortably by 6-4, 6-2.

How much Lim's recent indisposition affected his play it is difficult to assess; but the fact remains that his form yesterday was far below that of his previous matches. There was an uncertainty about his stroking which had not been apparent before, and he missed many opportunities to finish off a rally when he had got the Indian out of position.

On the other hand Rumjahn played with a determination which is highly commendable for a man who is taking part in the Colony championships for the twentieth consecutive year. He was not content to wait for mistakes on the part of his opponent, but speeded up his game and went all out for winners.

Taking the match as a whole, the standard of play seldom rose very high. Now and again one or the other would flash over a winning drive; more often, however, Lim would concede a point with a weak shot.

SERVICE WEAKNESS

Lim's service, which had been such a potent factor in his earlier ties, let him down badly yesterday. He was extremely unreliable in this department of the game and served up innumerable double faults. Compared to Lim's, Rumjahn's service, one of the weakest weapons in his armoury, was very good indeed. Need any more be said?

Until his resistance broke down completely in the latter stages of the match, Lim's recovery was one of the redeeming features of his game. On several occasions when a drive from Rumjahn looked like a winner, the Indian would make a brilliant return to force the Indian into making a mistake.

After winning the first set in the tenth game, Rumjahn played with confidence and hit the ball much harder than he is wont to do. His strokes to the net were far more successful than they should have been; but his opponent failed to pass him even when he chose what appeared to be the wrong moments in which to make his advances. Ordinarily Lim would have passed him with drive down the side-lines; yesterday he was either over-hitting or driving into the net.

As a result of this victory, Rumjahn has earned the right to meet Taul Wai-pui in the semi-finals.

TO-DAY'S PROGRAMME

The first semi-final match in the current championships is scheduled to be decided this afternoon. It is in the doubles in which Lee Yue-wing and Ho Ka-lau will meet the Rumjahn cousins. On paper form, the latter pair should get through, but it has to be remembered that the Chinese are well-known for their retrieving qualities and may make a fight of it.

The match will be best of five sets, and this is a factor in favour of the Indians, who generally take a little time to settle down.

The full programme is as follows:

OPEN DOUBLES (SEMI-FINALS)

Lee Yue-wing and v. S. A. Rumjahn and

Ito Ka-lau (stand court) H. D. Rumjahn

HANDICAP SINGLES

V. R. Gordon or v. C. B. Nicholson

F.A. Cup Final To Be Broadcast

On April 29 the English soccer season once again comes to a spectacular climax with the Cup Final, and once again listeners to Daventry will be able to join by proxy the ninety-thousand enthusiasts who will be at Wembley Stadium. Two broadcasters well known to overseas listeners—Thomas Woodroffe and Ivan Sharpe—will be the proxies; Woodroffe, who has been a BBC staff commentator since 1936, will be responsible for the account of the actual game, and Sharpe, a sports journalist whose many previous football broadcasts have proved that he has an eye, as well as a nose, for news, will interpolate comments on the play.

As an event of national—even international—appeal, the Cup Final is rivalled, perhaps, only by the Boat Race and the Derby. Every year it brings to London sixty or seventy thousand favoured enthusiasts from all parts of the country; their tickets have been bought months before, no money being taken at the Wembley turnstiles. It is an event often honoured by the presence of the King and Queen, Her Majesty usually presenting the Cup to the winners.

The finalists this year are the Wolves and Portsmouth. Transmission 1, April 29, 8 a.m. G.M.T. Transmission 2, April 29, 12 p.m. G.M.T. Transmission 3, April 29, 5 p.m. G.M.T. Transmission 4, April 29, 8 p.m. G.M.T. Transmission 5, April 30, 230 a.m. G.M.T.

CHANGE PREDICTED IN WOMEN'S GOLF

Pinchurst, N. C.

Mrs. Opal Hill of Kansas City, an outstanding woman golfer, predicted in a statement made public here that soon all the women's invitational golf tournaments will be changed to open events.

Mrs. Hill, who became a professional after years of competition as an amateur, made all the winter tournaments and reported, "Many of the championship players would prefer it if the tournaments were open events."

The United States Golf Association recently warned all leading women golfers that it was a violation of the amateur code to accept special rates at hotels and other privileges. Mrs. Hill said many of the women golfers had concluded the best plan would be to make the events open tournaments, so that those who cannot afford to play as amateurs could turn pro and continue in competition.

QUESTION OF TIME?

"Few invitational events this winter," said Mrs. Hill, "have been petitioned."

CHAMPIONS TO PLAY THE REST

Two Interesting Ties On Sunday

Two interesting soccer matches will be played on Sunday at Caroline Hill, one between the Second Division champions (South China) and the Rest of the Junior Division at 3 p.m., to be followed by First Division champions (South China "A" or Royal Navy) against the Manila Interport selection.

The following have been selected to represent the Junior Division:

Salters (Royal Scots); Lo Shu-kar (Kwong Wah); Heap (Stonemasons); Edes (R.A.O.C.); Shaw (R.E.); Simmonds (Royal Scots); Calvert (5th A.A.); Keane (Royal Scots); Munton (R.A.O.C.); Pelham (R.E.); and Duffield (R.A.O.C.).

Reserves—Carlin (R.A.), Guy (R.A.) and Williamson (Royal Scots).

Jerseys, knickers and stockings will be supplied by the Association and players are to report to Mr. C. Guimaraes at the pavilion not later than 2.30 p.m.

The game will be of 70 minutes duration.

Cricket Transfers Allowed But Not For Money

London, March 29.

It will be possible for first-class cricketers to be transferred from one county to another this coming season without any residential qualification.

That is the most important part of the report of the M.C.C. committee which prepared a scheme for the registration of county cricketers.

The recommendations of the committee were accepted with only one reservation—a minor one—by the County Cricket Advisory Committee yesterday and will become operative immediately the M.C.C. gives its formal approval, which can be expected within the next fortnight, writes Charles Bray.

RESTRICTION

There are a series of important restrictions, of course. First-class cricketers have no intention of following first-class Association football in the matter of money transfers, but, broadly speaking, a player not wanted by one county will be able, with the approval of the M.C.C., and the

county from which the player wishes to move, to be immediately transferred to another county requiring his services.

The restrictions deal with players from overseas or the minor counties. The only recommendation not immediately accepted is one relating to the residential qualification affecting minor county cricketers.

FIVE-YEAR CLAUSE

A player who has secured a special transfer cannot have a second one for five years. The county releasing the cricketer is given the right to agree to the immediate transfer of the player, to defer such agreement, or to withhold consent to the transfer. The M.C.C. will be able to override the refusal to permit the transfer if it is proved that it is unreasonable.

CANTAB GOLFERS FIGHT BACK AND GET ON TOP

London, Mar. 22.

Cambridge golfers proved themselves grand fighters in the first stage of the inter-Varsity match on the Royal St. George's course at Sandwich.

They won the foursomes by 3 games to 1, with one halved, in spite of the fact that when only nine of the 36 holes remained to be played Oxford led in three matches by margins of two, two and three holes.

Father And Son Beaten In Final

Bid For Doubles Title Fails

London, Mar. 25.

Lord Aberdare and his son, the Hon. Morys Bruce, just failed to win the Amateur Rackets Doubles Championship at Queen's Club, C. S. Crawley and J. H. Pawle beating them in the final by 4 games to 3 (15-12, 15-11, 15-11, 15-12, 15-11, 15-11, 15-11, 15-11).

Pawle, a variable player, was right at the top of his form and played superb rackets. Crawley was not quite so good as usual at the start but found his form just when needed and it was largely his great hitting in the sixth and seventh games, which turned the scales when things were looking bad for his side.

Lord Aberdare was, as always, a great general and, for a man of 54, his activity was astonishing. He was always ready to dash into the thick of the fray and seemed able to hit from any angle.

His son maintained the splendid form he had already shown in the competition and, in the earlier games, his taking of the services in the back-hand court and the manner in which he stood up to the insistent pressure brought on him by Crawley and Pawle, augured the highest possibilities for the future. He is very young and it was not surprising, therefore, that towards the end, he tired under his opponents' relentless attack.

RUN OF ELEVEN

After Lord Aberdare had scored two points by service in the first game, Pawle made 6 and then Crawley ran out for the game and went to 1-0 in the second, a run of 11. After some splendid rallies in the second game Crawley and Pawle led by 11-7, Pawle making a good 6, but Lord Aberdare and Bruce drew up to 12-11 and Lord Aberdare won the game with three crushing services.

The third game was a brief affair. Pawle got in at 2-1, ran out for game and went to 3-0 in the fourth, a splendid run of 10, 11 of which were scored direct from the service. Lord Aberdare and his son were level at 5-5 and then Bruce, playing great stuff in the rallies, won the game with a run of 10.

The fifth game was evenly fought to 6-6 and Crawley and Pawle led 10-7, but 9 by Bruce, all by service, gave his side a 13-10 lead. Pawle made 2, but after some blank hands, Bruce clinched the game.

In the sixth game, Bruce weakened a little and Crawley and Pawle crowded on the pace. Small runs enabled them to lead 13-7. Lord

At the final reckoning, however, Cambridge had turned two of these deficits into winning margins. And in the leading contest John Langley, the Cambridge captain, sank his putt from 10ft. to win the last hole and so square the match.

A gale of wind caused many shots to be played from bunkers and sand-hills, but W. S. Whitelaw and W. H. Holstead, who beat their Oxford opponents by 11 and 10, played some brilliant golf. For the eight holes in the afternoon they were five under four, the figures being:

4 5 2 3 4 2 5 2.

THE RESULTS

Here are the results in detail: J. C. Lawrie and F. M. Forster (Oxford) halved with J. D. A. Langley and N. B. F. Mann.

W. S. I. Whitelaw and W. H. Holstead (Cambridge) beat S. Pether and R. C. Twining 11 and 10. E. S. Brown and R. B. Booth (Cambridge) beat T. C. Harvey and J. R. Briggs 2 and 1. J. R. How and G. L. Reynolds (Cambridge) beat C. B. Walker and A. S. Gilbey by one up.

A. J. B. Marchant and R. O. Wynn (Oxford) beat B. D. Carris and A. E. Buchanan 4 and 3. Harvey and Briggs had once been 5 up on Browne and Booth, and were 4 up at the end of the morning round. How and Reynolds struggled against a two-holes deficit for most of the afternoon, but Reynolds got down a long putt to square at the 17th and sank another one of 5ft. to win the 18th.

FAVOURITE LIKELY TO BE STARTER

London, Apr. 18.

Signal Light, winner of the Craven Stakes at Newmarket last week and favourite for the Two Thousand Guineas, has improved and is now likely to be a starter. Earlier on Signal Light had been reported suffering from shoulder trouble and was undergoing veterinary treatment. Its stable companion, Foxbrough, however, has now become a very doubtful starter.—Reuter.

SUBURBAN STAKES

The following alterations have been made in the list of probable starters for the City and Suburban Stakes: Lynch, rides, Esquema, and Sibbritt will take out Owen.—Reuter.

Aberdare made one and Crawley went out. Crawley and Pawle obtained a 12-11 lead in the seventh game. Lord Aberdare and Bruce were always fighting back but the pace was just a little too much for them and Crawley and Pawle were strong winners at the finish.

United States Tennis Officials To Help Von Cramm In Come-Back

New York, Apr. 4.

American leaders of amateur and professional tennis will try to smooth the rocky come-back round for Baron Gottfried Von Cramm of Germany whose brilliant court career was temporarily blighted by prison bars.

I learned authoritatively that officials of the United States Lawn Tennis Association will put pressure on our immigration department to have the big, blond German ace admitted to our country this summer. Such pressure will be needed because foreigners who have suffered prison sentences or who come under the clause of "moral turpitude" are banned entrance to our shores.

The U. S. L. T. A. brass hats are quite set upon having Baron Von Cramm visit here this summer. They need him for the five important grass tournaments, and particularly as a drawing card for the Nationals at Forest Hills—now that red-headed Don Budge is carving out a quick hundred grand as a professional. They've got to have a big name for the gate.

And there is no greater name in amateur tennis to-day than that of Von Cramm, who stands out as the world's No. 1 Simon Pure performer since the commercial shift of Budge.

WANTED AS FOIL

Not only are the U. S. L. T. A. officials concentrating on the German Baron, but promoter Jack Harris of the professional tours also is casting big eyes at the Teutonic Elong. Harris admittedly recognizes in Von Cramm the only tennis player in the world who may be used as a foil for Budge in a big time American professional tour next winter.

Harris says, "Budge beat Ellsworth Vines in the first half of the current tour. And Budge will beat Fred Perry of England in the last half of the tour. Next winter we'll have to have Von Cramm as an opponent for Budge, or we won't have any tour. No, I haven't negotiated with Von Cramm yet about his turning professional, but Budge corresponds with him regularly. I believe everything will work out all right."

You'll notice that none of the men who mention Von Cramm connect him with Davis Cup play. The reason is this: Never again will the Baron represent Germany on the court. "He has been allowed his freedom from German jails, but his alleged offence and incarceration prevent him forever from representing the fatherland on the court—as long as Herr Hitler is Der Fuehrer."

It was a year ago that Von Cramm was arrested in Berlin and charged with violating paragraph 175 of the German code which deals with sexual irregularities. On May 14 he was sentenced to a year in prison in connection with "blackmail" of 30,000 marks that he had paid to Manfred Herbert, who was described as a "Galician Jew."

TOO OUTSPOKEN

In America, the tennis men, who knew Von Cramm, well laughed down the immorally charges. They recalled that Von Cramm, unfortunately had been outspoken against the Nazi regime. And that certain state-people he made about government in Germany while touring Australia in the winter of '37-'38 probably had more to do with his arrest and

conviction than the Herbert Blackmail case.

Von Cramm never served his year in prison. He was released on parole in October, because of "good behaviour." And recently the Baron announced that he was returning to International Tennis competition, but not for Germany. He recently entered the Egyptian championships at Cairo, starting in mid-April.

Officials of the U. S. L. T. A. will watch Von Cramm's performances in Egypt almost as closely as they will watch the showings of Bobby Riggs, Wayne Sabin and Gene Mako during the early American tourneys. Von Cramm will be 30 years old in July. It is problematical if he can lift his game to its former heights.

If the Baron does fairly well in foreign tourneys, it looks like a 10-1 bet that he'll be over here this summer, and that he'll be facing Budge as a professional next winter.

ALLISON RENEWS CONTRACT

Arsenal To Keep Manager

London, April 1.

Mr. George F. Allison has been invited to renew his contract with the Arsenal, and now that minor managerial differences have been adjusted he intends to do so.

A new contract to take the place of the one which expires a year next June is being prepared.

Mr. Allison's position is the most onerous in football, and during the five years he has held it as the successor to Herbert Chapman the club has been carried on with outstanding distinction.

The club's record in fact in winning the Cup plus the League championships three times in six seasons has never been equalled and is a wonderful tribute to Mr. Allison's leadership.

ECONOMY

This, too, has been accomplished by an economy in transfer fees, which was not previously preceded. Indeed, until the payment of £24,000 for Bryn Jones, there was a balance between the fees paid and those received by players released in favour of the club.

This season there has been a slight decline in playing results, but there comes a time in the life of every team when difficult rebuilding work has to be undertaken, and the club has been passing through this period with less trouble than might have been anticipated.

SOLUTION TO HOOKING PROBLEM NEEDED

Rest Of Rugby Season Could Be Devoted To Scrum Experiments

By Peter Lawless

London, Mar. 22. With the match between the Army and the Royal Air Force at Twickenham on Saturday the representative games of the season come to an end. But there are hosts of club games to come, to say nothing of the Barbarians' tour, before the season dies. Why not use the balance of these games for experiments in restraining the destructive activities of back-row forwards, and in finding a practical solution to the hooking problem?

A sub-committee is to be formed to study the existing scrumming laws, and their recommendations are to come before the International Board on the eve of the Calcutta Cup match in 12 months' time. This, as already announced, was decided by the International Board at a meeting in Edinburgh last week. Well, that leaves us plenty of time in all conscience. But before going any further let us remember that the honorary secretary of the Board may at any time convene a special meeting of the Board upon the request of any Union, provided the purpose for which the meeting is desired is not inimical to the different Unions at least three weeks before the meeting. Judging from certain statements in various letters which have reached me, it may not be out of place here to draw attention to some points in the laws affecting wing-forwards, hookers, who are the joint villains of the piece. A player off-side if, while the ball is in a scrum, he is not being in the scrum, remains with either foot in front of the ball, "remain" and "either" being in black type in the law. After "in front of the ball" to "in front of his own scrum" and "Rugby becomes an entirely different game."

UNWORKABLE

Then we came to: "It is illegal for more than three players to form either front row of the scrum before the ball has been put in." The ball shall be put in without delay. The player putting in the ball shall stand not less than three feet from the scrum, and with both hands below the knee shall put the ball fairly in at moderate speed so that it first touches the ground beyond one foot of the nearest player in front row. It is illegal for any player in either front row of the scrum to raise or advance his foot until the ball is fairly in. I've left out some of the twiddle bits but you get the idea? It won't work. Referees do their best to interpret the law, and hookers, knowing it won't work, do their best to company with the referee's interpretation. Let the first step be to have a sub-committee of people in the arena. Two good hookers, say Travers and Toff; two good referees, say Gadeny and Ireland; add four knowledgeable front-row forwards, a slow motion cine camera expert, a photograph of the experiments and the members of the International Board to watch them.

CONSTRUCTIVE LETTER

And here is an interesting and constructive letter on the subject from Mr. H. R. Newton, the secretary of that successful side, Bedford:

WAKE UP YOUR LIVER BILE

Without Calomel—And You'll Jump Out of Bed Full of Vim and Vigor. The liver should pour out two pints of bile into your bowels daily. If this is not done, your food does not digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk. Laxatives are only makeshifts. A more bowel movement doesn't get at the cause. It takes those famous Carter's Little Liver Pills to get those two pints of bile flowing freely and make you feel "up and up." JACK ROPER KNOCKED OUT IN FIRST ROUND

Los Angeles, Apr. 17. Joe Louis, 201½ lbs., knocked out Jack Roper, 204½ lbs., in the first round of their 10-round bout at Wrigley Field to-night in exactly 2 minutes 20 seconds.

Louis and Roper met in the middle of the ring and sparred cautiously. Roper landed a light left to Joe's chin, followed by a left to the jaw. Louis came back with a right to Roper's jaw, followed by another to the same spot and two more to Roper's head. Then Louis staggered Roper with a series of lefts to the jaw and, when Roper backed away, Louis dropped him with a right to the jaw for the count.—United Press.

Reuter adds that Louis started a 12 to 1 on favourite to beat his 36-year-old opponent.

All Over Quickly

Los Angeles, Apr. 18. Quickly warning to his task after a few quiet exchanges, Joe Louis eagerly accepted his latest sacrifice and knocked out Jack Roper in 2 minutes 20 seconds, including a count before a crowd of 25,000. Louis took \$9,000 and Roper \$2,000. After a cautious opening, Louis left-hooked Roper and the Californian engaged in a short but merry barrage of lefts and rights to Louis' head. Louis retaliated by giving his opponent a terrific jolting in a head attack. He cut Roper's left eye and then leapt in with a ferocious and dazed Roper with a left-armed attack. The Californian crumpled onto his knees in his own corner, and when he attempted to rise he collapsed face downwards and was counted out by George Blake.

Louis' actual attack comprised four rights, four left hooks to the head, a right smash to the jaw and then a final left flush to the chin.—Reuter.

Spelling Bee Scheduled

Three interesting programmes will be conducted by ZBW shortly. On Friday at 8:45 p.m., a popular Spelling Bee will be held. The teams will comprise former pupils of English and Scottish schools. By special request, another series of "That Music Reminds Me" will be held on April 20 commencing at 9:30 p.m. On May 4 it is hoped to conduct a Melody Bee.

Hockey ENGLAND TO PLAY INDIA

Probably the finest match in the international hockey tournament will be held on the Royal Navy ground at King's Park to-day, when England will meet India in the semi-final, the winner to meet Portugal in the final on Sunday at 4 p.m., on the Club ground.

Both teams are very strongly represented and while England were fully extended against Scotland in the first round, they gave an excellent impression and stand a good chance of causing an upset by eliminating India, who were far from satisfying in their first round clash against China.

Following are to-day's teams: England.—Fitz, Osman (R.A.O.C.); V. C. Bond (Club) and L. Bdr. Carter (R.A.); Bdr. Dilnot (R.A.), Lt. Hook (R.A.) and E. Fowler (C.B.A.); S. A. Fowler (Club), E. R. A. Gemmell (Navy), G. H. Fowler (C.B.A.), Bdr. Marshall (R.A.) and L. Cpl. Dunne (Middlesex). India.—N. S. Sen Gupta (University); Datta Ram (Kumaons); Gussain Singh (Kumaons); Duda Ram (Kumaons), M. H. Hassan (Radio) and M. R. Malik (K.I.T.C.); Shah Wali (Rajputana Rifles), Nairan Singh (Kumaons), Lt. Pritam Nath (Rajputana Rifles), Pyara Singh (K.I.T.C.) and Paritab Singh (Kumaons).

CIVIL SERVICE RINKS TO PLAY POLICE CLUB

The following have been selected to represent the C.S.C. in a friendly game of bowls against the P.R.C. on their ground at 3 p.m. on Saturday: A. Steven, T. Sudden, C. Strange and S. Eccleshall.

L. Whant, D. Crawley, H. Strange and J. Holliday. J. Shepherd, W. Burling and M. Ruckson. E. Kerman, J. Carr, A. B. Allon and W. Hillyer. F. Austin, F. Harper, R. R. Wood and W. J. Bagley. R. R. Davis, L. Weeks, L. Collyer and J. Deakin.

PEACH and TURQUOISE

A PRETTY bedroom scheme carried out in peach glazed chintz sprigged with turquoise. Headboards of the divan beds are covered to match. Walls are in a pale peach shade with woodwork and ceiling in old ivory. Carpet, mushroom brown. Turquoise accessories on the polioated dressing table.

WITH bedrooms particularly in mind, the artist and I got down to a decorating scheme. "Something pretty, feminine and restful," I reminded him, "and two basic colours which can be adapted to any aspect."

I specially stressed this point because I know that many women start planning their bedrooms long before the house itself has been decided upon.

Our final decision was a combination of two colours which are essentially feminine; the soft, warm shade of pink called peach, and turquoise blue, which is something between blue and green and a particularly good colour for curtains.

The third subsidiary colour in a room based on these two shades might be old ivory, parchment or gold. Rooms with a similar aspect were our first thought, and for these we planned palest peach walls, with ceiling to match and woodwork in old ivory. This gives you a setting which glows with warmth and sunshine even on a dull day, and we found the scheme good for rooms which are inclined to be dark.

Use Sparingly

Turquoise is more effective if it is not too overpowering, so in this particular room it was used for curtains, dressing table mats and candles, and for a cushion on the bed.

The bedspread was old gold, and the carpet a warm fawn colour with turquoise wool rug beside the bed. This produced a well-balanced scheme with cool and warm colours in the right proportions.

Colours could, of course, be reversed. With a plain turquoise or patterned carpet you could have old gold curtains bordered with turquoise and a turquoise pelmet. Old gold bedspread as before, and turquoise candles with a peach glass pinkie set.

Turquoise shades appear in many Indian carpets, by the way, combined with other tones of blue, green and pink, and the general effect of these colours on a cream or fawn ground is very good for a bedroom.

A scheme like this need not tie you

MODERN stripes are used tastefully in a satinwood bedroom. Printed, satin curtains designed in mushroom, peach and turquoise contrast pleasantly with the wallpaper, which is horizontally striped in two tones of peach. An unusual touch is the peach coloured mirror glass pelmet. Rug striped to tone.

with regard to furniture. Peach walls are a little warm as a background for mahogany, but they are good for wall-paper, the lighter shades of natural oak, weathered oak and aycamore.

A cyanotype suite with a banding of darker walnut is a suggestion for this room, and you could give it an unusual touch by a divan bed with a headboard covered with turquoise material to match curtains or pelmet.

Still another suggestion is a divan bed, polioated dressing-table, and painted whitewood wardrobe and tallboy. These two could be painted old ivory to match the woodwork, with the handles and mouldings in turquoise.

Flower Posies

The polioated for the dressing table would be chintz with an ivory ground and pattern of flower posies in turquoise and peach.

Curtains could be either the plain turquoise material or chintz to match the dressing table, carpet plain light fawn.

For a sunny aspect the artist suggested walls papered or distempered the palest possible shade of turquoise, with ceiling in old ivory and woodwork this time matt painted to match the walls.

We decided on walnut mahogany or oak furniture for this room, with a carpet mainly in fawn and peach, and peach pink curtains and bedspread.

Patterned chintz curtains would be specially pretty against the blue walls, however, and you could also have a chintz bedspread, the carpet in this case being a plain fawn so as not to spoil the balance between the plain and patterned surfaces.

SHORT CUTS

Any waffle batter may be improved by the addition of crushed nuts.

Always chill white wines before serving. Never chill red wine.

All recipes for cake call for sifted flour, whether the recipe says so or not.

To remove tea stains, either borax and lemon or salt and lemon may be used.

A short hen turkey weighing eight to ten pounds is a good buy, because it has more white meat, and less carcass, in proportion, than a larger bird. Black feet indicate a young bird.

Applesauce is improved by the addition of a teaspoonful of lemon juice during the cooking process.

Cooking Hints

TO make pastry surprisingly light, mix it the night before it is required, and add a food half teaspoonful of lemon juice, stirring it well in.

Before cooking potatoes, prick them all over with a clean large darning needle, and they will then be flourey without breaking when served.

Left-overs of pastry can be made into an excellent lunch savoury if rolled out, sprinkled with grated cheese, folded, rolled again, cut into fingers, and baked until brown and crisp.

To prevent a Yorkshire pudding from sticking to the baking tin, first grease the tin and allow the fat to boil before pouring in the mixture while still at that temperature.

Peel onions before a hot fire, so that the moisture will evaporate quickly and not make the eyes smart.

Add half a dozen cloves to the water when boiling bacon or ham and the flavour will be improved and no unpleasant odour arise.

If a cake sticks to a tin, try placing the latter over a bowl of boiling water, for then it will soon separate.

Roll sausages in coarse oatmeal before grilling or frying them, for then it will prevent them breaking, and vastly improve both flavour and appearance.

Before baking potatoes scrub them and allow to stand for twenty minutes in boiling water. They will then cook much more quickly as they are already heated through and turn out delightfully mealy.

Those Difficult "In-Laws"

ONCE relatives were a power in the land. In one of J. M. Barrie's plays, one of his Scots characters right. Where the wife causes him to solemnly propose that the flighty woman can be brought to her senses if they complain to her people.

Relatives are not always appreciated these days, and the remark which I overheard a young girl make the other day seems typical of the times. "When I marry," she said, "I'll choose an orphan with neither brothers nor sisters, and then I'll have a chance of happiness."

Admittedly, interfering relatives can be a nuisance. Even though they may not be of the interfering type, they may be helpless clinging vines who make continuous demands on the resources of the young people. Or, worse still, the relatives in the house may be of the good-for-nothing type who appear to absorb all the help which is given without ever being one bit the better for it.

When the wife refuses point blank to let her husband help relatives of this type, she may appear to have a right on her side, but the more shiftless the relatives are, the greater is their need of help.

Sometimes the refusal of such aid results in a position which strikes a fatal blow at the husband's family pride, and if the wife has a husband who is big-hearted enough to wish to help those who are weaker than himself, she should experience real thankfulness that she has married a man of this stamp.

Another point which is often overlooked is that the husband understands his own people. Possibly the wife does not, so that in any decision

which is made regarding them, his views are likely to be instinctively right. Where the wife causes him to alter them, in nine cases out of ten, she is making a mistake which will rebound back on herself.

But the aspect which upsets the delicate relations of "in-laws" is the power complex from which so many women, young and old, seem to suffer. Some women—mothers as well as wives—go the length of opposing every family plan which has not been originated by themselves, and this for the mere selfish gratification of flaunting their influence.

Another problem is presented by the wife who offers frequent and extended hospitality to her own relatives—and then shows the utmost reluctance to entertain any of her husband's people for a week-end. No matter how well-disposed her husband's relatives may be, they can hardly fail to notice—and resent—this trait.

"In-laws" are often pathetically eager to be friendly with one new-comer to the family, and this is the time to forge a bond which will be of unutterable comfort to the young people in the difficult days which lie ahead. So many ultra-modern women fail to see this, however. They approach their husband's relatives in an attitude which is either defensive or aggressive, and since the mother-in-law or sister-in-law is quick to sense the atmosphere of hostility, what could be a very happy relationship is strained at the outset.

President Roosevelt, right, holds a conference with Governor Lawrence Cramer, centre, and Admiral William D. Leahy aboard the Missouri in St. Thomas Harbour, Virgin Islands.

Six persons, all but one of school age, were killed when this trolley car ran wild in the Dorchester-Roxbury section of Boston, jumped the rails and crashed into two trees. The car was loaded with shoppers and students. Company officials blamed broken brake.

COALITION CABINET

Belgian Political Crisis Postponed

BRUSSELS, Apr. 18. THE BELGIAN Premier M. Pierlot, has formed a new Cabinet.

The Ministers comprise six Catholics, four Liberals and three non-Parliamentarians.

A M. Hubert Pierlot will continue as Premier and will also take office as Minister of Foreign Affairs.

"Reuter" adds that the formation of a Catholic-Liberal coalition, relieves Belgium of its immediate political problem.

NEW CABINET NAMED

Brussels, Apr. 18. M. Pierlot's new Cabinet includes six Catholics, four Liberals, and three non-Parliamentarians.

The Catholic Ministers are M. Pierlot, the Premier and Foreign Minister, M. Spaak, Minister for Economy, M. Mark, Minister for Communication, M. de Vleeschouwer, Minister for the Colonies, M. d'Aspremont-Lund, Minister for Agriculture, M. Delfosse, Minister for Labour and Social Welfare.

The Liberal Ministers are: M. Janssens, Minister for Justice, M. Devos, Minister for the Interior, M. Vande, Minister for Public Works, and M. Janssens, Minister for Health.

M. Duesberg, Minister for Education, M. Gutt, Minister for Finance, and General Denis, Minister for Defence, represent the non-Parliamentary contingent.

The two new members of the Cabinet are the Labour and Health Ministers.—Trans-Ocean.

PIERLOT TO ASK FOR SPECIAL POWERS

Brussels, Apr. 18. The first move by M. Pierlot after forming his new Cabinet, was to announce his intention to ask for special powers for the new Government.

He will shortly introduce to the Chamber a Bill to this effect.

Opinion here is divided regarding the prospects of the new Cabinet. Some are inclined to predict a short life owing to the smallness of the majority it commands in the Belgian Chamber, which amounts to only ten.

It is realized that if the new Premier succeeds in obtaining special powers, he may defeat any attempt to oust him from office.

Composition of the new Cabinet has not found favour even in the Government camp. Flemish Catholics take exception to the fact that the Ministries for the Interior and Education have been given to Walloon Liberals.—Trans-Ocean.

LATE NEWS

President To Intervene

Similar Peace Plea To Japanese

TOKYO, Apr. 19. President Roosevelt intends to send a personal note to the Japanese Government, similar to his communications he sent to Herr Hitler and Signor Mussolini, according to the "Asahi Shimbun."

The newspaper adds that President Roosevelt will probably announce the readiness of the United States to offer his good offices for opening a conference of Powers interested in the Far East for a solution of the current situation in East Asia, provided that Japan is agreeable.—Reuter.

New Earthquake Disaster In Chile

SANTIAGO, Apr. 18. Following the recent disastrous earthquake in southern Chile, the northeastern part of the country, including Atacama Province, was severely struck by an earthquake at 2.30 o'clock on Tuesday morning.

Heavy damage is understood to have been caused to Copiapo and other important cities on the northern coast. Details are not available because the telegraph and telephone communications with the stricken districts have been interrupted.—Domet.

Governor Sends Colony's Regret

His Excellency the Governor, who was informed by the "Telegraph" of the death of Sir Matthew Nathan, has forwarded the following telegram to the Secretary of State for the Colonies:

"Grateful if you would convey to nearest relative expressions of this Colony's deep regret and sympathy on account of the death of Sir Matthew Nathan.—The Governor."

Traffic Lighting Criticised

Appalling In Kowloon, Says Magistrate

Criticism of the traffic lighting system in Kowloon, which was described by the Magistrate and Police as appalling and inadequate, was made at the Kowloon Magistracy yesterday, when an inquiry was held into the death of Wong Hin 40, fisherman, who was knocked down and killed by a taxi in Chatham Road on March 7.

The inquiry was conducted by Mr. E. Himsforth, who was assisted by a jury comprising Messrs. Wong Moon-chung (Foreman), Ho Ping-nam and Liu Chuen, Sub-Inspector, A. R. Brittain was present for the Police.

Dr. H. H. Tai, of the Kowloon Mortuary, who conducted a post mortem on Wong, said that death was due to a fractured skull and intra-cranial haemorrhage.

Chung Hoi-pang, driver of the taxi, said he was driving along Chatham Road about 1.40 a.m. on March 7 at about 20 m.p.h. when he saw Wong rush across the road in front of his taxi. He noticed him when he was about four feet away, and, as an accident appeared unavoidable, he swerved to the left and applied his footbrake, but the man was struck by the right side of the radiator guard. The taxi stopped obliquely across the road, with the man lying about seven feet to the rear of the taxi.

Locality Poorly Lighted

The locality where the accident occurred was very poorly lit at that time, but was now better lighted.

This evidence was corroborated by his passenger, Chu Ka-fun.

Traffic Sub-Inspector J. Scrim said the brakes of the taxi were in a good condition.

Mr. Himsforth: Would you agree with me in describing the lighting as appalling?—Yes.

Five Systems

Sub-Inspector Brittain said that there were five different systems of street lighting in use in Kowloon. They were: blue lighting, commonly used in Nathan Road, centre lighting in Waterloo Road, standard lighting in Chatham Road, and the old pattern as used in Shanghai Street.

Of these five systems only the first mentioned was at all adequate for traffic under present conditions. He added that the lighting at the scene of the accident was the reflector system, but had now been changed to blue lighting.

Mr. Himsforth in addressing the jury stated that he was himself a resident of Kowloon and a car driver, and had driven over Chatham Road often. It was more by good fortune than by good driving that he had so far avoided a similar accident, he declared.

A verdict of accidental death was returned by the jury, while no blame was attached to the driver. The following rider was added: "We wish to state that we are of the opinion that the system of traffic lighting in general should be improved."

CAR OWNERS FINED

H. da Luz, of the Hongkong, Canton and Macao Steamboat Company, was fined \$15 by Mr. R. A. D. Forrest at the Central Magistracy yesterday for failing to notify the change of ownership of his car.

Traffic Sergeant Sargent said the summons was taken out after the car had been involved in an accident.

Summoned for a similar offence, Kam Chung-yun, former owner of the car, was fined \$15.

John James Fiddy, 9th Battery, 5th A.A. Regiment, Lyceum Barracks, was fined \$20 for driving a military car on March 30 with inefficient footbrakes.

Free Food For Poor Families

U.S. Government's Social Experiment

NEW YORK, Apr. 18. A PLAN to distribute surplus foodstuffs among families with low incomes will be tried experimentally in the near future, it was announced to-day by the Secretary for Agriculture, Mr. Henry Wallace.

A new system of food stamps will be used at Rochester, N.Y., which has been chosen as the first of six towns in which the scheme is to be tried over a period of from two to four months.—Reuter.

Barter System Discouraged

London, Apr. 18. The President of the Board of Trade, in a reply to the suggestion for the introduction of a barter or compensation system in Anglo-Argentine trade, informed the House of Commons that he did not consider such a scheme necessary or desirable.

He recalled that under the existing trade agreement the Argentine Government make available sterling exchange for the purpose of remittances to the United Kingdom, up to value of Argentine exports to Britain.—British Wireless.

Commons To Discuss Issue Of Compulsory Service

LONDON, Apr. 18.—"The immediate acceptance in principle of the compulsory mobilisation of man, munition and money power of the nation" is urged in a motion which Mr. L. S. Amery is putting down on the order paper to-night. He has nearly 50 Government supporters, including Mr. A. Duff-Cooper, Sir Edward Grigg, Sir John Wardlaw-Milne, and Sir Stanley Reed in favour of the motion.—*Reuter*.

Singapore And Hongkong

SAFEGUARDED BY AMERICAN FLEET

LONDON, Apr. 18.

THE "EVENING STANDARD," referring to the transfer of the United States fleet to the Pacific says: "That precaution will relieve us of the responsibility of safeguarding our nationals in Singapore and Hongkong, and cannot fail to augment our naval power in waters nearer home."

President Roosevelt's message, says the paper, has placed Mussolini in a dilemma.

"Mussolini must doubt the readiness of his people to fight. He must know that the flouting of American opinion would have direct economic consequences in his country," the paper asserts.—*United Press*.

Discourage Japan

Washington, Apr. 18. Major Elliot, of the War Department, addressing the National Defence symposium of the American Revolution to-day, disclosed that the United States fleet was concentrating in the Pacific in order to discourage Japan from taking advantage of the European crisis to seize more land in Asia.

"The United States has become the leading naval power, because of Britain's realisation that the military airplane makes entire dependence on her fleet impossible," he said.—*United Press*.

Tokyo Reaction

TOKYO, Apr. 18. A press message from Washington says that the concentration of American naval forces in the Pacific Ocean is doubly significant in view of the threatening political situation in Europe.

The message points out that American fleet movements are regarded as a "preventive" measure against Japan's possible participation in a war launched by Germany and Italy. Without Japan's co-operation Italy and Germany probably would not go to war.

Secondly, the American fleet concentration is calculated as a precautionary measure, to protect supply routes with Netherlands East Indies and British India, in the event of the formation of the Italo-German-Japanese front in war.—*Domei*.

Strike Ties Up Tankers

Deadlock On N.Y. Waterfront

New York, Apr. 18. TWENTY-FIVE oil tankers are reported to be tied up in the docks as a result of a strike by the National Maritime Union. The strike followed the collapse of negotiations between the Union and four large oil companies.

The tankers are being stopped as they dock here and at other ports. Nearly 5,000 members of the crews of some 130 tankers have been called out.—*Reuter*.

PARIS, Apr. 18.—M. de Monzie, Minister for Public Works, will shortly leave for Warsaw to perform the opening ceremony of a new stretch of Polish railway line, linking the Baltic with Polish Upper Silesia. The opening ceremony will take place on Sunday, next.—*Trans-Ocean*.

TIENTSIN BOMB OUTRAGE

TIENTSIN, Apr. 19.

The French Police have arrested a terrorist following the premature explosion of a bomb in the Cathay Theatre at 7.50 p.m. yesterday.

The blast injured the terrorist's arm which later had to be amputated.—*United Press*.

DEATH SENTENCES COMMUTED

Death sentence passed on four men in connection with the False Teeth Murder Case has been commuted to penal servitude for ten years.

Clemency was exercised by the Governor-in-Council at this morning's meeting of the Executive.

The four men are Lam Kam-chuen, Fung Chai, Li Shek-ma and Leung Tai. They were found guilty at the March Criminal sessions of the murder of Leung Hung, who was killed when an orange, which was used by a member of the armed gang of which the four accused were parties, dislodged his false teeth.

Notification that clemency had been exercised was conveyed to the four men at Stanley prison shortly before noon.

JAPANESE ESCAPES EXPULSION

Magistrate Refuses Request By Police

DESPITE POLICE allegations that the presence in the Colony of a Japanese against whom court proceedings were instituted was undesirable, the Central Magistrate, Mr. R. A. D. Forrest, refused to issue an order for expulsion this morning.

The defendant, Kyutaro Makita, 49-year-old clerk, arrived in Hongkong from Canton yesterday. He was charged with entering the Colony without a valid passport. His Worship asked Det. Sub-Inspector Ritchie, who prosecuted, whether Makita could have obtained information regarding passport requirements from the British Consulate in Shanghai.

"Not only could he have obtained information. He could have obtained a passport in Shanghai," the police officer replied.

Looking For Business

Makita pleaded that he did not know a passport was necessary. "I am a clerk employed by a Japanese firm, and came to Hongkong to see what prospects there is of starting a business," he said.

The police accepted Makita's explanation. Det. Sub-Inspector Ritchie said in reply to a question, but at the same time asked that an expulsion order be made against the defendant.

GIBRALTAR PRECAUTIONS AS FLEETS MASS

GERMAN WARSHIPS SAIL FOR SPAIN

BERLIN, Apr. 18.

A COMPACT and powerful German battle fleet, consisting of forty units, including 28 fighting craft, left Kiel, Wilhelmshaven and Emden early this morning for a cruise off the Spanish, Portuguese, Spanish Moroccan coasts.

It has been officially denied that there is any strategic significance attached to the cruise.

Meanwhile the Rumanian Foreign Minister has arrived here and has been in conference with the German Foreign Minister.

It is reported that Herr Ribbentrop will ask M. Gafencu to say plainly whether Rumania intends to join the Anglo-French anti-aggression bloc.

It is also reported that Mussolini plans to win Hungary's close support for the Axis.

ANGLO-FRENCH PRECAUTIONS

Reports from Gibraltar state that more than a hundred and fifty British and French warships are now patrolling the approaches to the Mediterranean.

Quarters close to the French authorities here have reported that prompt action has thwarted a possible coup de force in Tangiers.—*United Press*.

BOUND FOR ITALY?

BERLIN, Apr. 18.

TWENTY-FIVE warships, together with auxiliary vessels, participating in a cruise in the Atlantic which will last a month off the West Spanish peninsula, began assembling to-day off Heligoland.

Battleships and submarines left Kiel naval base during the night, and the remainder of the squadron left Wilhelmshaven this morning.

It is stated that the ultimate destination of the fleet will be Italian harbours.—*Reuter*.

GIBRALTAR PREPARES

GIBRALTAR, Apr. 18.

OVER A DOZEN French warships here kept up steam all day.

The crews returned to their ships at sunset after being allowed ashore for two hours.

The harbour entrance was closed at dusk and two destroyers have been patrolling the Bay.

AMERICA PREPARES FOR WAR

To Protect Interests In Event Of Clash

WASHINGTON, Apr. 18. PRESIDENT ROOSEVELT has called a conference regarding the protection of the American financial and economic structure against a threat of war in Europe.

Amongst those called to confer were Secretary of the Treasury, Mr. Henry Morgenthau, Secretary of Agriculture, Mr. Henry Wallace and Chairman of the Federal Reserve Board, Mr. Marriner Eccles.

At the Senate Foreign Relations Committee hearings to-day, Senator Borah told Dr. Charles Fenwick, the neutrality law expert who was testifying before the Committee, that sanctions against aggressors were acts of war.—*United Press*.

Plans Drawn Up

WASHINGTON, Apr. 18.—President Roosevelt has summoned his chief financial and economic advisers for a discussion of the whole subject of world trade as it would be affected by the outbreak of hostilities.

Plans for the conduct of American security and commodity markets in the event of a European war, which were among the subjects for discussion, have already been tentatively drawn up during departmental conversations.—*Reuter*.

France On War Footing

Paris, Apr. 18.

The Council of Ministers, presided by President Lebrun, to-day enacted a series of decrees enforcing the Prime Minister's complete programme to put France on an emergency war footing.

The decrees operate both industrially and economically by creating government control of all raw materials and war industries.—*United Press*.

Fleet's Itinerary

Berlin, Apr. 18.

The German warships, which steamed out to sea to-day, will touch at the following ports:

Chinese Planes Stage Air Raid On Canton

SHANGHAI, Apr. 19.

DESPITE AN EFFORT by the Japanese to shroud the affair in secrecy, it is learned that a squadron of Chinese planes raided Canton at 2 o'clock yesterday afternoon.

The Chinese planes appeared without warning and made the Japanese aerodrome at Peiyungshan their immediate objective.

Peiyungshan, otherwise known as White Cloud Mountain, is on the outskirts of the city itself.

Most of the Japanese planes based at this point were forced to take off for an unknown destination three days ago, owing to the proximity of the Chinese land forces operating against Canton.

The Chinese planes bombed the hangars and barracks without opposition from Japanese planes.—*United Press*.

Guarding Colony's Water

HONGKONG TAKES CENSUS OF WELLS

SECRET PLANS to ensure the safety of Hongkong's water supply in the event of air raids have been prepared, according to information obtained by the "Telegraph" this morning.

The provision of safeguarding the Colony's water supplies has been under active examination for some time.

Arrangements have now been completed whereby it is anticipated that an adequate supply of water can be maintained under all emergency conditions except those created by Nature itself—that is, by an extended drought.

Filtration System

Hitherto, one of the gravest questions has been that of safeguarding the Colony's water supply in the event of enemy raiders polluting the reservoirs with poison gas.

The "Telegraph" understands that plans have now been completed for filtering water in the event of this contingency arising.

It is no secret that, in addition to the plans for conserving Hongkong's water supply adopted by the Government, the military authorities have taken more than adequate measures.

Census Of Old Wells

Part of the plans of the civil authorities have included the taking of a census of all the private wells in the Colony.

Many of these old wells have long since been abandoned by the owners, but A.R.P. officials have taken careful check of these and of the ones still in use.

These wells will be a valuable asset to the Fire Brigade in the event of the Colony's water mains being temporarily shattered during air raid.

Although officials know approximately how many of these wells there are in Hongkong, the information is unobtainable for publication. They are believed, however, to run into several hundreds.

C. in C. OF MANCHURIA Young Marshal To Lead Guerillas

SHANGHAI, Apr. 19.

THE "YOUNG MARSHAL," Chang Hsueh-liang, is reported in Chinese circles to have been appointed Commander-in-Chief of the Chinese guerillas in Manchuria.

Chang, stormy petrel of Chinese politics, was war-lord of Manchuria before the Japanese occupation in 1932.

He fought the Japanese until his troops, exhausted and decimated, were beaten out of the country.

Now, according to Chinese reports, he is about to attempt a come-back. Various estimates have been made of the strength of the guerilla forces operating in Manchukuo.

Japanese Censorship

The Japanese exercise a rigid censorship over the country, and will allow no information to seep through regarding any uprisings there.

Chang would receive his appointment from Chiang Kai-shek, whom he kidnapped in the famous Sian coup in 1936.—*United Press*.

Japanese Secret Organ Raided

A Japanese secret organ in Tientsin was raided by the British authorities, according to a report from the northern port city. Five pistols, it is stated, were discovered.—*Central News*.

U.S. TO OFFER GOOD SERVICES Personal Peace Plea To Japanese

TOKYO, Apr. 19.

PRESIDENT ROOSEVELT intends to send a personal note to the Japanese Government, similar to his communications he sent to Herr Hitler and Signor Mussolini, according to the "Asahi Shimbun."

The newspaper adds that President Roosevelt will probably announce the readiness of the United States to offer its good offices for opening a conference of Powers interested in the Far East for a solution of the current situation in East Asia, provided that Japan is agreeable.

Japan Will Say "No" The "Asahi Shimbun" anticipates that the note will not be forthcoming until after the departure of the cruiser Astoria from Yokohama.

The paper says that the Japanese authorities are already discussing their reply.

Japan will firstly endorse the Italian and German replies, which, the paper expects, will refuse to comply with President Roosevelt's appeal.

Secondly, Japan will maintain the stand that an international Far Eastern conference is not an effective and appropriate measure for dealing with the situation, and therefore she will refuse its convocation.—*Reuter*.

Featherweight Bout In R. I.

Archibald Beats Rodak On Points

PROVIDENCE, R.I.,

Apr. 19.

In a featherweight non-title bout last night, Joey Archibald, holder of the world featherweight title which was recently relinquished by Henry Armstrong, beat Leo Rodak, of Chicago.

Archibald was the aggressor throughout and landed more often than his opponent. He was the cleverer of the two and warded off the two handed punishment from his challenger in several spirited rallies. The boxers began the 15th and final round about even, but Archibald charged out from his corner and battered Rodak and won what many considered to be the deciding round.—*Reuter*.

TO-DAY'S NEWS MAP THE PANAMA CANAL is in the news to-day with the "Reuter" report from Washington that a Bill authorizing the expenditure of US\$277,000,000 for improving and widening the canal has been approved by the Merchant Marine Committee of the House of Representatives.

The Panama Canal was opened to marine traffic just before the outbreak of the Great War in 1914, and is thus a quarter-of-a-century old. Near the existing canal are the ruins of the ill-fated attempt by do-cessop-builder of the Suoz Canal, to link the Atlantic and Pacific twenty-five years earlier. Do Lassops was beaten by malaria. For some time, it has been evident that the Panama Canal is not large enough to allow the transit of super-ships of modern design. With the impending construction of 45,000 ton battle-ships, the problem becomes an urgent one for the United States.

NEW YORK, Apr. 18.

A PLAN to distribute surplus foodstuffs among families with low incomes will be tried experimentally in the near future, it was announced to-day by the Secretary for Agriculture, Mr. Henry Wallace.

A new system of food stamps will be used at Rochester, N.Y., which has been chosen as the first of six towns in which the scheme is to be tried over a period of from two to four months.—Reuter.

Ship' Officer Breaks Ankle

Mr. Peter Olsen, second officer of the steamer Produce, has been admitted to the Kowloon Hospital as the result of an accident on board the ship yesterday. He slipped on the deck while engaged in supervising the loading of cargo, and fell into the hold.

He is suffering from a fractured ankle.

The P. and O. liner Samail left Shanghai yesterday and is due here on Thursday at about 6 a.m.

90-MILE FRONT IN CANTON BATTLE CHINA WINS BACK 500 VILLAGES

CHINESE FORCES converging on Canton from the south-east, east and north-east have succeeded in forming a common front over ninety miles in length, stretching from the south bank of the East River at Sheklung semi-circularly around the old Kwangtung capital through Tsengshing and the Canton-Hankow Railway town of Tailong.

As a result of the operations of the past week, the Chinese forces claim to have recaptured over 5,000 square miles of territory around Canton. In this territory are over 500 villages, with a normal population of several millions.

It is claimed that the Chinese are now in undisputed possession of the entire Kowloon peninsula south of the East River, with the exception of the area on the south bank of the East River around Tungking. Japanese forces defending Tungking are being covered by Japanese war-ships.

Ten Miles Away

The Chinese front is now an average of less than twenty miles from Canton, and is reported to be relentlessly closing in on the city. At the nearest point, on the Canton-Hankow Railway, they are less than ten miles from the city.

Heavy gunfire is audible in the Anglo-French Concession at Shamen. It was reported this morning that the Chinese had completed possession of Sheklung, and were pushing on to Sheklung, the Kowloon-Canton railway city on the east bank of the Tsangkung River. Sheklung is thirty miles east of Canton, and the Tsangkung is the last of the many rivers and streams which the Chinese troops, operating in the region, would have to cross in their attack on the capital.

Bitter fighting is reported in the area between the East River, Tsengshing and Tsungku.

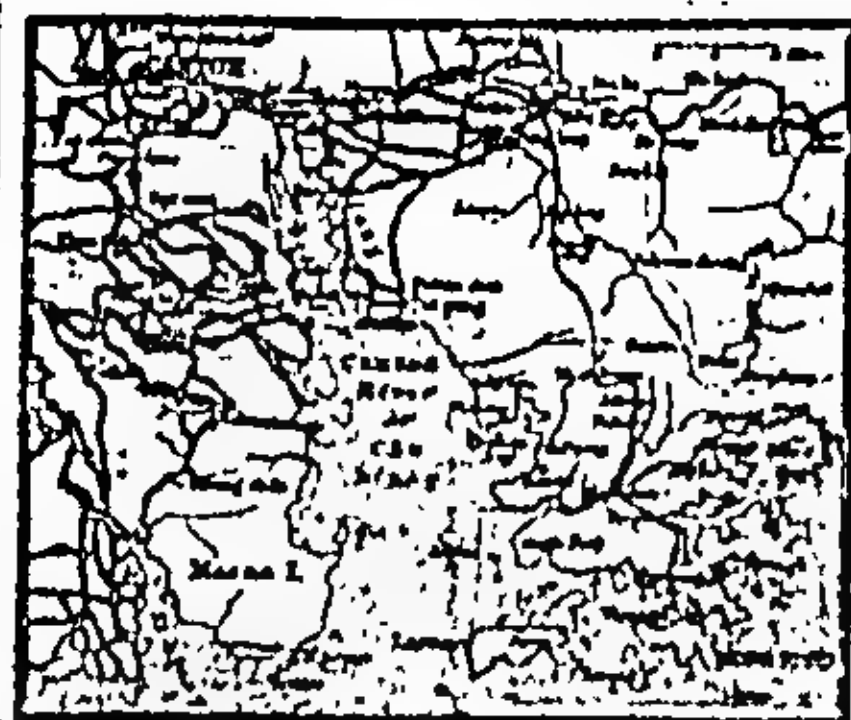

K.C.R. Recaptured

The entire Kowloon-Canton Railway for a distance of sixty-five miles is now in complete possession of the Chinese.

West of Canton, bitter fighting is reported in the Fatshan and Saiman Creek areas. It is emphasised in Chinese circles that, whether Canton is recaptured or not, the immediate effect of the Chinese successes has been to completely relieve any possibility of a Japanese invasion of Kwangtung being undertaken, since the Japanese forces are now back to where they started after Canton fell last October.

Japanese Counter-Attack

A "Central News" message states that Japanese reinforcements are pouring into Sheklung, for a counter-

offensive against Tsengshing and Sheklung.

The Chinese are reported to be maintaining strong positions south-west of Tsengshing.

Since April 10, three Japanese columns comprising about 8,000 men, have been driving on Paitan, on a tributary of the Tseng River, to threaten the rear of the Chinese at Tsengshing. They have encountered stiff Chinese resistance in the neighbourhood of Tsungta, suffering at least 400 casualties.

The Other Fronts

Fighting is still proceeding vigorously on other fronts in China. A "Reuter" message from Peiping states that fighting is intensifying in Shansi.

Fighting is intensifying in Shansi, and the battles are now moving northward towards the centre of the province. Fighting in North Honan and Central Hopei continues, but no substantial advantage appears to have been gained by either side, "Reuter" claims.

Russian Assistance

Japanese official despatches from Peiping complain that Russians are

assisting the Chinese in the offensive in South Shansi.

According to a Japanese spokesman, Russian tactics and methods of firing are being employed by the Chinese artillery on this front.

Asked if Russian-trained Chinese might be responsible, the spokesman told "Reuter" that he believed Russians were operating the artillery. Heavy fighting continues on many fronts in the North. There have been five battles in South Shansi, two near Paitingfu, one south of Kaitung, and another north-east of Peiping, "Reuter" adds.

Question In Commons

LONDON, Apr. 18. Replying to Mr. W. P. F. P. in the House of Commons to-day with regard to the situation in China, Mr. R. S. Hudson said that reports had been received of fighting in Kaitung, but it was not yet possible to vouch for their accuracy.

Otherwise there had been no important changes since the House rose for Easter.

In a written reply to Mr. H. J. Parker, Mr. Butler said that according to latest official Chinese figures, the Chinese Government claimed to be exercising complete administrative control over 61.2 per cent of the nine provinces in which the Japanese were at present, as compared with seven and a half per cent under Japanese control, and 31 per cent partly under Chinese and partly under Japanese control.—Reuter.

Transports In River Delta

The "Telegraph" understands that Japanese transports have been witnessed proceeding in the direction of the Pearl River.

It is not known whether they are carrying troops, but it is presumed that reinforcements are being sent to Canton in connection with the present Chinese counter-offensive.

BRITAIN RESTORING ORDER IN PALESTINE

LONDON, Apr. 18. FURTHER PROGRESS was made in the past month towards the restoration of order in Palestine, stated Mr. Malcolm MacDonald in reply to questions in the House of Commons to-day.

As a result of the firm and energetic action of troops and police, large numbers of armed gangs had been broken up. One of the chief gang-leaders had been killed, and another had taken refuge across the Syrian border and had surrendered to the French authorities.

Considerable quantities of arms, munitions and explosives had been seized or surrendered, but isolated acts of terrorism and sabotage continue. The Government was not yet in position to make a statement with regard to future policy.

Deferring Decision

Mr. Tom Williams, Opposition Labour, suggested that in view of the international situation, the final decision concerning Palestine should at any rate be deferred for six or twelve months.

Mr. MacDonald replied that that was one of the matters the Government was bearing in mind.

Mr. G. Le Mander asked a question with regard to "negotiations going on recently in Cairo with regard to Palestine", and Mr. MacDonald replied that no negotiations were going on, but that it was a different question which he would answer to-morrow.—Reuter.

DIFFICULT YEARS FOR CHILDREN

It's when children start to shoot up suddenly that they need your special attention. Children who are growing fast often tire easily, get pale, listless and do poorly at school.

The trouble is that children have a double job of work to do. They use up energy in work and play—and at the same time they are growing!

Doctors and nurses have recommended Horlicks for years for children who need this extra energy. Horlicks moreover builds sturdy bone and muscle. You'll find that paleness disappears, and school-work improves. And the children seem to gain endless energy and "go." Get Horlicks to-day.

GETS-IT

THE LIQUID CORN CURE

Just a few drops of Gets-It will kill the pain and your corn troubles will be ended!

I WON'T! I WON'T!

Fits of temper—tantrums—breaking up the party may not be serious to grown-ups but it's tragedy to childhood. There's something wrong with this "bridegroom". What he probably needs is CASTORIA, the children's laxative. Nervousness and fits of temper are not natural in children. At the first sign of irritation, temper, give them CASTORIA, the laxative made especially for children. It's pleasant, gentle, mild and thorough.

Don't let real tragedy grip your children. Insure their happiness with CASTORIA, the laxative which blends perfectly with their delicate, sensitive systems. Get a bottle today. Keep it in your home.

Steamboat Co. Annual Report

Dividend Of \$1 Recommended

Recording a profit of \$460,122.28 for the year, the annual report of the Board of Directors of the Hongkong, Canton and Macao Steamboat Company, Ltd. includes a recommendation for the payment of \$1 dividend per share.

The annual meeting of the Company will be held at the Company's offices at noon on Friday, April 28. After special depreciation of wharves and Canton properties and the Reserve for what repairs has been deducted, the net profit amounts to \$371,239.69. A bonus to the shore and floating staffs has been allowed for in \$8,484.00, carrying forward to the Profit and Loss Account for 1939 the sum of \$282,755.69.

The cost of the Company's fleet, less depreciation at December 31, 1938 was \$717,006.75. Wharves and Moorings, properties at Kong Kun and Canton, and office furniture are valued at \$251,735.26. The net earnings of steamers, income from investments, etc. amounted to \$822,704.65.

In accordance with the Articles of Association, Sir Robert Ho Tung, Kt., and Mr. Li Tse-fong retire from the Board by rotation, but, being eligible, offer themselves for re-election. On October 19, Mr. D. F. Lansdale was invited to join the Board, and his appointment requires the confirmation of the Shareholders at the coming annual meeting.

Present Day Prodigal Son

More than eight years ago a Dundee man quarrelled with his father, left home, yet returned shortly afterwards and lived in the same street as his father, without being seen. This strange story was told in Dundee Sheriff Court in connection with a petition lodged by the father to presume his son dead—the petition was rendered necessary by the question of payment under an insurance policy. Assenting to the withdrawal of the Petition the Sheriff commented on what seemed to be the almost impossible fact that the son had lived within a few yards of his father for so long without being seen.

GERMAN WARSHIPS SAIL FOR SPAIN.

(Continued from Page 1.)
Between April 27 and May 1 at Cadix, Algeiras, and Malaga in the south; Spain, and Ceuta and Tangiers in Spanish Morocco. Between May 6 and 10, the German fleet, consisting of cruisers, destroyers, and small units, will visit Ferrol on the north-west coast of Spain, and will then go to Arosa Bay, Ponte Vena, and Vigo, and finally to Lisbon.—Trans-Ocean.

Benes To Lead Two Million

Chicago, April 18. The former Czech president, Dr. Edvard Benes, has announced that he has accepted the leadership of 2,000,000 Czechs abroad who are seeking to establish a new Czechoslovakian Republic.

He sold after agreement with collaborators in London, Paris and Moscow, he had prepared a manifesto to the Czechs in order to start a "new political action."

"This means I will enter the ranks of those forming a European front against aggression," he declared. He also revealed that an attempt is under way to organize a "Czechoslovak National Council."—United Press.

Dutch Conscription

The Hague, April 18. The Government has introduced a Bill extending compulsory military service from 11 months to two years six months, to be served with the frontier battalions.

The measure was introduced with a view to maintaining sufficient trained troops on a permanent footing near the frontiers.—Reuter Special.

Jugo-Slavia Mobilisation

BELGRADE, April 18. It has been learned that Jugo-Slavia will soon at least double the number of troops under arms. It is estimated that this will bring the Army's strength to around 300,000 men.—United Press.

U.S. Cruiser For Malta

MALTA, April 18. It has been learned from official sources that the United States cruiser Omaha will visit Malta between April 25 and May 2.—United Press.

Duty-Free Oil

London, April 18. As a result of "an agreement" between the British and French governments, military aeroplanes of both countries will, in future, be permitted to obtain fuel duty free, states a White Paper issued to-day.

The agreement provides for an extension of the privilege to all colonial and overseas possessions of both countries.

The Paper reveals that this agreement was signed on November 8 last year.—Trans-Ocean.

Passage Through Ice For Soviet Fleet

Leningrad, April 18. Ice-breakers and Soviet naval units equipped with depth charges are engaged on the task of opening a passage through the ice-bound Gulf of the Inland Sea in order to enable the Soviet Baltic fleet to assemble at Kronstadt for spring exercises.

The first vessels to put out will be two Russian freight fleets.—Trans-Ocean.

Swiss And Soviets

Berne, April 18. Asked in the Swiss Parliament to-day whether Switzerland was prepared to resume normal relations with Soviet Russia, a representative of the Federal Council said that he would welcome the restoration of normal relations.—Trans-Ocean.

Poland And Danzig

London, April 18. Answering a question in the House of Commons whether the British guarantee to Poland included Danzig, Mr. R. A. Butler recalled Mr. Chamberlain's recent statement, that it was for Poland to decide if, and when, she considered her independence threatened.

Mr. Butler added that any modification of the status of the free city would have to be submitted to the League of Nations.—Trans-Ocean.

Polish-Rumanian Agreement

Warsaw, April 18. During the meeting of the Polish and Rumanian foreign ministers, in the train to-day when M. Gafencu was on his way to Berlin, it was agreed that neither Poland, Rumania, Lithuania, Latvia or Estonia would enter into any kind of defence accord with Russia.

This agreement was made on the theory that "aid from Russian troops would be just as dangerous as an attack from brown ones."

The same countries will also refuse to recognise any connection between the British guarantees and the possible Anglo-Soviet agreement.—United Press.

MONTE BLUE

HOLLYWOOD, Cal. Monte Blue expects to dodge the fate that comes to movie actors when they are no longer persona grata with the public. He is studying law and will specialize in the handling of theatrical contracts which he declares is almost a virgin field for attorneys.

A Look Through The "Telegraph"

50 YEARS AGO

Dispatches received April 19, 1889. The Admiralty has invited tenders for two battleships for the 1914-15 programme. This is the earliest inviting of tenders for many years. The ships will be ready by October 1910.

10 YEARS AGO

April 19, 1929. A story of a daring exploit by the British gunboat, H.M.S. Tern, is told in this morning's paper. The feat was unfortunately not accomplished without casualties, three naval ratings being wounded. All shipping on the upper reaches of the Yangtze above Ichang, has been held up owing to the intensity of the fighting between rival factions. The fighting was reported to be taking place about twelve miles above Ichang, and H.M.S. Tern was sent up to effect the release of the foreign steamers.

In going up river she was subjected to severe rifle fire from both banks, having, more or less, to run the gauntlet, but the Tern not only got through, but brought the ships back to safety.

A new step in Imperial communications was consummated to-day when the first India-England air mail reached Croydon.

The Canadian Pacific Steamships' recent ship-building programme—the biggest in the world—involves eleven huge vessels of 195,000 gross tons, and will be completed in 1931 when the Empress of Britain, of 40,000 gross tons, is placed in commission between Canada and Europe.

The C.P. line is also building the new Empress of Japan, of 21 knots. The Empress of Japan will be 25,000 tons gross register, and is planned to be the fastest and fastest vessel on the Pacific. The Empress of Canada will be 20,000 tons gross register, and is planned to be the fastest and fastest vessel on the Pacific.

Mr. Butler recalled Mr. Chamberlain's recent statement, that it was for Poland to decide if, and when, she considered her independence threatened.

Mr. Butler added that any modification of the status of the free city would have to be submitted to the League of Nations.—Trans-Ocean.

5 YEARS AGO

April 19, 1934. M. Leon Trotsky (or "Mr. Badoff" as he perils in calling himself) to-day was laughing-stock of the French Surte-Generals and villagers in the department of Seine-et-Marne, just outside Paris, when he was found secretly residing in an expensive villa at Barbazan.

Although not establishing a record, the cold snap at present being experienced in the Colony is the most severe for the month of April for a period of nine years.

Dance Postponed

The Captain and Wardroom Officers, H.M.S. Medway and the Submarine Flotilla, regret that it has been found necessary to alter the date of their dance, from April 28 to May 6.

New invitations will only be issued to those who were unable to accept for the original date.

COURT HEARS STORY OF SHOCKING KNIFE MURDER

THE BRUTAL killing of a man in a public thoroughfare in broad daylight was told at the Criminal Sessions this morning, when Leung Chi, 31, and Tsoi On-chai, 25, were tried before the Chief Justice, Sir Atholl MacGregor, with the murder of Wong King-cheung at Yaumati on March 4.

Mr. J. Whyatt, Crown Counsel, appeared for the prosecution. Mr. H. C. Macnamara, instructed by Mr. W. C. Hung, was for the first accused, and the second was represented by Mr. D. J. N. Anderson, on the instructions of Mr. P. M. Hodgson.

"If they find me not guilty I am only too pleased," said the second accused, when asked if he had any objection to the following Jury trying the case: Messrs. H. C. H. Becher (Foreman), Poon Kwan-wai, Chan Yeung-chai, G. E. Ahwee, Tan Joo-lam, Chung Kum-chuen and Chan Shiu-wa.

MURDER DESCRIBED

Mr. Whyatt said that there were certain features in the case which were not only unusual but remarkable. The murder was committed in broad daylight, in a populous district and in a public thoroughfare by a gang of men who showed a reckless disregard of law and society—a recklessness which was only matched by the brutal methods they employed in the execution of the crime. Of those who took part in the attack only two men were arrested and these, Counsel suggested, were the prisoners in the dock. What their motive for the killing was and where the rest of the gang were, he could not say because the man who could throw most light on them was now dead. So that as it may, this much was clear; the men in the dock took an active and indeed decisive part in the murder.

The scene of the crime, continued Counsel, was Reclamation Street, which was much frequented by hawkers. About noon on March 4 a girl named Leung Ngai-nui was hawking vegetables at the Waterloo Road end of Reclamation Street, when she saw a group of about ten men approaching. Both the first and second accused, whom she knew, were with the group and she noticed that the former was carrying a large long knife. Suspecting that the men were carrying knives, she followed them and they reached the junction of Reclamation Street and Dundas Street, where the Nam Sang Ten-shop was.

At that time, the murdered man was having tea in the shop with a friend called Chan Yung-kan, who had joined him about ten minutes earlier. When the gang got to the shop, the first accused shouted out, "What's his?" and rushed at Wong, striking him on the head with the knife. Confusion then followed, in the course of which Chan also received a cut on the shoulder.

VICTIM CORNERED

Although severely injured, Wong managed to get out of the shop. He ran towards Dundas Street, with both his hands on top of his head where he had been struck, closely followed by his attackers. As he got to the end of Dundas Street, Wong was met by another group of men, and as a result he had to retreat his steps, thus running into the arms of his pursuers. The second accused was then seen striking Wong on the left arm, and how severe that blow was could be gauged by the fact that it cut right through the nerves and arteries, almost severing the arm.

Nevertheless, Wong managed to break away and run back to Reclamation Street and then into Hamilton Street. Meanwhile, the case of the gang had given up the chase and only three or four followed him. Wong continued to run until he reached the corner of a scowling lane which ran No. 214 Street, where he was for a moment and leaned against a wall, totally exhausted.

As his pursuers approached, Wong ran towards Canton Road and sought refuge in a shop at No. 857. The shop-keeper rendered him assistance and blew police whistles, as a result of which the attackers gave up the chase. Police soon arrived and Wong was taken to the Kowloon Hospital in a practically hopeless condition. He died two days afterwards.

Police inquiries were at once set about to look for his attackers. On March 6 the day Wong died, the first accused was arrested as he was going on board a Meco steamship, and the second prisoner

225 APPEAL IN VAIN

Council Notices On Swine-Keepers Hold

AN unsuccessful appeal on behalf of 225 defendants who had been served with notices by the Urban Council to cease keeping swine without licences was made by Mr. F. Wynter-Blyth before Mr. E. Hims-worth at the Kowloon Magistracy this morning.

Mr. Wynter-Blyth pointed out that thousands of people were dependent on this kind of business for their living, and requested that the order be adjourned until September or October, in order that his clients would have more time to pick a different site, or to find another kind of business.

The present summonses have been adjourned since February, when it was said that a petition was being sent to the Governor for the case to be reviewed.

Senior Sanitary Inspector H. L. Lockhart appeared in Court this morning, and said that instructions had been received from the Urban Council that these people were to be given a month to comply with the order, and get rid of the pigs. A decision was made by Mr. Hims-worth in which defendants were given a month in which to comply with the order.

Many Thefts In Colony Yesterday

Nunnery Rifled

THE theft of money and a Rolex wrist watch from a desk in his cabin on board the steamer Pronto, lying at the Cosmopolitan Docks, was reported to the police yesterday by Mr. Moanes, the second officer.

Mr. H. A. Taylor, Government Monopoly Analyst, was robbed of his jacket containing money and articles to the value of \$45 in his office, Fire Brigade Building, yesterday. Mr. D. E. Davis, the Assistant Analyst, also lost his jacket in the same way.

Ip Shek-nam, residing at the Sal Lam nunnery, Shatin, has reported that during the early morning of April 17, some person entered the nunnery and stole a gold cup and jewellery to the value of \$320. Two gold-plated chalice and an overcoat, valued altogether at \$769, which were reported to have been stolen from the Maryknoll Mission at Stanley on Saturday, have since been recovered by the police and restored to the Mission.

Strikers Hold Up Navy Order

Admiralty Seeks To End Trouble

LONDON, Apr. 18. THE ADMIRALTY has taken action at Siemens electrical engineering factory at Woolwich, where a strike is holding up important Government work.

Admiralty employees are loading barges with submarine cable for Singapore, which is Admiralty property, made by Siemens under contract.

While the Admiralty repudiate any action in the nature of strike-breaking, a representative of the strike committee stated to-night that if there was any pressure, brought to bear on dockers and lightermen to assist in the removal of the products, there would be serious trouble.—Reuter.

British Ships Sold To Reich

Govt. Powerless To Stop Transactions

LONDON, Apr. 18. QUESTIONED regarding the recent sale of British merchant ships to Germany, Mr. Oliver Stanley, President of the Board of Trade stated in the House of Commons to-day, that the Board of Trade had no power to prevent the transfer of British merchant ships to foreign flags. In future, it would be made a condition of any assistance for the shipping industry, that owners should first offer them to the Government in connection with the scheme for reserve tonnage.—Reuter.

Alleged Attempt To End Life

A 16-year-old girl, See Wan-ching, employed as a servant at 59 Wong-nichong Road, Happy Valley, was alleged to have attempted to commit suicide yesterday. She jumped into the harbour at Causeway Bay, but was seen and rescued. She was admitted to the Queen Mary Hospital.

Twenty Refugee Children Suffer Food Poisoning

ANOTHER case of mass food-poisoning, although happily with not the same serious results, occurred in Hongkong yesterday. This time the victims were 20 refugee children housed in the old Government Civil Hospital building.

They were rushed to the Queen Mary Hospital after eating a meal together and it was found they were suffering from food poisoning. However, it was found possible to allow 18 of the victims to return to their home, and only two were detained. The children included 14 boys and six girls.

House Of Commons Discusses Political Activity

LONDON, Apr. 18. IN THE House of Commons to-day, Mr. Chamberlain indicated that the maintenance of the independence of the Netherlands, Switzerland and Denmark was of the greatest importance to the European anti-aggression front.

Britain, he said, was continuing in very close consultation on military and other matters with other Powers, including the Soviet, with a view to formal adherence to the anti-aggression bloc.

He failed to mention Turkey, with whom it is understood negotiations might be completed this week.

The Prime Minister was warmly cheered when he referred to the Government's "great satisfaction" regarding President Roosevelt's message.—United Press.

Britain's Ability

LONDON, Apr. 18. Asked in the House of Commons to-day whether he was in a position to announce any new measures designed to increase British ability to discharge her recently extended commitments, Mr. Neville Chamberlain replied that steps were being taken, both to accelerate and widen the basis of production with a view to providing increased war material, bearing in mind the increased demand which it was provident to anticipate in view of the recent developments.

Replying to a question in a Ministry for Supply, Mr. Chamberlain intimated that he would make a statement on this subject in the near future.

Independence

Questioned regarding negotiations with other governments, the Premier said that the Government had entered into no specific engagements with Holland, Switzerland and Denmark, but he added:

"It is necessary for me to insist on the interests which His Majesty's Government has in the preservation of their independence." The Premier, answering Mr. Clement Attlee, said the Government continued to have close consultations with other interested governments, including Russia, but he could not yet supplement his statement of April 13 on this matter.

Roosevelt's Message

Mr. Chamberlain added: "I should like to take this opportunity of informing the House of the great satisfaction with which the Government welcomed the recent initiative of President Roosevelt."

Mr. Chamberlain's reference to the United States was received with prolonged cheering. Mr. Leslie Hore-Belisha, Secretary of State for War, in reply to a question regarding Bren guns, stated that the output was being enlarged, and a "sufficient capacity" was being created in Canada. Australia and South Africa also contemplated establishing factories to manufacture Bren guns.

Mr. Hore-Belisha added that all regular infantry units at home and abroad, except India and Burma, which were separately equipped, had the Bren gun issued up to war scale.—Reuter.

Berlin Communiqué

The following official statement concerning the first conversation between Herr von Ribbentrop and M. Gafencu was issued to-night: "The Reich Minister for Foreign Affairs, Herr von Ribbentrop received the Rumanian Foreign Minister, M. Gafencu, this afternoon for lengthy conversations about questions affecting Germany and Rumania. In the course of the deliberations, which proceeded in a most friendly spirit, it was ascertained that far-reaching agreement of views prevailed on questions affecting both countries."—Trans-Ocean.

Sofia Conversations

LONDON, Apr. 18. The Bulgarian Minister to London, Mr. Momchiloff left here to-day for Sofia, where, it is stated, he will discuss the international situation with his Government. It is not known whether he is the bearer of any special communication from the British Government, but it is stated that he will return to London within a few days.—Trans-Ocean.

Turkish Ambassador

LONDON, Apr. 18.—The Turkish Ambassador visited the British Foreign office at 12.30 p.m. to-day. It is understood that he discussed with Lord Halifax the position of the Dardanelles in the anti-aggression pact, and also that he was given information regarding the present stage of the Anglo-Soviet negotiations.—United Press.

Turkey And Greece

ATHENS, Apr. 18. It is reported here that Turkey and Greece have arranged to pool their fighting forces in the event of war. The Turkish general will command the combined armies and a Greek admiral will direct the combined navies.—United Press.

Rumanian Minister To Visit London

LONDON, Apr. 18. The Rumanian Foreign Minister, M. Gafencu, will arrive in London on April 22 on an official three-day visit. The programme of talks in which he will be engaged has not yet been fixed. Mr. Gafencu arrived in Berlin to-day on his official discussions there will last two days. He will then leave for Brussels, en route to London.—Reuter.

Mussolini Disgusted

Rome, Apr. 18. A high Fascist source reports that Mussolini intends to ignore President Roosevelt's message and to let Hitler speak for both Italy and Germany. Mussolini is "disgusted" at the tone and contents of Roosevelt's message.

He understands that Hitler has told Mussolini that he will give an adequate reply in his speech to the Reichstag on April 23. Meanwhile, the Hungarian Premier and Foreign Minister are arriving in Rome. Their visit is regarded as Mussolini's first move to offset the Anglo-French front, Mussolini seeking to bring Hungary into active support for the Axis.—United Press.

Hitler Returns

Berlin, Apr. 18. Herr Hitler has unexpectedly returned from Austria where he has been inspecting troops. Field Marshal Goering is expected to arrive from Rome this evening.—United Press.

"Show Must Go On" So Owner Went In

"The show must go on" was appeared Chu Tong's policy, as he appeared before Mr. R. Edwards at the Central Magistracy this morning for the third time, charged with exposing indecent pictures to the public at Hollywood Road.

It was said that Chu charged one cent for a look at his pictures through a peep-hole made in a big wooden box. He was sentenced to three months' hard labour. He had two previous convictions for the same offence.

EX-GOVERNOR OF HONGKONG DIES

THE DEATH is announced in London of Lieut.-Colonel the Rt. Hon. Sir Matthew Nathan, P.C., G.C.M.G., K.C.M.G., C.M.G., LL.D., one of Hongkong's foremost Governors, and also one-time Governor of Queensland.

Sir Matthew Nathan, who was 77 years of age, completed a brilliant career in the service of the British Government in 1926. For four years, from 1903 to 1907, he made himself an outstanding administrator of Hongkong, and the beneficial effect of his successful governorship is felt in the Colony even to-day.

Son of the late Mr. Joseph Nathan, Sir Matthew entered the army in 1880, when he joined the Royal Engineers. He was promoted to the rank of Captain in 1889, was made Major in 1899 and Brevet Lieut.-Colonel in 1907.

MILITARY SERVICE

He was Colonel of the Durban Light Infantry in 1914.

In 1895 he served in the Nile Expedition, and he also saw service in the Lushai Expedition in 1890, when he was awarded a medal with clasps.

From 1895 to 1900 he was Secretary to the Colonial Defence Committee, and in 1899 he administered the Government of Sierra Leone. From 1900 to 1903 he was Governor of the Gold Coast.

Governor Sends Colony's Regret

His Excellency the Governor, who was informed by the "Telegraph" of the death of Sir Matthew Nathan, has forwarded the following telegram to the Secretary of State for the Colonies: "Grateful if you would convey to nearest relative expressions of this Colony's deep regret and sympathy on account of the death of Sir Matthew Nathan, The Governor."

He came to Hongkong to become chief administrator here until 1907. From Hongkong he was appointed Governor of Natal, an office which he held for two years. Sir Matthew was then called home to assume the duties of Secretary to the Post Office from 1909 to 1911, and from 1911 to 1914 he was Chairman of the Board of Inland Revenue, and a member of the Pacific Cable Board. His next important office was Under-Secretary to the Lord Lieutenant of Ireland, which he occupied from 1914 to 1916, and in 1916 he was employed on the London Defences.

GOVERNOR OF QUEENSLAND

From 1916 to 1919 he was Secretary to the Ministry of Pensions, and then in 1920 he once again assumed gubernatorial duties, when he became Governor of Queensland.

He held this office until 1926, when he retired from active Government service.

From 1922 to 1928 he was Chancellor of the Queensland University, and in 1929 he became Chairman of the sub-committee on Geophysical Surveying.

From 1927 to 1928 he was a member of the special commission on the Constitution of Ceylon, and from 1926 to 1927 was chairman of the Colonial Secretary's advisory committee on rubber.

In 1923 and again in 1930 he was chairman of the civil research sub-committee on Irrigation Research. From 1930 to 1931 he was President of the Somerset Archaeological and Natural History Society.

After his retirement he was made an Alderman of the Somerset County Council, which office he held from 1927 to 1935. He was also Sheriff of Somerset from 1934 to 1935.

He was made a J.P. and Deputy Lieutenant of Somerset, and was also an F.S.A., F.R.G.S., and F.R.H.S. Nathan Road, the principal thoroughfare of Kowloon, was named after Governor Nathan.

Chinese Is Found Hanging From Tree

The body of an unknown Chinese, aged about 32 years, was found hanging from a tree at Taihang Road, Causeway Bay, yesterday. The body was taken to the mortuary.

Traffic On New Burma Highway

LONDON, Apr. 18. Col. H. H. Muirhead, Under-Secretary of State for India, replying in the House of Commons to-day to questions regarding the Burma-Yunnan road, said that the Burma section was now open to vehicles exceeding five tons gross, and it was anticipated that improvements now being made would keep the road open for this traffic during the rains.

An adequate supply of petrol was available at Lashio and three other points between there and the frontier.

He added that no special protection against aircraft existed on the Burma section.—Reuter.

Anglo-U.S. Trade Pact Benefits

London, Apr. 18.

The President of the Board of Trade told the House of Commons that while it was still too early to draw definite conclusions regarding the effects of the Anglo-American trade agreement, there were already signs of considerable expansion of United Kingdom exports to the United States. The increase in the first two months of this year, as compared with same period of 1938 exceeded £1,000,000.—British Wire-less.

Reichstag Is Increased

BERLIN, Apr. 18. A LAW was passed by the German Government to-day which increases the size of the Reichstag, which already numbers 855 Deputies. Memelland will send two Deputies, while Bohemia and Moravia will send one Deputy for every 600,000 German voters residing in those provinces. The new Deputies will be chosen by Herr Hitler on March 16.—Trans-Ocean.

Danzig As Birthday Present To Hitler?

BERLIN, Apr. 18. DISTINGUISHED foreign guests, mostly high officers of armed forces, are pouring into Berlin to attend the celebration of Herr Hitler's birthday on Thursday.

Most of them are staying at the Adler Hotel, guarded by Black Guards with rifles and steel helmets. The city is decorated with greenery, gold wreaths, and streamers, and crowds to-day gathered outside the Chancellery to watch the birthday presents arriving. The crowd swelled to large proportions in the afternoon, when the Fuehrer unexpectedly returned from Austria.

Despite an official denial, a rumour persists that Germany has been treating with Poland for the peaceful return of Danzig as a birthday present.—Reuter Special.

HUNGARIAN PRESENT FOR HITLER

Budapest, Apr. 18. General Ludwig Keresztes-Fischer, Adjutant-General of the Hungarian Regent, Admiral von Horthy, left here this evening for Berlin to attend the Fuehrer's birthday celebrations. He is taking with him a present to Herr Hitler from Admiral Horthy.—Trans-Ocean.

Reich Statistics

More Babies, And Bigger Appetites

BERLIN, Apr. 18. THE Reich Statistical Bureau to-day announced that 1,522,000 legitimate children were born in Germany from 1934 to 1938. It is claimed that the comparative decrease in the birthrate in 1937 was only temporary, and that 1938 showed an increase of 70,000 over the previous year, these figures applying to the old Reich.

The total increase during the five years was 450,000 in first children, 378,000 in second, 187,000 in third, 95,000 in fourth, and 61,000 in fifth.

The Reich Food Ministry also released interesting figures to-day showing a marked increase in the consumption of foodstuffs per head. Meat consumption rose from 48.9 kilograms per head in 1932 to 57.7 in 1938. At the same time, the annual consumption of butter increased from 7.5 kilograms to 8.5.

The annual consumption of wheat increased from 44.6 kilograms to 55, and milk consumption rose from 103 litres per head in 1932 to 112 litres last year.

More sugar was used, increasing from 20.2 kilograms per head to 24.5.—Trans-Ocean.

More Rain Is Expected

Although no rain was recorded by the Royal Observatory yesterday, some can be expected during the next 24 hours, according to the local forecast issued this morning.

Conditions promise to be equally overcast, with occasional rain, says the report, adding that moderate to fresh east or south-east winds will prevail.

The reasons for the current "dirly" weather are apparently a depression over Tonking, which is deepening, and another depression which is moving eastward over the northern Loochoo Islands.

Temperature will not be excessively high for the time being. At 10 o'clock this morning 70 degrees were registered, but humidity had jumped to 75 per cent. Maximum temperature yesterday was 74, and minimum was 60.

Japan Is Exhausting Herself

CHUNGKING, Apr. 19.

IN THE existing circumstances, there is no possibility of peace, declared Generalissimo Chiang Kai-shek, in an interview with the press yesterday.

Asked if Prince Konoye's peace terms still could be used as a basis for peace talks, Generalissimo Chiang recalled his statement of last December, in which he described the "New order in East Asia" as nothing new, but as another attempt for Japanese hegemony in Asia.

China took up resistance, he continued, for the preservation of her national life, liberty, and independence, and the war would continue until those aims were achieved. Nothing could shake the confidence and determination of the Chinese people to resist.

Referring to Wang Ching-wei and his followers, the Generalissimo declared that moral isolation was a just condemnation, and legal punishment would wait.

Questioned as to how the Sino-Japanese war would be terminated, Generalissimo stated that this depended upon the march of events. Japan, he said, had been reduced to a second-rate power as a result of China's prolonged resistance. The time was bound to come when Japan could no longer bear the strain of war.

War would come in the end, he declared, when the Japanese militarists realized their mistakes, and abandoned their second attempt to conquer China.

SUCCESSFUL POLICY
Asked how the war situation would develop, the Generalissimo stated that it had been China's policy to gain time at the sacrifice of space, defeating the enemy through an accumulation of small victories.

Expressing the opinion that the Chinese plan hitherto had been highly successful, Generalissimo Chiang Kai-shek pointed out that after 22 months of hostilities, China was able to hold many provinces intact, with only a few provinces in the hands of the Japanese. Meanwhile the Japanese were being dragged deeper and deeper into the swamp from which it would be difficult to extricate themselves.

They were exposing themselves to constant attacks by the Chinese, who still held the rural districts in the so-called occupied areas. The Generalissimo condemned "those traitors" who were negotiating for "peace" in Japanese interests.—Reuter.

THE ONLY CHANCE FOR PEACE

Chungking, Apr. 18. At a Press conference to-day, Generalissimo Chiang Kai-shek, referring to the advocates for peace on the basis of the declaration made by Prince Konoye in December last year said: "Under existing circumstances there is absolutely no possibility of peace."

"With no advocacy of surrender can any power shake the determination of the whole country. Our condemnation of those who make the attempt is best limited to moral isolation which they have imposed upon themselves, while legal punishment will wait."

"It would also be possible when the Japanese militarists realize their mistakes and voluntarily give up their attempt at conquest and abandon once and for all their traditional aggressive policy. Should they persist in dreaming of establishing a new order in East Asia the war will not come to a conclusion, nor will there be permanent peace in the Pacific, the Generalissimo declared."

He said it is the Chinese policy "to gain time and sacrifice space to win final triumph through the accumulation of small victories."

This declaration is regarded as being an answer to Mr. Wang Ching-wei.—United Press.

78 Foreigners Are Safe and Well as Kuling Falls

SEVENTY-EIGHT foreigners were alive and well when the Japanese troops arrived in Kuling on Tuesday, following evacuation of the mountain-top by Chinese guerrillas, who had held out for long months in the face of repeated aerial attacks by the Japanese.

The foreigners included 40 Britons, 28 Americans, two Germans and six Swiss. Mr. H. G. Barrie, a British physician revealed that the Chinese troops fled from Kuling only an hour before the arrival of the Japanese through the mountain passes.

"Having stored large quantities of foodstuffs, we did not experience privations," declared Dr. Barrie. Kuling is virtually undamaged, says a "Domei" report, as the Chinese did not resort to "scorched earth" tactics before leaving.

Another "Domei" report says that the nine-month-old obstinate resistance by the marooned Chinese forces on the Lushan mountain, following the fall of Kiukiang last July, was finally overcome on Tuesday morning when a general offensive launched by three Japanese columns on Monday culminated in the occupation of Kuling.

The attack was made from Lien-hwutung at the north-western foot of the mountain, and by eight o'clock yesterday morning the city was entered.

The Chinese offered stiff resistance after barricading themselves in the mountain. About 2,500 men under the command of General Liu Kueh-chun, 31-year-old commander fought stubbornly until forced to retire.

The Japanese cut off all lines of communication when Nanchang fell and all key points were subsequently blocked at the foot of Lushan mountain on April 13. Four days later the final offensive was started, a terrific artillery barrage prefiguring the advance by infantry.

One Japanese detachment secured the strategic height of Chunshan on Monday morning, while a second column started from Wushan and occupied Changkiashan, while a third column thrust from the north-east and reached Lohantow and Tien-chienfeng by Monday evening. The Chinese defenders were apparently somewhat ill-equipped and depended mainly on hand grenades to stop the Japanese assault. Twenty machine-guns were brought into action, and land mines were also used.

Stock Markets Falter

London, Apr. 18. The London Stock Exchange markets bravely attempted to assume a cheerful expression at the opening to-day, and prices generally were higher, but there was an absence of support.

In the face of small offerings, gilt-edged securities during the afternoon caused the development to be ebbier.

Home industries, however, were well maintained, particularly retail store shares and food producers, owing to the publication of a comprehensive plan for the regulation of food distribution in a time of national emergency.

CIVIL DEFENCE CHIEFS

Appointments Are Announced

LONDON, Apr. 18. SIR John Anderson announced in the House of Commons to-day the appointments of regional commissioners under the civil defence scheme.

They include Sir Ernest Gowers and Admiral Sir Edward Evans for the London region, Lord Harlech for the North-Eastern region, Mr. Harold Butler, former Director of the International Labour Office, for the Southern region, Sir Warren Fisher for the North-Western region, Lord Trent for the North Midland region, the Earl of Dudley for the Midland region, Sir Auckland Geddes for the South-Eastern region, Sir Arthur Lambers for the Northern region, General Sir Hugh Elles for the South-Western region, Lord Portal for the Welsh region, Sir Will Spens for the Eastern region.

Mr. Thomas Johnston, M.P. and Mr. T. M. Cooper, Lord Advocate for Scotland will act for Scotland until an emergency arises. They are not paid in peace time for these jobs.—Reuter.

West Africa Ready For The Worst

WINDHOEK, Apr. 18. FIVE hundred police from the South African Union are expected to reach Windhoek in South-West Africa to-morrow.

Meanwhile police from various stations in South-West Africa are concentrating at Windhoek, where hasty arrangements have been made to accommodate them.

Mr. L. C. F. Tallaard, a member of the Executive Council stated to-day in an interview: "There is no question of the territory being wholly under-poled, but in the present dangerous international situation, with 8,000 Germans, most of whom are armed and organised in South-West Africa, there is a possibility of reckless and irresponsible action."

"Admittedly any such rising or attempted putsch would be a horrible, nevertheless, lives might be lost and considerable harm done."

"Anyway, prevention is better than cure."—Reuter Special.

Death Of Famous Scottish Dowager

London, Apr. 18. The Dowager Marchioness of Aberdeen, widow of the former Governor-General of Canada and the Irish Viceroy, well-known for her work in connection with nursing and health services, and other social questions, died this afternoon, aged 82.

The greatest monument to her memory is the International Council of Women, of which she was one of the founders, and President for 40 years.

Her husband, the first Marquess, died in 1934, and thus ended a married partnership which their book "We Two" made world famous.—British Wireless.

ZEESEN CALLING

(Continued from Page 6.)

taken from the American Press. In the news bulletins and talks political bias is very apparent. The B.B.C., in spite of its ideal of objectivity, sometimes succumbed to tendentiousness one way or the other. There can be no question that tendentiousness is far more obvious in the Zeesen broadcasts.

The Spanish Government forces are consistently described as "Reds," Marxists, or Bolsheviks. Dr. Negrin and Senor del Vayo are called the "Soviet" leaders. Mr. Eden and Mr. Churchill are called "those anti-German politicians," and so on.

CONCERTS AND DRAMA

News bulletins form only a fraction of the Zeesen output. Concerts, musical programmes of all kinds, and radio drama, including Shakespeare and detective plays, and German language lessons, are also broadcast. I heard a discussion the other day designed to advertise the facilities offered at Munich University for foreign students. Particular emphasis was laid on the statement that absolutely free expression of thought was allowed in debates at the International Students' Club. "Many of our listeners may not be aware that free and frank discussion really exists in Germany to-day," observed the compere.

Two American students were brought to the microphone to say how much they enjoyed life in Munich. One of them remarked, rather ambiguously, I thought, that it was a fine city, and everything his hearers had heard about it in America was true.

CONTRAST IN METHODS

The German announcers speak extremely fluent English, but adopt a ingratiating, almost guinea style which falls a little uneasily on English ears. Some of them have an Australian accent. On the other hand, Zeesen is much more intimate and personal in its methods than the B.B.C., and it may be that the British programme-makers could learn something on this score. Overseas listeners are encouraged to write to Zeesen; their letters are quoted, their names mentioned, and their questions answered at the microphone. American towns have special programmes dedicated to them.

But nobody who has listened regularly to German short-wave broadcasting can fail to wonder whether it is producing results commensurate with the effort and expenditure. The instincts of the impartial listener must, I should think, inevitably lead him to the conclusion that the B.B.C. bulletins in English but also those in German, are far more effective and suppression. Judged by these standards, I find the B.B.C. bulletins incomparably better, and my preference applies not only to the B.B.C. bulletins in English but also to those in German.

S. A. RUMJAHN ENTERS SEMI-FINALS OF SINGLES

S. A. Rumjahn entered the semi-finals of the Colony tennis singles championship yesterday by defeating Lim Thiam-tet, the Perak champion, in straight sets. Picture shows Rumjahn, who is taking part in his 20th consecutive championship, in action on the stand court yesterday.—Staff Photographer.

GAME PROVES DISAPPOINTING TO HUGE CROWD LIM THIAM-TET FAILS TO TOUCH PEAK FORM

(By "Abo")

Far from being the even game most people had expected, the quarter-final tie in the Colony tennis singles championship between S. A. Rumjahn and Lim Thiam-tet on the stand court of the Hongkong C.C. yesterday proved to be a definite disappointment. Except for one short period in the first set, Rumjahn was never seriously extended and won comfortably by 6-4, 6-2.

How much Lim's recent indisposition affected his play it is difficult to assess, but the fact remains that his form yesterday was far below that of his previous matches. There was an uncertainty about his stroking which had not been apparent before, and he missed many opportunities to finish off a rally when he had got the Indian out of position.

On the other hand Rumjahn played with a determination which is highly commendable for a man who is taking part in the Colony championships for the twentieth consecutive year. He was not content to wait for mistakes on the part of his opponent, but speeded up his game and went all out for winners.

Taking the match as a whole, the standard of play seldom rose very high. Now and again one or the other would flash over a winning drive; more often, however, Lim would concede a point with a weak shot.

SERVICE WEAKNESS

Lim's service, which had been such a potent factor in his earlier ties, let him down badly yesterday. He was extremely unreliable in this department, and he served up innumerable double faults. Compared to Lim's, Rumjahn's service, one of the weakest weapons in his armoury, was very good indeed. Need any more be said?

Until his resistance broke down completely in the latter stages of the match, Lim's recovery was one of the redeeming features of his game. On several occasions when a drive from Rumjahn looked a winner all the way, Lim would make a brilliant return to force the Indian into making a mistake.

After winning the first set in the tenth game, Rumjahn played with confidence and hit the ball much harder than he is wont to do. His sorties to the net were far more successful than they should have been; but his opponent failed to pass him even when he chose what appeared to be the wrong moment in which to make his advances. Ordinarily Lim would have passed him with drives down the side-lines; yesterday he was either over-hitting or driving into the net.

As a result of this victory, Rumjahn has earned the right to meet Tsui Tai-pai in the semi-finals.

TO-DAY'S PROGRAMME

The first semi-final match in the current championships is scheduled to be decided this afternoon. It is in the doubles in which Lee Yue-wing and Ho Ka-lau will meet the Rumjahn cousins. On paper form, the latter pair should get through, but it has to be remembered that the Chinese are well-known for their retrieving qualities and may make a fight of it.

The match will be best of five, sets, and this is a factor in favour of the Indians, who generally take a little time to settle down.

The full programme is as follows:

OPEN DOUBLES (SEMI-FINALS)
Lee Yue-wing and v. S. A. Rumjahn and Ho Ka-lau

CHANGE PREDICTED IN WOMEN'S GOLF

Pinhurst, N. C.
Mrs. Opal Hill of Kansas City, an outstanding woman golfer, predicted in a statement made public here that soon all the women's invitational golf tournaments will be changed to open events.

Mrs. Hill, who became a professional after years of competition as an amateur, made all the winter tournaments and reported, "Many of the championship players would prefer it if the tournaments were open events."

The United States Golf Association recently warned all leading women golfers that it was a violation of the amateur code to accept special rates at hotels and other privileges. Mrs. Hill said many of the women golfers had concluded the best plan would be to make the events open tournaments, so that those who cannot afford to play as amateurs could turn pro and continue in competition.

QUESTION OF TIME?

"Few invitational events this winter," said Mrs. Hill, "have been predicted."

Lim Thiam-tet failed to touch his best form in his quarter-final tie with S. A. Rumjahn and was beaten in two sets.—Staff Photographer.

Cricket Transfers Allowed But Not For Money

London, March 29.

It will be possible for first-class cricketers to be transferred from one county to another this coming season without any residential qualification.

That is the most important part of the report of the M.C.C. committee which prepared a scheme for the registration of county cricketers.

The recommendations of the committee were accepted with only one reservation—namely, on the County Cricket Advisory Committee yesterday and will become operative immediately the M.C.C. gives its formal approval, which can be expected within the next fortnight, writes Charles Bray.

RESTRICTION

There are a series of important restrictions, of course. First-class cricket has no intention of following the first-class Association football in the matter of money transfers, but, broadly speaking, a player not wanted by one county will be able, with the approval of the M.C.C., and the

county from which the player wishes to move, to be immediately transferred to another county requiring his services.

The restrictions deal with players from overseas or the minor counties. The only recommendation not immediately accepted in one relating to the residential qualification affecting minor county cricketers.

FIVE-YEAR CLAUSE

A player who has secured a special transfer cannot have a second one for five years. The county releasing the cricketer is given the right to agree to the immediate transfer of the player, to defer such agreement, or to withhold consent to the transfer. The M.C.C. will be able to override the refusal to permit the transfer if it is proved that it is unreasonable.

Bid For Doubles Title Fails

London, Mar. 23.

Lord Aberdare and his son, the Hon. Morys Bruce, just failed to win the Amateur Rackets Doubles Championship at Queen's Club, C. S. Crawley and R. C. Twining, 11 and 10.

Lord Aberdare and his son, the Hon. Morys Bruce, just failed to win the Amateur Rackets Doubles Championship at Queen's Club, C. S. Crawley and R. C. Twining, 11 and 10.

Lord Aberdare was, as always, a great general and, for a man of 54, his activity was astonishing. He was always ready to dash into the thick of the fray and seemed able to hit from any angle.

His son maintained the splendid form he had already shown in the competition and, in the earlier games, his taking of the service in the back-hand court and the manner in which he stood up to the insistent pressure brought on him by Crawley and Pawle, augured the highest possibilities for the future. He is very young and it was not surprising, therefore, that towards the end he tired under his opponents' relentless attack.

RUN-OF ELEVEN

After Lord Aberdare had scored two points by service in the first game, Pawle made 5 and then Crawley ran out for the game and went to 1-0 in the second, a run of 11. After some splendid rallies in the second game Crawley and Pawle led by 11-7, Pawle making a good 6, but Lord Aberdare and Bruce drew up to 12-11 and Lord Aberdare won the game with three crashing services.

The third game was a brief affair, Pawle got in at 2-1, ran out for game and went to 3-0 in the fourth, a splendid run of 10, 11 of which were scored direct from the service. Lord Aberdare and his son were level at 5-4 and then Bruce, playing great stuff in the rallies, won the game with a run of 10.

The fifth game was evenly fought to 6-4 and Crawley and Pawle led 10-8, but 5 by Bruce, all by service, gave his side a 13-10 lead. Pawle made 2, but, after some blank hands, Bruce clinched the game. In the sixth game, Bruce weakened a little and Crawley and Pawle crowded on the pace. Small runs enabled them to lead 13-7. Lord

At the final reckoning, however, Cambridge had turned two of these deficits into winning margins. And in the leading contest John Langley, the Cambridge captain, sank his putt from 10ft. to win the last hole and so square the match.

A gale of wind caused many shots to be played from bunkers and sand-hills, but W. S. Whitelaw and W. H. Halstead, who beat their Oxford opponents by 11 and 10, played some brilliant golf. For the eight holes in the afternoon they were five under four, the figures being:

4 5 2 3 4 2 5 2

THE RESULTS

Here are the results in detail: J. C. Lawrie and F. M. Forster (Oxford) halved with J. D. A. Langley and N. B. F. Mann.

W. S. I. Whitelaw and W. H. Halstead (Cambridge) beat S. Pether and R. C. Twining, 11 and 10.

E. S. Bravure and R. C. Booth (Cambridge) beat T. C. Harvey and J. R. Briggs, 2 and 1.

R. B. How and G. L. Reynolds (Cambridge) beat C. B. Walker and A. S. Glibby by one up.

A. J. B. Marsham and R. O. Wynn (Oxford) beat B. D. Carris and A. E. Buchanan, 4 and 3.

Harvey and Briggs had once been 5 up on Browne and Booth, and were 4 up at the end of the morning round. How and Reynolds struggled against a two-holes deficit for most of the afternoon, but Reynolds got down a long putt to square at the 17th and sank another one of 5ft. to win the 18th.

FAVOURITE LIKELY TO BE STARTER

London, Apr. 18.

Signal Light, winner of the Craven Stakes at Newmarket last week and favourite for the Two Thousand Guineas, has improved and is now likely to be a starter. Earlier on Signal Light had been reported suffering from shoulder trouble and was undergoing veterinary treatment. His stable companion, Foxbrough, however, has now become a very doubtful starter.—Reuter.

SUBURBAN STAKES

London, Apr. 10. The following alterations have been made in the list of probable starters for the City and Suburban Stakes: Lyrach rides Equemonding and Sibbritt will take out Owen.—Reuter.

Aberdare made one and Crawley went out. Crawley and Pawle obtained a 12-10 lead in the seventh game. Lord Aberdare and Bruce were always fighting back but the pace was a little too much for them and Crawley and Pawle were strong winners at the finish.

United States Tennis Officials To Help Von Cramm In Come-Back

New York, Apr. 4.

American leaders of amateur and professional tennis will try to smooth the rocky come-back round for Baron Gottfried Von Cramm of Germany whose brilliant court career was temporarily blighted by prison bars.

I learned authoritatively that officials of the United States Lawn Tennis Association will put pressure on our immigration department to have the big, blond German ace admitted to our country this summer.

Such pressure will be needed because foreigners who have suffered prison sentences or who come under the clause of "moral turpitude" are barred entrance to our shores.

The U. S. L. T. A. brass hals are quite set upon having Baron Von Cramm visit here this summer. They need him for the five important grass tournaments, and particularly as a drawing card for the Nationals at Forest Hills—now that red-headed Don Budge is carving out a quiet hundred grand as a professional. They've got to have a big name for the gate.

And there is no greater name in amateur tennis today than that of Von Cramm, who stands out as the world's No. 1 Simon Pure performer since the commercial shift of Budge.

WANTED AS FOIL

Not only are the U. S. L. T. A. officials concentrating on the German Baron, but promoter Jack Harris of the professional tours also is casting big eyes at the Teutonic Blade. Harris admittedly recognizes in Von Cramm the only tennis player in the world who may be used as a foil for Budge in a big time American professional tour next winter.

Harris says, "Budge beat Ellsworth Vines in the first heat of the current tour. And Budge will beat Fred Perry of England in the last half of the tour. Next winter we'll have to have Von Cramm as an opponent for Budge, or we won't have any tour. No, I haven't negotiated with Von Cramm yet about his turning professional, but Budge corresponds with him regularly. I believe everything will work out all right."

You'll notice that none of the men who mention Von Cramm connect him with Davis Cup play. The reason is this: Never again will the Baron represent Germany on the court. He has been allowed his freedom from German jails, but his alleged offence and incarceration prevent him forever from representing the fatherland on the court—as long as Herr Hitler is Der Fuehrer.

It was a year ago that Von Cramm was arrested in Berlin and charged with violating paragraph 175 of the German code which deals with sexual irregularities. On May 14 he was sentenced to a year in prison in connection with blackmail of 20,000 marks that he had paid to Manfred Herbet, who was described as a "Geltelien Jew."

TOO OUTSPOKEN

In America, the tennis men who knew Von Cramm well laughed down the immorality charges. They recalled that Von Cramm, unfortunately, had been outspoken against the Nazi regime. And that certain statements he made about government in Germany while touring Australia in the winter of '37-'38 probably had far more to do with his arrest and

ALLISON RENEWS CONTRACT

Arsenal To Keep Manager

London, April 1. Mr. George F. Allison has been invited to renew his contract with the Arsenal, and now that minor managerial differences have been adjusted he intends to do so.

A new contract to take the place of the one which expires a year next June is being prepared.

Mr. Allison's position is the most onerous in football, and during the five years he has held it as the successor to Herbert Chapman the club has been carried on with outstanding distinction.

The club's record in fact in winning the Cup plus the League championship three times in six seasons has never been equalled and is a wonderful tribute to Mr. Allison's leadership.

ECONOMY

This, too, has been accomplished by an economy in transfer fees, which was not previously practised. Indeed, until the payment of £14,000 for Bryn Jones, there was a balance between the fees paid and those received of players released in favour of the club.

This season there has been a slight decline in playing results, but there comes a time in the life of every team when difficult rebuilding work has to be undertaken, and the club are passing through this period with less trouble than might have been anticipated.

SOLUTION TO HOOKING PROBLEM NEEDED

Rest Of Rugby Season Could Be Devoted To Scrum Experiments

By Peter Lawless

London, Mar. 22.

With the match between the Army and the Royal Air Force at Twickenham on Saturday the representative games of the season come to an end. But there are hosts of club games to come, to say nothing of the Barbarians' tour, before the season dies. Why not use the balance of these games for experiments in restraining the destructive activities of back-row forwards; and in finding a practical solution to the hooking problem?

A sub-committee is to be formed to study the existing scrumming laws, and their recommendations are to come before the International Board on the eve of the Calcutta Cup match in 12 months time. This, already announced, was decided by the International Board at a meeting in Edinburgh last week. Well, that leaves us plenty of time in all conscience.

But before going any further let us remember that the honorary secretary of the Board may at any time convene a special meeting of the Board upon the request of any Union, provided the purpose for which the meeting is desired be intimated to the different Unions at least three weeks before the meeting.

Judging from certain statements in various letters which have reached me, it may not be out of place here to draw attention to some points in the laws affecting wing-forwards and hookers, who are the joint villains of the piece. A player is off-side if, while the ball is in a scrumming, he, not being in the scrumming, remains with either foot in front of the ball, "remain" or "either" being in black type in the law. After "in front of the ball" to "in front of his own scrumming" and Rugby becomes an entirely different game.

UNWORKABLE

Then we came to: "It is illegal for more than three players to form either front row of the scrumming before the ball has been put in." The ball shall be put in without delay. The player putting in the ball shall stand not less than three feet from the scrumming and with both hands below the knee shall put the ball fairly in at moderate speed so that it first touches the ground beyond one foot of the nearest player from the front row. It is illegal for any player in either front row of the scrumming to raise or advance his foot until the ball is fairly in. I've left out some of the twiddle bits but you get the idea.

It won't work. Referees do their best to interpret the law, and hookers, knowing it won't work, do their best to comply with the referee's interpretation. Let the first step be to have a sub-committee of people in the arena. Two good hookers, say Travers and Toff, two good referees, say Gadeny and Ireland; add four knowledgeable front-row forwards, a slow motion cine camera expert to photograph the experiments—and the members of the International Board to watch them.

CONSTRUCTIVE LETTER

And here is an interesting and constructive letter on the subject from Mr. H. R. Newton, the secretary of that successful side, Bedford:

WAKE UP YOUR LIVER BILE

Without Cereal—And You'll Jump Out of Bed Full of Vigor.

The liver should pour out two pints of bile into your bowels daily. If this bile is not flowing freely, your food does not digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, runk and the world looks pink.

Laxatives are only makeshifts. A more bowel movement does not get at the cause. It takes these famous Carter's Little Liver Pills to get these two pints of bile flowing freely and make you feel "up and up." Laxatives, gentle, yet amazing in making bile flow freely. Look for the name Carter's Little Liver Pills on the red package. Refuse anything else.

JACK ROPER KNOCKED OUT IN FIRST ROUND

Los Angeles, Apr. 17.

Joe Louis, 204½ lbs., knocked out Jack Roper, 204½ lbs., in the first round of their 10-round bout at Wrigley Field to-night in exactly 2 minutes 30 seconds.

Louis and Roper met in the middle of the ring and sparred cautiously. Roper landed a light left to Joe's chin, followed by a left to the jaw. Louis came back with a right to Roper's jaw, followed by another to the same spot and two more to Roper's head.

Then Louis staggered Roper with a series of lefts to the jaw and, when Roper backed away, Louis dropped him with a right to the jaw for the count.—United Press.

Reuter adds that Louis started a 12 to 1 on favourite to beat his 36-year-old opponent.

All Over Quickly

Los Angeles, Apr. 18.

Quickly warning to his task after a few quiet exchanges, Joe Louis eagerly accepted his latest sacrifice and knocked out Jack Roper in 2 minutes 30 seconds, including a count before a crowd of 25,000. Louis took £20,000 and Roper £2,000.

After a cautious opening, Louis left-hooked Roper and the Californian engaged in a short but merry barrage of lefts and rights to Louis' head. Louis retaliated by giving his opponent a terrific jolting in a head attack. He cut Roper's left eye and then leapt in with tigerish ferocity and dazed Roper with a two-fisted attack. The Californian crumpled onto his knees in his own corner, and when he attempted to rise he collapsed face downwards and was counted out by George Blake.

Louis' actual attack comprised four rights, four left hooks to the head, a right smash to the jaw and then a final left flush to the chin.—Reuter.

Spelling Bee Scheduled

Three interesting programmes will be conducted by ZBW shortly.

On Friday at 8.45 p.m., a popular Spelling Bee will be held. The teams will comprise former pupils of English and Scottish schools.

By special request, another series of "That Music Reminds Me" will be held on April 20 commencing at 9.50 p.m.

On May 4 it is hoped to conduct a Melody Bee.

ENGLAND TO PLAY INDIA

Probably the finest match in the international hockey tournament will be held on the Royal Navy ground at King's Park to-day, when England will meet India in the semi-final, the winner to meet Portugal in the final on Sunday at 4 p.m., on the Club ground.

Both teams are very strongly represented and while England were fully extended against Scotland in the first round, they gave an excellent impression and stand a good chance of causing an upset by eliminating India, who were far from satisfying in their first round clash against China.

Following are to-day's teams: England.—Pte. Osman (R.A.O.C.), V. C. Bond (Club) and L. Bdr. Carter (R.A.); Bdr. Dillnot (R.A.), Lt. Hook (R.A.) and E. Fowler (C.B.A.); S. A. Fowler (Club), E. R. A. Gemmel (Navy), G. H. Fowler (C.B.A.), Bdr. Marshall (R.A.) and L. Cpl. Dunne (Middlesex).

India.—S. Sen Gupta (University), Datta Ram (Kumaons) and Gussain Singh (Kumaons), Duda Ram (Kumaons), M. H. Hassan (Radio) and M. R. Malik (K.I.T.C.); Shah Wah (Rajputana Rifles), Nersin Singh (Kumaons), Lt. Pratim Nath (Rajputana Rifles), Purna Singh (K.I.T.C.) and Parthab Singh (Kumaons).

PEACH and TURQUOISE

A PRETTY bedroom scheme carried out in peach glazed chintz sprigged with turquoise. Headboards of the divan beds are covered to match. Walls are in a pale peach shade with woodwork and ceiling in old ivory. Carpet, mushroom brown. Turquoise accessories on the polioated dressing table.

WITH bedrooms particularly in mind, the artist and I got down to a decorating scheme. "Something pretty, feminine and restful," I reminded him, "and two basic colours which can be adapted to any aspect."

I especially stressed this point because I know that many women start planning their bedrooms long before the house itself has been decided upon.

Our final decision was a combination of two colours which are essentially feminine: the soft, warm shade of pink called peach, and turquoise blue, which is something between blue and green and a particularly good colour for curtains.

The third subsidiary colour in a room based on these two shades might be old ivory, parchment or gold.

Rooms with a sunless aspect were our first thought, and for these we planned pale peach walls, with ceiling to match and woodwork in old ivory. This gives you a setting which glows with warmth and sunshine even on a dull day, and we found the scheme good for rooms which are inclined to be dark.

Use Springily

Turquoise is more effective if it is not too overpowering; so in this particular room it was used for curtains, dressing table mats and candles, and for a cushion on the bed.

The bedspread was old gold, and the carpet a warm fawn colour with turquoise wool rugs beside the bed. This produced a well-balanced scheme with cool and warm colours in the right proportions.

Colours could, of course, be reversed. With a plain turquoise or patterned carpet you could have old gold curtains bordered with turquoise and a turquoise pelmet, old gold bedspread as before, and turquoise candles with a peach glass trinket set. Turquoise shades appear in many Indian carpets, by the way, combined with other tones of blue, green and pink, and the general effect of these colours on a cream or fawn ground is very good for a bedroom.

A scheme like this need not tie you

MODERN stripes are used tastefully in a satinwood bedroom. Printed satin curtains designed in mushroom, peach and turquoise contrast pleasantly with the wallpaper, which is horizontally striped in two tones of peach. An unusual touch is the peach coloured mirror glass pelmet. Rug striped to tone.

with regard to furniture. Peach walls are a little warm as a background for mahogany, but they are good for walnut, the lighter shades of natural oak, weathered oak and plywood.

A symmetrical suite with a banding of darker walnut is a suggestion for this room, and you could give it an unusual touch by a divan bed with a headboard covered with turquoise material to match curtains or pelmet.

Still another suggestion is a divan bed, polioated dressing-table, and painted whitewood wardrobe and tallboy. These two could be painted old ivory to match the woodwork with the handles and mouldings in turquoise.

Flower Posies
The petticoat for the dressing table would be chintz with an ivory ground and pattern of flower posies in turquoise and peach.

Curtains could be either the plain turquoise material or chintz to match the dressing table, carpet plain light fawn.

For a sunny aspect the artist suggested walls papered or distempered the palest possible shade of turquoise, with ceiling in old ivory and woodwork this time matt painted to match the walls.

We decided on walnut, mahogany or oak furniture for this room, with a carpet mainly in fawn and peach, and peach pink curtains and bedspread.

Patterned chintz curtains would be specially pretty against the blue walls, however, and you could also have a chintz bedspread, the carpet in this case being a plain fawn so as not to spoil the balance between the plain and patterned surfaces.

SHORT CUTS

Any waffle batter may be improved by the addition of crushed nuts.

Always chill white wines before serving. Never chill red wine.

All recipes for cake call for sifted flour, whether the recipe says so or not.

To remove tea stains, either borax and lemon or salt and lemon may be used.

A short hen turkey, weighing eight to ten pounds is a good buy, because it has more white meat and less carcass, in proportion, than a larger bird. Many feel indicate a young bird.

Applesauce is improved by the addition of a teaspoonful of lemon juice during the cooking process.

turquoise scheme might be a little impractical for a living room; so here the artist suggested the foundation of old ivory walls, ceiling and paint.

Rough textured wallpapers in an old ivory colour are practical for living rooms, for although they are a light colour they do not show dirt easily.

The rest of the scheme was built up on the two main colours. We decided on a carpet patterned in blue and green on a fawn ground as being better for wear than a plain one.

Curtains and pelmet could be turquoise, with glass curtains of pale gold net.

Easy chairs could be upholstered in a fawn moquette or tapestry with a small pattern in darker fawn or brown; this neutral colour would give full value to the peach, turquoise and gold cushions.

I would choose peach tinted glass or parchment for the lampshade in this room; they shed a most becoming pink glow over the walls at night.

Cooking Hints

TO make pastry surprisingly light, mix it the night before it is required, and add a good half teaspoonful of lemon juice, stirring it well in.

Before cooking potatoes, prick them all over with a clean large darning needle, and they will then be fluffy without breaking when served.

Left-overs of pastry can be made into an excellent lunch savoury if rolled out, sprinkled with grated cheese, folded, rolled again, cut into fingers, and baked until brown and crisp.

To prevent a Yorkshire pudding from sticking to the baking tin, first grease the tin and allow the fat to boil before pouring in the mixture while still at that temperature.

Peel onions before a hot fire so that the moisture will evaporate quickly and not make the eyes smart.

Add half a dozen cloves to the water when boiling bacon or ham and the flavour will be improved and no unpleasant odour arise.

If a cake sticks to a tin, try placing the latter over a bowl of boiling water, for then it will soon separate.

Roll sausages in coarse oatmeal before frying, or frying them, for then it will prevent them breaking, and vastly improve both flavour and appearance.

Before baking potatoes, scrub them and allow to stand for twenty minutes in boiling water. They will then cook much more quickly as they are already heaped through and turn out delightfully mealy.

Those Difficult "In-Laws"

ONCE relatives were a power in the which is made regarding them, his land. In one of J. M. Barrie's views are likely to be instinctively played, one of his Scots characters right. Where the wife causes him to solemnly propose that the flighty alter them, in nine cases out of ten, woman can be brought to her senses she is making a mistake which will rebound back on herself.

But the aspect which upsets the delicate relations of "in-laws" is the power complex from which so many women, young and old, seem to suffer. Some women—mothers as well as wives—go the length of opposing every family plan which has not been originated by themselves, and this for the mere selfish gratification of flaunting their influence.

Admittedly, interfering relatives can be a nuisance. Even though they may not be of the interfering type, they may be helpless clinging vines who make continuous demands on the resources of the young people.

Or, worse still, the relatives in the case may be of the good-for-nothing type who appear to absorb all the help which is given without ever being one bit the better for it.

When the wife refuses point blank to let her husband help relatives of this type, she may appear to have right on her side, but the more shiftless the relatives are, the greater is their need of help.

Sometimes the refusal of such aid results in a position which strikes a fatal blow at the husband's family pride, and if the wife has a husband who is big-hearted enough to wish to help those who are weaker than himself, she should experience real thankfulness that she has married a man of this stamp.

Another point which is often overlooked is that the husband understands his own people. Possibly the wife does not, so that in any decision
